DEATHS — LAMBE — At St. Catharines, Ont., on October 8th, 1951, J. Herman Lambe, formerly of Springfield, lot 67. Funeral arrangements later.

CAMERON — At River Glade, N. B., Oct. 7, Mrs. Benjamin Cameron of Kensington, P. E. I., aged 55 years. Funeral from her late residence Thursday at 1:30 p.m., followed by service in the United Church, Kensington at 2 p.m. Interment People's Cemetery.

N.D. MacLean — UNDERTAKER, EMBALMER, Charlottetown and North Wilshire, PHONE 149

Grounding Of "Dunning" Off Caribou On Friday

The above three snaps were taken by Mr. A. D. MacLeod, Cambridge, passenger aboard the "Dunning" when she went aground off Caribou. The pictures taken in dense fog, show at top the Prince Nova endeavouring to free her sister ship. Seconds after this the towline parted. Center picture shows the first group of passengers being taken ashore by motor boat. Lower picture was taken as passengers watch one of the rescue boats coming alongside.

Center picture shows the first group of passengers being taken ashore by motor boat. Lower picture was taken as passengers watch one of the rescue boats coming alongside.

Street Work Reviewed At City Council Meeting

A comprehensive review of the activities of the street committee was given at last night's City Council meeting by Coun. J. D. Stewart, chairman of the committee.

"The usual street cleaning was carried on, employing manual labor," Coun. Stewart reported. "However, considerable thought was given to the purchase of a power broom to supplement this method of street cleaning, and has not been entirely abandoned. We felt that the acquisition of other street equipment was probably more imperative. Owing to the very rainy season, street cleaning was much heavier this year. Vehicles from the country, and our city streets carrying mud deposits present an almost continuous problem. Other years after the spring roads dry up, we were not bothered so considerably by these muddy conditions."

"Raising and repairing of concrete sidewalks, catch basins, curbs, was carried on more extensively than in other years. It was necessary also to replace the storm sewer at the southern end of Queen Street from Lower Water to the end of the old Queen's Wharf dock. The pipe line had collapsed, and as several buildings had been erected over the line a new 24" street patching was started early in May and your Street Committee wish to bring to your attention that the asphaltic surface on many of our streets is becoming so thin that in a year or two they will be beyond patching, and will have to be re-surfaced. We have mentioned this before but the importance of this makes me bring it to your attention once again.

"Your committee carried out considerable new work which was deemed most unnecessary. The ever increasing demand for paved parking areas caused us to pave between the sidewalk and curb in the following places:

- School Street 700 sq. ft.
Queen Street 1,893 sq. ft.
Prince Street 6,245 sq. ft.
Euston Street 1,050 sq. ft.
Fitzroy Street 6,232 sq. ft.
16,120 sq. ft.

"New asphalt cement was laid on School Street, Hillcrest Avenue, Gerald Street, Kent Street, Spring Park Road, a total of some 64,000 sq. ft.

"Before laying School Street an underground drainage system was necessary. This is 1,000 ft. long, laid on the west side with 15" sewer pipe.

"A storm sewer was also laid on Orleans Street East, a distance of 1,500 ft.

"This storm sewer has to be run to Weymouth Street, and we anticipate completing the work

Former Islander Makes Hobby Of Early PEI Stamps

An authority on Prince Edward Island postage stamps, and himself the possessor of perhaps the finest collection of Island stamps in North America, is Mr. Louis L. Crosby, of Banff, Alberta, who has been holidaying in the Province for the past week with his wife and is returning home today.

Mr. Crosby is president and general manager of the Brewster Transport Company, Ltd., of Banff, and is a brother of Mr. Peter Crosby, of St. Eleanors. His forefathers settled in West River in 1770, his mother's family, the Stumbles, having been in business in Charlottetown during the first part of the last century.

His great-grandfather, John Treaman, conducted a clock-making establishment where the Maritime Stationers is now located.

Mr. Crosby, who is proprietor of the Deer Lodge Hotel, Lake Louise, is a native of England but is related to the Comptons of Prince County.

In addition to his transport company Mr. Crosby also operates several hotels in the Banff-Lake Louise area. His chief hobby, however, is philately, and his present visit to the Island has been chiefly for the purpose of obtaining information about the early postal history of the Province, more particularly with regard to the manner in which mails were handled after the British Occupation and until the first post office was established in Charlottetown in 1801.

He has in his possession the second oldest known cover bearing a P. E. I. postmark, which is dated 1821. The oldest cover was recently sold by Colonel Weatherie, of Ottawa, a former Islander, to Leslie B. Tomlinson, of England, who has probably the finest collection of Prince Edward Island stamps in existence. Mr. Tomlinson's cover is dated 1817.

