Following a suggestion made at previous meeting by Mr. Ross MacKenzie the members of the Summerside Board of Trade met last night at radio station CJRW where the regular meeting was conducted by the president of the board, Mr. John Mungall, with the largest attendance of the members present for a long time. It is proposed that for some time at least that the monthly meetings of the board be held at various business establishments, the idea being that the business men of the town can thus become better acquainted with the manner in which their fellow members conduct their business.

At the close of last night's business meeting, Mr. Robert Schurman, the manager of the station, gave a most interesting talk on how a radio station operates and after this the members were taken on a conducted tour of the station where the different departments were explained by those in charge.

During the business meeting a report on the activities of the retail merchants committee was given by Mr. Roy Boates. He said that his committee had received some complaints from the smaller merchants of the town about the stores but that as a general rule the arrangement of staying open on Wednesday afternoon and closing on Saturday had proved very satisfactory to the majority.

After the minutes of the previous meeting were read by the secretary, the new "meeting and church attendance" charts were completed. A scrap book to contain newspaper accounts of the meetings was begun and will be supervised by Janita Newman. The corporate communion of the A. Y. P. A. was held on Sunday morning, October 30th, followed by a breakfast in the parish hall. The names and addresses of all members were taken for the purpose of mailing the bulletin entitled "Our Plan". The meeting then came to a close with prayers.

374 cents tariff is imposed on Canadian shippers on amounts up to a certain quota while 75 cents was imposed on amounts over that quota. Since this matter is now being given the consideration of the Maritime Board of Trade and that a resolution had already been submitted by the local board on the matter, it was agreed that the board go on record as stressing the importance of the matter at the meeting of the Maritime Board held in Moncton next week at which president Mungall will be present.

BOAT TO CALL — Mr. John Wright, speaking for the industrial development committee, said that the Newfoundland boat "Blue Prince" would be calling at Summerside for shipment next Monday and that the calls would continue until about the middle of December.

Fred Bingham said that he had received complaints from the captain of the last potato boat to dock at Summerside of the absence of a light along the side of the wharf which made smooth docking difficult.

Mr. Morley M. Bell, in referring to the Marine Wharf, said that some arrangements should be made for the convenience of the public to have at least one light left on at the wharf all night.

Speaking for the civic affairs committee, Mr. Amos Hubley spoke of the great increase in window breaking in the town at the present time. He pointed out that such acts of vandalism appear to be increasing with the years and that this year seems to be the worse for some time, especially in the outlying districts and along the highway where motorists were under great travelling difficulties on Halloween due to objects placed on the highway to deliberately obstruct traffic.

Mr. Edgar Cannon brought in the matter of the need of a slip at one of the town wharves to facilitate beaching of the fishermen's boats. President Mungall said that he had spoken of this matter to Mr. MacNaught some time ago and would do so again on his return from Ottawa.

Christmas closing hours suggested by the committee were that stores be open on Wednesday, Thursday and Friday nights during that week and close on Saturday at 8:00 p.m.

Monday, December 26th, he said, would be observed as a federal holiday.

Mr. Fred Bingham, speaking on the matter of the heating system in the sheds at the Marine Wharf, announced that the system was about three quarters finished.

It was brought to the attention of the meeting that the present sheds should be extended in order to provide more and much needed storage space for potatoes. Mr. Bingham and Mr. Leslie Simmons stressed this matter strongly but it was agreed that nothing definite could be done until the return to Summerside of Mr. J. Watson MacNaught, M.P., at which time the matter will be brought to his attention for consideration.

President Mungall said that the changes which had been discussed and had been discussed at previous meetings in the sea wall at Summerside harbor could not be made. Plans were too far advanced and if such changes were made they would prove costly and would mean a delay in the work of perhaps two years.

Mr. Ross MacKenzie reported for the membership committee and introduced to the meeting Mr. Francis MacQuarrie and Mr. Ken Dorsey.

Under the report of the agricultural committee given by Mr. T. J. Inman, the chairman, a proposed resolution was introduced by him regarding the present tariff imposed on Canadian potato shippers to the United States as compared to that on American shippers to Canada.

When the shop opened for business in this new location on Tuesday of this week (November 1st) the first customer was none other than Clarence Jones, who, by an unusual coincidence was the first customer in both locations in a time interval that was exactly 24 years to the day. In the photo above Mr. Noonan pauses briefly with Mr. Jones as this business event of unusual coincidence is recorded photographically.
