## H. W. Vinnicombe,

Resident Piano Tuner & Regulator.

HAS adopted the Dollar system of Tuning,  
—six visits a year, at one dollar per  
visit. This system is much more economical  
and satisfactory than any other, as the cost is  
less, and the instrument is kept constantly in  
tune and repair.

A visit will be made to all parts of the  
Island once a year, or oftener if desired.  
Pianos tuned by Hamilton's system of even  
temperament.

Orders may be left at Mr. Fletcher's  
Music Store, or at Bremner Bros., Queen  
Street.

## DENTISTRY.

THE cry of "Hard times" and "No  
money" is universal. Yet people lose  
their teeth, and in consequence their health.  
Again, recent improvements have cheapened  
the cost of Dental material;—considering which  
I have decided to reduce my prices, and for  
three months from the date of this I will  
make a set of teeth for Ten Dollars.  
Parts of sets correspondingly cheap. More  
than this—I will use good material and guar-  
antee, in every case, a perfect fit.

## Italian Method with Diphtheria.

The two methods of treating diphtheria  
with chlorate of potash and hydrate of  
chlorate, have been combined by Dr. Cesare  
Ciattaglia, of Rome, and, as he claims,  
with remarkable success. He dissolves a  
drachm of hydrate of chloral in five drams of  
glycerine, and applies it to the false mem-  
branes three or four times a day, by means  
of a camel's hair brush. Of the chlorate of  
potash he gives from two and a half to four  
drachms a day dissolved in four and a half  
ounces of water, to children of from three  
to six years, and an ounce to adults. With  
these medicines he always combines a tonic  
and restorative diet.

Wont Stand It.

The Speaker of the Quebec Assembly is  
breathing forth vengeance and slaughter  
against his political enemies. Not one but  
all and sundry are doomed by him to des-  
truction, and that in the briefest possible  
time:—

MONTREAL, JAN. 15.—HON. A. Turcotte,  
Speaker of the Legislative Assembly of Que-  
bec, intends suing the proprietors of the  
Montreal Gazette, both civilly and criminally  
for libel. It is also his intention to do the  
same with other papers shortly. He also, it is  
said, intends laying bills of indictment  
against several prominent politicians here  
when the Grand Jury meets in March.

Why not indict arraign, and behead the  
entire Liberal-Conservative party at a single  
swoop?—Sun.

THE CANADIAN CHAMPION.

The Toronto Mail says:—Edward Hanlan  
starts for England from here on the 27th  
inst. He goes via New York, berths having  
already been secured for himself and Messrs.  
David Ward and James Heasley, who ac-  
company him, on the Inman steamer "City  
of Montreal," which sails on the 30th inst.  
From Liverpool the Champion goes direct to  
New Castle, where he expects to arrive in  
plenty of time to see the Higgin's-Elliott  
match on the 17th prox. He will take the  
Elliot boat in which he rowed a Lachine  
and another shell which the Judge is build-  
ing for him at Green point, N. Y. Hanlan  
keeps in good health, and takes daily exer-  
cise at the gymnasium and with his rowing  
machine. Hanlan's arrival will be watched  
for with very considerable interest in En-  
gland and he will doubtless be hospitably re-  
ceived and entertained wherever he happens  
to be.

The Queen's Wedding Cake in N. B.

A Richibucto, Kent County, N. B., cor-  
respondent of the Times writes as follows,  
under date of the 13th inst., concerning  
Queen Victoria's Wedding Cake:—

"In the last issue of the Weekly Times  
an article appeared, taken from the Argen-  
teuil Advertiser, stating that a certain Mrs.  
Henry Wood has a piece of the Queen's  
marriage cake still in her possession. We  
beg leave to state that Professor John Bil-  
ton, of Lincolnshire, England, at present  
residing in Richibucto, has also a piece of  
Her Majesty's marriage cake, given to him  
by John Longdon, gentleman porter to  
Her Majesty the Queen, high steward of  
the household of the Marchioness of Cum-  
berland, one of the ladies of the bedcham-  
ber. Professor Bilton, we understand, has  
preserved a piece of the cake, and it is now  
seen among the curiosities of his valuable  
collection in the Museum of the Academy  
of Art. Professor Bilton can safely say  
that he is the only man at present in the  
Province of New Brunswick who has tasted  
of his Sovereign's wedding cake."

PAPER CARPETS.—A paper carpet is now  
made in England, designed to imitate par-  
quet flooring, the paper being printed in patterns  
to represent different woods, from photo-  
graphs, so that the resemblance is perfect.  
The floor is first prepared, being made per-  
fectly level, and the crevices filled up with  
plaster of Paris; over the surface as thus  
prepared, hessian is stretched, and on this  
first lining paper and then patterned paper  
is pasted, the whole being finished with a  
coating of a peculiar kind of varnish, de-  
scribed as wonderfully hard, and wear resist-  
ing. This kind of carpeting can be kept  
perfectly clean with great ease, and though  
the wear of paper carpeting may be thought  
problematical, the inventor states that he has  
had rooms covered with it for sixteen  
months, without showing any appreciable  
signs of wear.