Mr. Crosby's own collection includes practically all the stamps issued by the Island in complete sheet form. It also contains rare essays, proofs, counterfeit stamps and "bogus" stamps—all of which are much-sought after collector's items.

He has many rare covers in his collection, some of them showing the use of bi-sected stamps, which were authorized by the Island Government when the postmaster ran out of the proper rate stamp.

For example if the rate to Nova Scotia was 3d., he would take a 2d. stamp, cut another 2d. stamp in half diagonally and affix it to the letter, making the correct rate.

Another rare bi-sected 2d. stamp in Mr. Crosby's possession was cut in two to make a 1d. rate for a drop letter for circulation locally. Mr. Crosby has also some rare registered covers, the registration being an additional 6d. over the local 2d. rate between points on the Island.

The history of Prince Edward Island stamps and the method of handling early postal deliveries has never been fully covered and it is Mr. Crosby's intention to write an authoritative treatise on this subject. He carries on extensive correspondence with philatelists throughout the world and is accumulating a great deal of information on the interesting phase of Island colonial history.

"We had anticipated running a different type of asphaltic cement on Ambrose Street, Highland Avenue, and Victory Avenue and Pleasant Street but, owing to the lateness of the season, an advice from Imperial Oil Limited that the binder might not be satisfactory at this time of year, we have carried out some preparations only. This will allow for the completion of this project in the early spring.

"New cement sidewalks were laid as follows: Laphorn Ave., south side, 209 lin. ft., north side, 800 lin. ft.; Kensington Road, south side, 523 lin. ft., private walk, 90 lin. ft.; Euston Street, south side, 150 lin. ft., private walk, 15 lin. ft.; Escher Street, west side, 750 lin. ft., private walk, 80 lin. ft.; Gerald Street, north side, 850 lin. ft., south side, 360 lin. ft.; School Street, east side, 260 lin. ft., west side, 220 lin. ft.; Victory Avenue, 235 lin. ft. Total, 5,500 lin. ft.

Replacements of Cement Sidewalks — Park Street, east side, 260 lin. ft.; School Street, east side, 280 lin. ft.; Y. M. C. A., south side, 150 lin. ft.; miscellaneous, 500 lin. ft. Total, 1,250 lin. ft.

"Many trees were trimmed or removed. This is a big labor item, to trim, haul and stump, and the demands for this type of City service are very much increasing.

"I have outlined in general some of the activities of your street department. To go into detail would require a much longer report than I have prepared at this time. Much work has been accomplished. There is yet much more to do if we are to keep our City Streets comparable with those of other progressive cities. These improvements can be done only when necessary and financial position of our City warrant the doing of same."

FAMOUS SHELLFISH — Famous for its oysters, Chesapeake Bay in Maryland actually supplies 200 kinds of fin and shellfish.

BIG DROP — The highest suspension bridge in the world crosses the Arkansas River in Colorado at a height of 1,053 feet.

VALUABLE FISH — Salmon with a marked value of nearly \$49,000,000 headed the list of British Columbia fisheries products in 1950.

Annual Convention Of Queen's Conservatives

One of the largest crowds in many years was present last night at the annual meeting of the Queen's County Progressive Conservative Association held at the Clover Club under the chairmanship of president Reagh Bagnall.

Sitting at the table with the chairman were Mr. R. R. Bell, Provincial Leader of the party, Dr. W. J. P. MacMillan, O.B.E., former leader, Mr. G. B. Foster, president of the Young Conservative Association and Mr. Frank Myers, recently elected member of the Legislature.

In addressing the big gathering Mr. Bell noted that the party's lack of success in the past election had not detracted from the interest of its supporters as attested by the highly successful party being held in all parts of the Island. He said it was partly due to the outstanding success gained by the national party in the by-elections this past summer.

Election Possible — He suggested that a Federal election might be in the near future and said it would be important locally and the organization here must be held together. He stated that Hon. George Drew, National Leader, would do everything possible to help here.

Mr. Bell predicted that there would be a new leader of the Liberal Party here following the Royal Visit next month. He severely criticized the Federal Government for the high cost of living and the fact that nothing had been provided here in the way of Federal contracts to aid the unemployment situation. He particularly mentioned the failure to carry on with the proposed new Armories, Naval Barracks and the Federal Building.

