U. S. Embargo Causes Increasing Concern To Dairymen Passed Unsuspected In Canada During War Years

Face Serious Situation With Surplus Products

By The Canadian Press
A critical marketing situation is shaping up for Canadian dairymen.
The National Dairy Council estimated Thursday that about 500,000,000 pounds of milk will "back up" on the Canadian market this year as a result of United States restrictions on livestock and dairy imports.
This takes in the fact that under the U. S. ban on Canadian livestock, resulting from foot-and-mouth disease in south Saskatchewan, dairy cattle which normally might have been shipped to the U. S. will remain in Canada and be milked.
It also takes in the fact that under U. S. defence production relations, imports of dairy products, including cheese, from Canada and other countries are restricted and there are no indications that the restrictions will be lifted soon.
The council, spokesman for Canada's dairy industry, said the 500,000,000-pound milk pile-up is equivalent to 50,000,000 pounds of cheese or 25,000,000 pounds of butter.

Britain Cuts Imports

Britain, which traditionally takes Canada's cheese surplus, has indicated it has insufficient dollars to buy cheese from Canada this year, and though Canadian officials are trying to change the British view, they have not yet succeeded.
Adding to the marketing troubles, said the Council, is the "danger" of such low-cost countries as New Zealand seeking to expand their markets in Canada for butter, cheese and skim milk powder.
All these problems will be aired at the Council's annual meeting next week at Montebello, Que.

Big Day For Island RCAF Cadet At Centralia

Flight Cadet Robert Sharp, East Bideford, P. E. I., is shown above with his bride, the former Miss Helen Stewart of Summerside. March 7th proved to be a busy day for Cadet Sharp who received his wings from Vice-Admiral E. R. Mainguy at Centralia, Ontario, in the afternoon, was married immediately afterward, and posted to Saskatoon for advance flying training in the evening. Cadet Sharp is the son of Mr. and Mrs. Shelton Sharp, East Bideford, and his bride is the daughter of Mr. and Mrs. Leigh Stewart, Summerside.

Defends Government's Electrification Policy

Maintaining that the rate of expansion of rural electrification was higher in this Province than in any other in Canada, Premier J. Walter Jones yesterday replied to the question of high charges raised previously by the Leader of the Opposition. The Premier rose to take part in the debate on the Draft Address at the conclusion of Mr. Bell's speech.
He said it was true that churches, halls and schools in rural areas had their rates raised and that it was due to the scientific manner in which the Public Utilities Board had examined the whole rate structure of the Maritime Electric Company. He said the Board had no power to assess special rates for particular classes and challenged the Leader of the Opposition to bring in a bill authorizing the Board to give special rates to these institutions.
The Premier stated that appraisers had put a valuation on the plant of the Maritime Electric Company and rates had been figured on the basis of allowing the company a 7% profit with 3% for depreciation. If the company had not been allowed a profit it could not attract investment capital and therefore could not proceed with expansion in the field of rural electrification.

Premier Jones

Commends Utility Board

He paid tribute to the Public Utilities Board and its chairman Judge C. St. Clair Traylor, who he stated was doing splendid work for the Province at very little recompense. "We had to practically force him to accept a small sum for expenses." All members, he said, were men who were doing their work faithfully. Even if they had the power to give lower rates

Canadian Is Sought In Death Of French Judge

PARIS, March 13 — (Reuters)—An Englishman told police today he rode from Lyons Monday in the same train compartment as Lorne Rutherford, 24-year-old Canadian seaman from Trail, B.C., wanted for questioning in the murder of French Judge Bernard Rosselin.
Tonight police intensified their search in the Paris area and at northern ports. They said Rutherford may have left the capital for Dunkirk, where he left his ship early this year.
The Englishman, not identified, said he first saw the Canadian, shabbily dressed, in the British consular office at Lyons. Then the two found themselves together on the train, but this time, the Englishman said the sailor was wearing a smart topcoat and carrying a suitcase.
A topcoat and suitcase were taken from the second-floor apartment in the village of Chalons-sur-Saone, central France, where the judge lived and where his body was found Tuesday in a pool of blood.
He was murdered Sunday. His head had been battered in and his body trussed to a table leg with wire.

to the institutions mentioned they would have to make up the deficit by charging higher rates to other users.
The Premier spoke of rising costs of construction and stated when he first became leader of the Government it cost \$1,100 per mile for installations and now it was three times that much at \$3,600.
He maintained that it was the Opposition leader's own law firm that had worked to obtain higher rates for the Telephone Company. Mr. Bell said this was done to give the public better service, but Premier Jones replied, "I can run to my neighbors faster than I can get them on the telephone."
The Premier produced figures showing the expansion in rural

Rosselin was believed to have given Rutherford a lift Sunday morning on the Lyons-Chalons Road. Later a young man was seen entering the Judge's home.
Police broke into the Rosselin flat after friends became worried about the judge's disappearance. Rutherford's description was flashed through France and checks were made on main roads.
Rosselin's landlady, who lives in the apartment below, said he heard noises like the shifting of furniture and the breaking of glass Sunday night.
Police found that two persons had eaten in the Judge's kitchen and officers took fingerprints from two liquor glasses.
Rutherford was reported Jan. 18 to have stowed away on a British tanker at Port-de-Bouc, near Marseilles. He was discovered when the ship was six hours outward bound for Egypt. Taken ashore, he was handed to the authorities and spent eight days in an Aix-en-Provence jail for being without papers.
He is described as tall, well-built, with dark hair and blue eyes. Authorities said he was born in North Battleford, Sask.

