Epps's Cocoa.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified by pure blood and a properly nourished frame."—Civil Service Gazette.

CYCLONES IS FUNNY THINGS.

Their Doings as Related by a Voracious Eyewitness.

"Cyclones is funny things," said the man with the ginger bread.

"Yes," assented the grocer, as he lifted the cat out of the dried apple barrel, "I guess you are about right. I've read——"

"I don't know just what you might have read, but I can tell you of things I have seed. I see little town out in Kansas wiped azactly half out by a cyclone, while the other half wa'nt even touched. Place was cut in two jist as if it had been done with a knife. Funny thing; the mayor of the place was a-standin' in the middle of the street when old Cy came along. Now, this here feller he had the finest pair of whiskers I ever see. In fact that is how it came that he was mayor—the women vote out there, you see. Well, as I was sayin', he was a standin' in the middle of the street when the twister came along. An' what does it do but barely reach out to where he was and pulled one of them side whiskers clean off, while the other side of his face wa'nt touched. That shows what a clean and narrer path one of them cyclones takes. So never you mind what you have read about cyclones in the lyin' newspaper. No man knows nothing about them when he ain't seen one."—Detroit Free Press.

Better Left Unsaid.

A certain young poet is equally famous in the world of letters as an author, and, among his friends, for his blunt candor that is forever betraying him into one of the things-one-would-have-preferred-to-say-differently, as Du Maurier puts it. On his last birthday he was given a charming dinner by his doting parents, at which he was bitterly disappointed by the regret of several notables. Thus, when a society girl said to him at the close of the evening: "What a delightful time we have had!" he exclaimed from the fullness of his heart: "I'm glad that it hasn't seemed dull to you. We invited some awfully clever people, but not one of them came."—Philadelphia Press.

The Same But Different.

A merchant on Jefferson avenue was sitting in the office the other day getting his finances in shape to go to the bank with them when a young man of uncertain responsibility stepped in.

"By jove," he said, looking yearningly at a pile of big greenbacks on the desk, "I'd just like to know how it feels to have a hundred-dollar bill."

"Yes?" queried the merchant, smiling significantly; "now don't you know, I haven't the least desire to know how it feels not to have one."

Which was pretty nearly what the other man said, only it seemed to convey a different meaning to the young man.

Time is Money.

The Young Woman—O, isn't this part of the lagoon lovely? Let's stop here awhile. There is no hurry, is there, Mr. Peduncle?

The Sparham Case.

KEMPTVILLE, July 24.—Much interest is felt by residents of this place in the case of Mr. W. F. Sparham, of Ottawa, to whom reference was made in an Ottawa despatch a few days ago, as a sufferer delievered from from kidney disease by the use of Dodd's kidney pills. Mr. Sparham was born and brought up here, and is well-known and universally popular. His friends here had heard of his illness and his failure to obtain relief from all the medicines he tried before taking the pills. Their wonderful effect in his case will make the remedy more popular in this vicinity, for all now are fully aware of his good properties.

A SPLENDID RECORD.

A Provincial Industry Trebles its Business in the Last Three Months.

Some three months ago this journal informed its readers that a new provincial industry, that of the Hawker Medicine Company, of St. John, had completed its first qurrter's business, and that its book showed a development of trade and a record of sales that was not only gratifying but really astonishing.

Another three months has now elapsed and the company have balanced their accounts for the six months. The results show that in the last three months they have trebled the business of the first three: they have about doubled their working staff and work has been carried on in the packers room till 11 o'clock every night in order to fill orders promptly. From all parts of New Brunswick, Nova Scotia and P. E. Island, from Newfoundland and parts of the United States, the orders have rolled in. The business is now firmly established. The experimental stage is past. Repeat orders come in constantly, showing that where once the remedies are introduced, they win permanent favors with the people, who know as soon as they have given any of them a trial that these standard remedies are all that they are claimed to be. Indeed, this last might readily be assumed without a trial, and judging solely from the character of the gentlemen who form the Hawker Medicine Co., as they are numbered among the leading citizens and most honorable and successful business men of St. John.

The Hawker Medicine company are now patenting their remedies in Great Britain and will presently extend their operations there, as well as more extensively to the United States. About the middle of this month Thomas Rankine, who so successfully introduced the Hawker remedies in Newfoundland last spring, will start and traverse the western part of Canada, from Montreal to Vancouver in the interests of the company. With such a record as that of their first six months now closed, the Hawker Medicine Co. are evidently destined to achieve a great success. They control standard remedies, which have received the endorsation of leading physicians in Canada and the United States, as well as the fervent praise of sorely afflicted people who have by their means been restored to health.