Dr. MacMillan said the large attendance was a promise of hope for the future of the Progressive Conservative Party in this Province. He said the results of the Federal by-elections were a series of "sledge-hammer blows" at the Federal Liberal Government which expressed the dissatisfaction

Monthly Meeting Of City Council Last Night

The City Council last night suggested that the Charlottetown Board of Trade offer the Council some assistance by locating a site for the City weigh scales if they are moved from their present location as suggested by the Board.

Members of the Council said all possibilities have been explored by them and no satisfactory alternate site had been found for the present location on the Market Square.

The Council, sitting during its regular monthly meeting, found a completely redecorated chamber to greet them. The floor outside the chamber has been covered in a light colored Marbolium while the Chamber walls themselves have been repainted a light blue with the woodwork done in cream. The redecoration has been done in anticipation of the forthcoming visit of Her Royal Highness Princess Elizabeth and the Duke of Edinburgh.

The financial report submitted by Councillor L. E. Prowse showed an increase in receipts on real property of over \$32,000 this year over the same period last year. Receipts from personal property had risen only \$925 while those from poll tax decreased \$805.00. It was stated in the report that total receipts a year ago amounted to \$348,546.42 and at the present time were \$371,741.45.

At the same time expenditures had also risen to \$379,488.94 from the \$364,051.35 of last year. However the increase in expenditures was only \$15,437.59 while the increase in receipts was \$23,195.06.

The Police report presented by Police Chief Charles MacArthur showed that the Force had made 82 arrests last month. These resulted in 74 convictions. It also showed that three motor vehicles were reported stolen and all recovered within 20 bicycles reported stolen 16 had been recovered.

Councillor C. M. Cox, chairman of the Police Committee, introduced a resolution recommending that Constable Reginald Burns, having completed his term of probation, be confirmed in his position on the Force. He also suggested that stores having

restaurant licenses close their restaurants at the regular closing hours for the stores.

The safety of Policemen on traffic duty came under consideration as a result of a suggestion by Councillor Cox that white raincoats be purchased for them to protect them and make them visible to the motorists on rainy nights.

Councillor G. R. Keefe moved that the Council petition the Provincial Legislature at its next session to amend Section 21 of the Act of Incorporation to add that the City Corporation Tax Office in City Hall be closed during the hours when the polls are open on Election Day.

Councillor Arthur Gormley of the Tenders Committee recommended that the tender of the J. R. Large Coal Company to supply the Market Building with slack coal at a price of \$13.45 a ton be accepted as well as the tender of the W. D. Gillis Coal Company to supply the City Hall with Sydney Screened coal at a price of \$13.85 per ton.

Letters read included those from T. G. Ives Co., asking re-

compense for damage to cars caused by a tree falling on Great George Street and from City Health Officer dealing with the problem of sewage of residents on North Street. It was pointed out that the low lying land made proper drainage difficult.

A new building was proposed for erection by F. R. McLaine Co. on Grafton to replace that destroyed in the big fire last August. The type of concrete block construction proposed was satisfactory to the Council. The Maritime Electric Company asked for permission to clip trees interfering with its wires in view of the approaching winter season and this will be granted with the supervision of Mr. H. A. Messervy.

Taken under advisement was a letter from a city resident asking recompense for financial damages suffered when his wife tripped over a tree root in King Square and fell breaking her arm.

CONFIDENTIALLY—Painters and decorators in "the know" are becoming more and more of one mind and that is—for finishing new or re-finishing old hardwood floors there's nothing like HIPPO OIL. It's a tough, long wearing, non-skid finish that is very simple and easy to apply. It takes the place of varnish. The very next time you have a hardwood floor to finish use Hippo Oil—then like the professionals you'll use nothing else. Hippo Oil is to be found in the Hardware Departments of both the Charlottetown and the Summerside Stores.

CONFIDENTIALLY—We know that men demand comfort, long-wearing qualities and good appearance in their WORK BOOTS—that's why our Shoe Buyer asked me to tell you of the soft, pliable Sealskin Work Boots, color brown, in either mocasin or plain toe style. These have double nailed and sewed Panco rubber or Panoline soles. They're water resistant. The sizes are from 6 to 11 priced 6.50, 7.50 and 9.95 a pair in the Men's Shoe Department.

CONFIDENTIALLY—Revlon is bringing out more and more Cosmetics in more and more smart, attractive packages. . . . There are TWO Revlon Items about which I want to tell you this morning: The first is the REV-LON LIPSTICK KIT—a neat little red plastic case containing 2 Revlon Lipsticks, (1 is Indolite-Cream, the other is the regular lipstick). You may choose your own colors—we suggest one for daytime wear, the other for evening. This Lipstick Kit is priced 1.35. The second Revlon Item is the COLOR CHEST for the care of your "lily-white" hands. . . . It contains 4 bottles of Revlon long lasting Nail Enamel—three different colors in Lastron and one Adheron—the Color Chest has a regular value of 2.60 and you get it for JUST 1.35 (this offer is for a Limited Time Only). Shop today for Revlon Cosmetics in the Accessory Department.