A man who has had much experience in  
managing horses, says: "Whenever ner-  
vous horsemen notice their horse directing  
his ear to any point whatever or indicating  
the slightest disposition to become afraid,  
let them, instead of pulling the rein to  
bring the horse toward the object causing  
his nervousness, pull it on the other side.  
This will instantly divert the attention of  
the horse from the object which is exciting  
his suspicion, and in ninety-nine cases out  
of a hundred the horse will pay no more at-  
tention to the object, from which he will  
fly away if forcibly driven to it by pulling  
on the wrong rein. The practice most per-  
sons have of forcing a horse up to the ob-  
ject, frightening it, is dangerous and use-  
less."

## Miscellaneous News.

Madame Anderson's walk netted her  
\$8,000.

Mr. Livingstone of the St. John Sun, is  
to be placed in charge of the St. John  
Immigration Office, vice Mr. Shive's, de-  
ceased.

Grant will leave Paris on Saturday for  
Marseilles, and sail thence for India on  
Thursday, in the regular French steamer.  
He will not wait for the steamer Richmond.

Lord Salisbury, British Secretary of  
Foreign Affairs, has not yet definitely  
answered the Porte's request for a guaran-  
tee for the Turkish loan, and it is believed  
the question will be deferred until the  
meeting of Parliament.

FISH CULTURE.—The Dominion Govern-  
ment fish hatcheries have laid down this  
season about 25,000,000 of fish eggs. Some  
15,000 of whitefish eggs are in the Sand-  
wich hatchery, and nearly 3,000,000 of  
salmon and trout eggs at Newcastle, Ont.

Thomas Lord, the old millionaire, whose  
marriage with Mrs. Hicks, in New York,  
made so much fuss a couple of years ago,  
is said to be dying. He is eighty five years old, is  
worth about a million and a half, and  
will leave six sons to quarrel with his  
widow over his fortune.

The New York Tribune's Washington  
special says Comptroller Knox's tables  
showing the ratio of capital to liabilities in  
the banks in the United States and Great  
Britain has attracted attention in England  
and given rise to a question whether the  
proportion of banking capital to liabilities in  
that country is not unduly small.

Russia still remains south of the Balkans.  
It is now said that the private arrange-  
ments she is making with the Turks are  
almost complete, and that she has reduced  
the indemnity by a hundred million roubles.  
There is a rumor that Russia intends to  
seize Yesso, one of the Japan Islands,  
which has a good harbor and workable coal  
fields, and is but partially inhabited. The  
Japanese unaided could scarcely resist the  
attempt were it made. Yesso would be a  
valuable acquisition.

The death of Espartero, Duke of Victoria,  
is announced. For many years he ruled  
Spain despotically in the name of Queen  
Isabella, and when the Pope, moved by the  
sufferings of the Spanish Church, which  
Espartero persecuted cruelly, invited the  
Catholic world to pray for its relief, Espar-  
tero, who thought himself perfectly secure  
up to that time, saw the army and the  
country abandon him and was compelled to  
retire into private life. He has since been  
almost forgotten. He was born in 1792  
and was therefore about 86 years of age.

No man ever yet prospered in the world  
without the co-operation of his wife. If  
she unites in mental endeavors, or rewards  
his endeavors with an endearing smile, with  
what confidence will he resort to his mer-  
chandise or his farm, fly over the land, sail  
over the seas, meet difficulty and encounter  
danger, if he knows he is not spending  
strength in vain, that his labor will be re-  
warded by the sweets of home! Solitude  
and disappointment enter into the history  
of every man's life; and he is but half pro-  
vided for his voyage who finds but an as-  
sociate for happy hours, while for months  
of darkness and distress no sympathizing  
partner is provided.

A new method of planting telegraph poles  
has been introduced in Pennsylvania. The  
ground is staked off at distances of 200 feet  
apart, a man starts off with cartridges of  
"electric powder," and with a crowbar in  
his hand. The bar is driven four or five  
feet into the ground, a cartridge with a  
lighted fuse is dropped into the hole, and  
the man proceeds to the next stake, but be-  
fore he reaches it the cartridge has explod-  
ed, making a cavity as big as a flour barrel  
in the ground, and a gang of men who fol-  
low plant a telegraph pole in the spot. In  
this way four men will set up 100 to 150  
poles per day, and at a cost two-thirds less  
than by the old way.

According to the latest statement of the  
United States Bureau of Statistics the ex-  
cess of exports over imports still continues,  
the excess during October being \$27,743,-  
464, against an excess of \$17,731,155 during  
October, 1877, over ten million dollars in  
excess. For the two months ended Oct. 31,  
the excess was \$237,070,012, against \$72,-  
191,489 for the corresponding period last  
year—an increase in the excess of nearly  
\$165,000,000. These figures relate to mer-  
chandise alone. Well may British manufac-  
turers and Canadians too, seriously ponder,  
and in large numbers conclude, that  
there is some thing radically wrong in the  
existing fiscal system.—Star.

## The People Want Proof.

There is no medicine prescribed by physi-  
cians, or sold by Druggists that carries such  
evidence of its success and superior virtues as  
BOSCHER'S GERMAN SYRUP for severe Coughs,  
Colds settled on the breast; Consumption or  
any disease of the Throat and Lungs. A proof  
of that fact is that any person afflicted, can  
get a Sample Bottle for 10 cents and try its  
superior effect before buying the regular size  
at 75 cents. It has lately been introduced in  
this country from Germany, and its wonderful  
cures are astonishing everyone that use it.  
Three doses will relieve any case. Try it
