be a direct contravention of the constitutional rights of the people; and, if it be had recourse to here, we now plainly tell our Government and our Legislature—let them take heed and beware—it will raise such a storm of indignation against them as they will not find it an easy business to lay again.

In the same paper we find it observed that "there is no decision as yet whether local Governors shall be nominated or elected. This point will likely be left to the Imperial Government." But in one of our Colonial exchanges, we find it, on the other hand, positively asserted that it has been determined that the Lieutenant Governors are to be nominated by the Federal Executive. In another, in a communication from Quebec, it is said, "There is an idea that the Governor General may open the Legislatures of all the Provinces, and thus prevent the necessity for local Governors. This is supported on the ground of economy; it will possibly be proposed, and may prevail."

What may be the wishes of our people generally on this head, we pretend not to know, although we have reason to believe that many of them would greatly prefer to have our Governor elected by, and from among, ourselves, to his being appointed either by the Imperial or the Federal Government; and much as they, doubtless, desire an economical expenditure of our public money, they would not, we believe, consent to forego the distinction which our having a Governor of our own confers upon us as a people, merely to effect the paltry saving of his salary. That we have amongst us public men who are well qualified to occupy the high position, and whose public services to the Colony besides well entitle them to aspire to the distinction which election to it would confer — will not, we think, be denied; and we are certain that the people themselves, in elevating to the gubernatorial office one from their own ranks, would feel that the honor they conferred upon him was largely reflected upon themselves.—If events warrant it, we shall have something, both more definite and pointed, to say upon this subject.

THE INTER-COLONIAL CONVENTION AT QUEBEC.

(No. 6.)

QUEBEC, Oct. 27, 1864.

Since the date of my last letter, Saturday, 22d, the Convention has been occupied with the financial matters then under its consideration, and which I then described as well as my time enabled me to do it; besides, other matters relating to the powers and jurisdictions of the General and Local Governments, have been under consideration, and have led to the most wearisome discussions, so much so that the debates have been protracted until one or two hours after midnight. To attempt to give my readers now an account of the results of the discussions, owing to the imperfect state in which the Minutes of the Conference appear, would not only be highly improper; but impossible. A digest of the proceedings will, I hope, be prepared for publication; and then will be the proper time to arrive at a safe and dispassionate conclusion touching the merits of the whole scheme of inter-colonial Union.—As it now appears to my mind, I have no reason, so far as the interests of the Island are concerned, to be dissatisfied with the arrangements proposed. Canada has, I think, shown a very honest and generous disposition so far; and should the Union be consummated, Lower Canada will, most especially, be the firm and fast friend of the Maritime Provinces. The desire of her public men is, apparently, to secure the aid of the Eastern Provinces for the purpose of curbing the grasping ambition of Upper or Western Canada, which now threatens to overshadow the Lower Province. The French desire most ardently to be left to the undisturbed enjoyment of their ancient privileges — their French institutions, civil law, literature and language. It is utterly impossible to Anglicise them—the attempt to do it, would outrage their most deeply rooted prejudices and lead to insurrection. As Sir Etienne Tache said to me to-day, (and he is a shrewd observer of events), the time will come—not, indeed, in the present generation, nor, perhaps, in the next—when the French element will be absorbed into the English one; but that result must be brought about by time, and not by the violent action of politicians. Leave to the French their old traditions, customs and institutions, and they will be found to be the most easily managed race in Canada under the British power. There is a party amongst them called the Clear Grit or Rauge Party, of which Papineau was formerly the Leader, (and I may observe, en passant, that this gentleman now lives at Montreal in the enjoyment of a vigorous old age, and an ample fortune), but they are numerically small, both in and out of the Legislature, and scarcely represented at all in the Government of the Country. The predominant feeling of the French members of the Canadian Ministry—(and I have no doubt they represent the general sentiment of their countrymen pretty fairly on this point)—is that of devoted and chivalrous loyalty to the British Crown. They appear to detest Democracy in any and every shape; and, therefore, they would rather lean upon the Maritime Provinces for aid and sympathy, and reciprocate with them in the same way, than trust to Upper Canada, which they believe is fast tending to Democracy. The feelings and prejudices of such a people are not only entitled to respect, but it would be fatal to offend them.