Bevan-Attlee Feud Continued

LONDON, March 13 — (AP) — Trade-union leaders bluntly told Aneurin Bevan today to quit rocking the boat. They said they took a dim view of his left-wing insurgency in the Labor Party.
A story four-hour meeting of the Party's National Executive Committee revealed that the split between Bevan's followers and Clement Attlee's moderates is deep as ever.
Informants said the committee's actions could be regarded as a triumph for Attlee, just as last Tuesday's caucus of Labor members of Parliament was a victory for Bevan.
This is the way the party feud stands now. The 56 Labor members of Parliament who joined Bevan in voting against Attlee's instructions during Parliament's defence debate have escaped censure. But the Bevanites know powerful trade-union elements are angry with them. Attlee — not Bevan — is the party leader.

Auto-Smuggling Ring Is Smashed

OTTAWA, March 13 — (CP) — A major, international auto-smuggling ring has been smashed with the arrest of five Ontario men and recovery of five United States cars stolen in the U.S. States and then smuggled into Canada and sold.
R.C.M.P. headquarters announced today a two-year investigation in co-operation with F.B.I. officers ended with arrests of the five yesterday.
It is believed they were responsible for smuggling 55 cars into Canada during the winter of 1950-51 and of these 40 have been recovered, as far west as Edmonton and as far east as Quebec City.
Those arrested and facing a total of 75 charges are Peter Bowman, 30, used-car dealer at Freeman, Ont.; Coste (Gus) Karadavies, 31, Hamilton used-car dealer; Joseph Menduke, 24, Hamilton repair man; Ronald H. Stephenson, 36, Hamilton used-car dealer and Charles N. Elliotson, grocer and former car dealer of St. Catharines, Ont.
They were remanded on \$5,000 cash bail to March 27.

Teachers Vote To Continue Strike

ANTIGONISH, N.S., March 13 — (CP) — The 90 striking rural school teachers of Antigonish County today turned down a \$70 bonus offer and declared they will resign unless a settlement is reached by March 31.
The teachers, meeting here, voted 56-6 against the offer, made by the Municipal School Board two days ago. They are seeking an increase of \$900 and have been on strike since Feb. 16.
Don Campbell, President of the Antigonish rural local of the Nova Scotia Teachers' Union, said in a statement "If no settlement is reached by March 31st, all striking teachers in this county will resign their present positions and refuse to sign contracts for next year until satisfactory terms for the year have been arranged by the union local."

Montreal Police Tell Bandit To Surrender

MONTREAL, March 13 — (CP) — Cagney bank robber Edwin Boyd was still "holed up" somewhere tonight hours after police pleaded that he surrender or be taken "dead or alive".
Police had little luck today with numerous tips as to the whereabouts of the notorious bandit, purported leader of a gang that netted about \$400,000 in bank holdups.
Montreal's police director, J. Albert Langlois, got up from a sick bed today and pleaded with the gunman to give himself up.
"This is a life-or-death message directed to Edwin Alonzo Boyd," said a late-day radio-newspaper bulletin from the police director.
Boyd is the last of three Toronto bandits thought to be loose in Montreal. The others—Steve Suchan and Leonard Jackson—fell wounded by police bullets in one of the greatest manhunts Montreal has ever known.
The appeal came after police spent the day tracking down rumors from citizens who thought they saw Boyd in one place or another.
Langlois said his 2,000 men, all heavily armed, are determined to bring in Boyd.
Suchan was captured Friday night in his plush Cote des Neiges apartment and taken to hospital with three bullet wounds in his body.
Tuesday night Jackson was flushed from a modest Lincoln Ave. apartment with bullets and tear-gas.
Langlois said in his message today: "It is only a matter of time before you, too, are captured. It may be hours, it might be days, it may be months. But you will be brought in dead or alive."
"There has been too much bloodshed already. Man to man I want to tell you: stop now, give yourself up before it's too late."
"There are more than 2,000 men scouring Montreal for you. Twenty-four hours a day they are hunting you. Their orders are: Shoot to kill."
Some officers admitted it is possible that Boyd slipped out of town for Toronto or Hamilton. But they said they knew that he was in Montreal last week-end and visited the apartment from which Jackson was rooted out, not far from the Montreal Forum.
Jackson and Suchan are wanted on bank hold-up charges and for the attempted murder of two Toronto detectives one week ago. That shooting occurred two days after a \$24,000 downtown Toronto bank robbery.
Boyd is wanted only on bank hold-up and jail-break charges.