Additional Prize Money For Island Fair Exhibitors

Additional prize money for Prince Edward Island potato exhibitors at the Maritime Winter Fair will be awarded this year, Mr. H. L. MacLaren, District Officer of Seed Potato Certification told The Guardian yesterday.

Island exhibitors will be competing for \$275 plus a radio among themselves this year, an increase of \$75 over that of a year ago. In addition there is \$700 in prize money for the three Maritime Provinces and the major portion of this is usually won by Island farmers.

Prince County Sebago exhibitors will have a special competition among themselves as a radio of approximately \$75 value has been donated for the best Sebago exhibit from Prince County.

Tubers selected for exhibit may be sent to the Seed Potato Certification Office, Charlottetown, to arrive there not later than October 30th, from where they will be taken by truck to Amherst free of charge.

Pork Surplus Is Reported In Canada

With a surplus of 50 million pounds of pork products this year, the prospects for a prosperous year in the Canadian hog industry are not so bright as they were a few weeks ago, J. Lincoln Dewar, secretary of the P. E. Island Federation of Agriculture reported yesterday.

Unfortunately, there is no market in the United States, which has a surplus of its own, and it is unlikely that there will be a market with the United Kingdom this year due to the dollar shortage.

Reference was made to the drop in carcass prices this year by Mr. Dewar, who said that the price to the producer was \$40.50 on July 17th, and that on October 2nd it was \$30.76, and the lower prices should be reflected by a drop in retail prices when the period taken by the packing companies to process the product, about six weeks, has elapsed.

Orphanage Appeal Meets With Splendid Success

Mrs. H. S. Henderson, Organizer for the Annual Drive in aid of the Protestant Orphanage, reports that Charlottetown has responded magnificently to this most worthy appeal.

Contributions received to date from the various Districts throughout the province are most encouraging.

The many canvassers throughout the Province are deserving of highest praise and the Orphanage Trustees are deeply grateful to them for their outstanding work.

Atkins - MacFadyen Wedding

Calvary Church, Toronto, was the scene of a pretty wedding when Rev. S. L. Boehmer united in marriage Marion Lois, daughter of Mrs. MacFadyen of Toronto and the late Mr. Hector MacFadyen of St. Catherine's, P. E. I. to Arthur Everett Atkins, son of Mr. Arthur Atkins and the late Mrs. Atkins of Amherst, N. S.

Mrs. C. Whiting was soloist, accompanied by Mrs. S. L. Boehmer. Given in marriage by her brother Sandy, the bride chose a gown of white slipper satin and finger tip veil. She carried a cascade of pink roses and carnations.

Miss Jessie MacFadyen, her maid of honor, was dressed in a gown of pink chiffon over taffeta, and Miss Marie Wickett, the bridesmaid, was dressed in a similar gown of lime green. The flower girl, Miss Jean Mabey, cousin of the bride, wore yellow nylon net over taffeta. Each carried sheaths of gladioli to match her dress.

Mr. Lorne Schmirler was best man and the ushers were Mr. Logan Hoey and Rev. A. King. Following the ceremony a reception was held at the home of the bride, Mr. and Mrs. Atkins left on a trip to New York. On their return they will reside in Hamilton, Ontario.

Compense for damage to cars caused by a tree falling on Great George Street and from City Health Officer dealing with the problem of sewage of residents on North Street. It was pointed out that the low lying land made proper drainage difficult.

A new building was proposed for erection by F. R. McLaine Co. on Grafton to replace that destroyed in the big fire last August. The type of concrete block construction proposed was satisfactory to the Council. The Maritime Electric Company asked for permission to clip trees interfering with its wires in view of the approaching winter season and this will be granted with the supervision of Mr. H. A. Messervy.

Taken under advisement was a letter from a city resident asking recompense for financial damages suffered when his wife tripped over a tree root in King Square and fell breaking her arm.

HEAVY TRAFFIC

Roughly 1,000,000 vehicles every week cross the several bridges and tunnels administered by the port of New York.

While coastal areas of the Dominion of Ceylon are flat, it has several peaks of more than 7,000 feet in the southeast.

STATELY VISITOR

FORT FRANCES, Ont. — (CP) — A giant white pelican / with a wingspread of about nine feet has been observed many times flying around a dock at Rainy Lake. Residents believe the bird was driven south by stormy weather.