Their place of business is at 104 Prince William Street, St. John, N. B., where they have the most extensive and elaborately fitted up premises of the kind in the Lower Provinces. William Hawker, the original inventor of the remedies, has been a druggist in St. John for 30 years, and had long proved the value of the different remedies before the present company was organized. It is with pleasure that this journal records the company's wonderful success.

Worse Than Dynamite.

Hardly a month passes but we read of terrible explosions and loss of life from natural gas.

One writer has raked up Chinese history wherein it appears that away back in the time when the famous Chinese wall was building, before the use of gas wells was discovered, a terrible explosion took place.

The big wells in some way got the start of the little ones, so that enormous volumes of air were sucked down into those subterranean magazines. When the air reached certain proportions the whole thing went off like a leaky gasoline stove. The result was horrible in the destruction of lives. The same writer predicts similar conditions underlying the great natural gas-belt of this country, from Toledo, through Ohio, Indiana and Kentucky, whereby that whole vast region might be ripped up to the depth of 1,500 feet, leaving a chasm for the waters of the great lakes to pour down into, blotting out every living human in this now densely populated valley from the face of the earth. That writer might easily have shown further that throughout our whole country, not only in densely populated regions and cities, but in country and village houses as well, natural gases far more dangerous than is found in the lake regions, are carrying off not only "pig-tail" Chinamen, but our own families and friends during the hot waves of July and August.

Scores of people are dying daily from typhoid fever, diarrhœa, dysentery, cholera-morbus, and infant summer complaints; all caused by poisonous gases and ferments, far worse than hydrogen gas or dynamite in their explosions. Fortunately this latter danger can all be averted by the use of a simple old fashioned remedy, Johnson's Anodyne Liniment, used internally, as explained in a pamphlet sent free to anyone by I. S. Johnson & Co., Boston, Mass. No matter if you have used this remedy before, it will pay you to get a bottle and read the directions, or send for the pamphlet just to learn how to use it economically.

Experience Has Proved It.

A triumph in medicine was attained when experience proved that Scott's Emulsion would not only stop the progress of Pulmonary Consumption, but by its continued use health and vigor could be fully restored.

F. G. BLACKLOCK, of Cape Spencer light station, tried all kinds of remedies for rheumatism, that had left him almost unable to walk, and at last got Dr. Manning's German Remedy. Before he had finished a bottle he could walk without a cane. This marvelous painkiller is a positive cure for rheumatism, neuralgia, sprains, strains, bruises, colic, chills, cramps and all pains and aches, either internal or external. An invaluable household remedy Sold everywhere. Price 50 cents.

OTHER cough medicines have had their day, but Puttner's Emulsion has come to stay, because it is so nice and so good.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ar

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Edison, F. Hopkinson Smith, H. H. Boyesen, Alphonse Daudet, Camille Flammarion, Edward Everett Hale, Professor Graham Bell and many others, have furnished material for especially prepared interviews, which will appear fully illustrated in this magazine.

HENRY M. STANLEY will contribute, especially for young readers, a story of AFRICAN ADVENTURE.

NATURAL HISTORY AND ADVENTURE.—There will be several articles written by Raymond Blathwayt, who has been called by Mr. W. T. Stead the best interviewer in England, from material furnished him by Carl Hagenback, of Hamburg, the great animal importer and trainer. These articles deal with the Capture of Wild Beasts, the Training of Wild Beasts, the Transportation of Wild Beasts, the Adventures and Escapes of Carl Hagenbeck. The series will be illustrated by an English artist of great skill in drawing animals.

JOHN BURROUGHS, C. F. HOLDER, DR. C. C. ABBOTT, and other writers famous for their work in this field, will contribute to the Magazine.

Of interest to both Young and Old will be PROF. R. L. GARNER'S AFRICAN EXPEDITION TO THE GORILLAS. Arrangements have been made, in connection with a leading English review, to publish Professor Garner's letters descriptive of his present expedition to Africa. Professor Garner is noted the world over for the curious and interesting investigations he is making in the speech of monkeys. He sailed for Africa last September for the purpose of further pursuing his studies in the native haunts of the gorilla. The illustrations of these articles will be from photographs taken by Prof. Garner in Africa.

McCLURE'S MAGAZINE also contains most interesting articles under the heads: The Edge of the Future," "Newest Knowledge," "Knowledge of Immediate Value," The Present Hour," "Stranger than Fiction," etc.

The Telephone Company —OF— P. E. ISLAND.

Parties using the telephone would be talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, too loud, and distinctly.

3rd. Place the telephone so as to cover the ear just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