Fourth Term As Head Of Potato Committee

Mr. W. R. Shaw, Provincial Deputy Minister of Agriculture, who was elected yesterday for the fourth consecutive year as chairman of the Potato Committee of the Horticultural Council of Canada. Mr. Shaw would have gone to the presidency of this nationwide organization but for the resignation which prevents a civil servant from attaining this position.
Also attending the Horticultural Council meetings now in progress at Ottawa are Messrs. E. Shaw District Fruit and Vegetable Inspector, Dominion Department of Agriculture, and W. P. MacLeod, senior inspector. Before returning they will attend the annual sessions of officials from the Fruit and vegetable divisions across Canada.

No Comment On Alleged Sale Of M. V. Eskimo

Received without comment from Government benches in the Legislature yesterday was a statement by Mr. R. R. Bell, leader of the Opposition, that the crew of the M. V. Eskimo had been relieved of their jobs and that the ship had been sold through an advertisement in a Montreal paper.
Mr. Bell maintained the Prince Edward Island papers did not carry the advertisement and that Islanders were given no chance to bid on the "Eskimo"—long a political storm centre of the trade with Newfoundland.
Premier Jones, who followed Mr. Bell in the Draft Address debate and moved its adjournment at 6 o'clock, did not mention the subject. Hon. Eugene Cullen, Minister of Industry and Natural Resources, whose department has authority over the Crown corporation charged with operating the "Eskimo", stated to a Guardian representative that he had no comment to make at present.
The M. V. Eskimo has operated out of Charlottetown to Newfoundland ports during the past few seasons as a cargo carrier, and has been the subject of frequent Opposition criticism in the Legislature.

Romanians Escape To Yugoslavia

LONDON, March 13 — (AP) — Five Romanian soldiers today landed a Romanian army plane at Yugoslavia's Zemun airfield near Belgrade. Belgrade radio said the Romanians told Yugoslav authorities they took to flight "knowing the intolerable terror which reigns in Romania."

Van Doos Are Korea Bound

QUEBEC, March 13 — (CP) — Singing songs and waving goodbye to a few next-of-kin, 200 paratroopers of the Royal 22nd Regiment's 1st Battalion left by train tonight for the western coast where they will embark for Korea.
Their 12-car Canadian National Railways train left nearby Valcartier training camp at 11 P. M. EST.
They are the first of three detachments of the 1st battalion to leave for Korea as replacements for the Van Doos in the army rotation scheme.
Their first scheduled stopover on the transcontinental run will be at Montreal early tomorrow morning.
The Royal 22nd brass band was on hand and the soldiers responded with songs to some martial airs and popular music. They sang over and over again "Vive La Canadienne" (Long Live The Canadian Girl), the Regimental March.
All were gay on boarding the train.
No more than a dozen relatives were there to bid farewell to the men and a few wept as the train moved away.

Reds Revive Blockade Of China In Truce Talks

By Don Huth
MUNSAN, March 14 — (Friday) — (AP) — The Communists revived a proposal Thursday which Allied negotiators believe may be an attempt to write into the Korean Armistice a guarantee against naval blockade of Communist China.
An Allied spokesman said the Red move revived the Communist stand of Wednesday and "came as a complete surprise."
This issue and wrangles over prisoner exchange, Red nomination of Russia as an armistice observer and other truce-supervision matters tied up Thursday's meetings.
On the prisoner-exchange issue, the U.N. command said it did not understand a Communist proposal to swap 182,474 prisoners held by the Allies for 11,559 held by the Reds.
Allied military strategists have indicated the threat of a naval blockade of Red China might be used to force the Communists to live up to truce terms.
The issue on naval blockade came up among interpreters working out English, Korean and Chinese language versions of agreed truce-supervision terms.
Red interpreters said they were not prepared to concede that the word "Korea" should be included in a clause banning naval blockades. They said they were instructed to refer the matter back to negotiators. Without the limiting

OTTAWA, March 13 — (CP) — A free-speaking German spy was landed in Canada by submarine in 1942 and lived here for 2 1/2 years before his \$7,000 in cash ran out and he quietly surrendered.
The R. C. M. P. tonight bared for the first time most, but not all of the details. They add up to one of the most bizarre Canadian stories of the war, the story of a playboy spy whom no Canadian apparently seriously questioned or suspected.
He made friends in Ottawa, who probably to this day don't realize who or what he was. He frequented night clubs, bars and restaurants, liked a good time and spent money freely. He once got caught in a police raid on a Montreal brothel but slipped away after paying a \$50 deposit.
He went under the assumed name of Alfred Haskins and gave a Toronto address. The R. C. M. P. declined to disclose his German name.
Most bizarre touch about this spy was that he forgot about spying. He just lived on his money.

Beer and Wine For Dining Cars

HALIFAX, March 13 — (CP) — Nova Scotia's Liquor Laws have been changed to permit sale of beer and wine in railway dining cars.
New regulations of the Nova Scotia Liquor Commission tabled in the Legislature by Geoffrey Stevens, minister in charge of liquor administration, provide for licences to railways, permitting sale of beer and wine by bottle or glass in dining cars at mealtime. Annual licence fee is \$25.
Until now, such sale was allowed only in taverns and hotels in some municipalities. There are no cocktail bars.

He was then transferred to the British Intelligence Service to help in identifying top Nazis.
