

HONOUR ISLAND NATURE TRUST

Mr. R.H. Kendall, District Superintendent of Parks Canada, P.E.I., is pleased to announce the presentation of a Centennial Heritage Award to the Island Nature Trust. This award is made during the Parks Canada Centennial Year to recognize individuals or groups who have made outstanding contributions in preserving the heritage of Canadians.

In presenting this award to the Island Nature Trust, Parks Canada recognizes this non-profit organization which is devoted to the protection and management of natural areas in Prince Edward Island.

The Island Nature Trust has made great strides in educating the general public as to the requirements for conservation and have demonstrated through concrete action their commitment in this field.

The individual projects carried out to date are too numerous to list but Parks Canada feels that their support of the Piping Plover Program and the acquisition through long-term lease with the Province of PEI of the important properties at Deroche Pond are outstanding examples. Their protection of this area while continuing the traditional public use compliments very well the stated objectives of Parks Canada. In presenting this award, Parks Canada recognizes the support given their mandate to protect for all time those places which are significant examples of Canada's natural and cultural heritage and also to encourage public understanding, appreciation and enjoyment of this heritage in ways which leave it unimpaired for future generations.

WE WERE LOOKING FOR SHOWERS!!!

Showers of membership renewals, that is. It turned out to be a mere DRIZZLE. Nevertheless, thank you, last year's members, who noticed our appeal and responded. Maybe we'll get a shower yet, when more members read this notice. We hope so - we are only halfway there yet and the year is fleeting. A good many hands are extended for donations from our society.
