orientation of delirium has a special quality in that the patient tends to mistake the unfamiliar for the familiar. In the classic example, a delirious man in the hospital thinks he is at home and mistakes the doctors and nurses for relatives and friends. When a patient is taken from his familiar surroundings to a hospital, the burden of orientating and adapting himself to a new situation is imposed at the very moment he is least able to bear it.

The Stars Say --

By Genevieve Kemble

For Tomorrow

CONSIDER future expenses in the light of today's earnings during this period, and check your budget against any large outlay of cash. Your prudence can set a fine example for others, in addition to benefiting yourself.

For the Birthday

If tomorrow is your birthday, a considerable improvement in your prospects should begin to take shape within the next three weeks. There is promise of financial gain, as well as career advancement, but, in the main, you will have to depend upon your own efforts.

The Day After Tomorrow

Ingenuity and resourcefulness will pay off on this day. Discard old ideas and old methods wherever you can see a way to make improvements in your present set-up.

For the Birthday

If Monday is your birthday, the improved business and financial conditions indicated in your horoscope, beginning with November 1, should do much to ease present tensions.

daughters being 19 and 21, while my little boys are 2 and 4. In dealing with the younger children, I find the parents of today vastly different than they were years ago. Mothers think nothing of getting right into the children's quarrels, always, of course, taking the part of their own small fry. My boys expect me to do this but I refuse.

MRS. A. H.

ANSWER: The change is not a fundamental one in parents, as you seem to think, but a difference in the individuals you are encountering. It's absurd for parents to get mixed up in childish squabbles, which usually end with the children's arms around each other and the elders in a feud. The responsibility of teaching youngsters right from wrong is a prime requisite of parenthood; the lessons are certainly futile when older folk can't see the distinction themselves. Continue your way of rearing your boys and ignore, as much as possible, those who disagree with you.