But I forget that, in commencing this letter, it was not my purpose to write a disquisition on Canadian politics. I hope I shall have a better opportunity, with fuller information, for doing that hereafter. The Conference is about closing its labours here, and may have one brief sitting at Montreal, to which place we are to go this evening. Several of the Delegates, with the ladies of the party, left for that city this afternoon. The remainder of the delegates will arrive there by the Grand Trunk Railway a little before daylight to-morrow morning. They day is to be set apart as a holiday—a Review of Troops and Militia is to be held under General Sir Fenwick Williams, for which, I understand, the most elaborate preparations are being made—a Ball is to be given by the Municipal authorities in the evening; and a Dejeuner, at which there will be a general outpouring of eloquence, will occupy the following day. The Delegates will then visit Ottawa, the seat of the future government, at which place the like festivities will be shown them, and from thence to Kingston, Hamilton, Toronto, Niagara Falls, some cities in the Far West of the United States, and home by New York, Boston, Portland and St. John.

☞ THE WEATHER.—There have been early and sharp indications of coming winter. Quite a shower of snow fell on Wednesday last, but soon disappeared. Thursday and Friday, the weather was calm and pleasant; but the night of Friday was cold and stormy, with heavy showers of rain. Saturday was mild and dry. But a complete change took place in the night, a keen frost having set in which continued all day Sunday. To-day the weather is delightful.

☞ Dr. Cahill, the famous controversialist, preacher, lecturer, and scientific scholar, died at the Carney Hospital, Boston, on Friday last, after a sickness of some weeks. He was seventy-one years of age.

☞ The Nova Scotia papers contain lengthy notices of the death of Lawrence O'Connor Doyle, Esq., late M. P. P. for the Township of Halifax.

Don't forget the Temperance Lecture to-night, at St. Andrew's Hall.

☞ The St. Cecilia Choral Society meets for the practise of Music, under the direction of the President, Rev. A. Trudelle, twice each week, viz: Thursday evening, at ½ to 8 o'clock, and Sunday evening, at 7 o'clock. The Hall which the Society occupies being a spacious one, a larger number than usually attend can be accommodated.

☞ WE are requested to state that the cause of Mrs. Wentworth Stevenson's delay in returning to the Island, has been occasioned by her having been a guest of the Delegation Party, while in Montreal. We believe she will most probably return with some of the party in the course of a week or so.

☞ General Doyle has returned from an extended tour in the Canadas and the United States. The General, as senior officer in the garrison, took the oaths as Administrator of the Government, during the absence of Sir Richard Graves Macdonnell, C. B.

☞ THE *Humorist* is the name of an amusing and interesting little paper published at St. John, by Mr. W. Hallock. It is full of wit and humor, and sold at 2 cents per copy.

DON'T FORGET THE HORSE!

Next to man there is no nobler animal than the horse, obedient to all our wishes, patient, docile and intelligent,—how could we "get on" without him; then let us cherish and protect him. Have you a horse with a rough, scraggy coat and tight skin? Give him CARLTON'S CONDITION POWDERS. Do you work him hard? Give him CARLTON'S CONDITION POWDERS. You will soon see that one bushel of oats given with them, will go as far as four without. Bring your horses INTO condition with this medicine and do not abuse them with hard driving and no care. Get the CARLTON'S CONDITION POWDERS. 25 Cents per Package. Sold by all Dealers.

HOLLOWAY'S PILLS AND OINTMENT FOR THE EFFECTUAL CURE OF DROPSY.—The efficacy of these medicines in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off, and prevented from any further accumulation. The sufferer regains a buoyancy of spirits, and rejoices in a completely renovated constitution. The admirable Pills have a similarly happy effect on many other diseases, particularly liver complaints and chronic indigestion. They act upon the constitution generally by purifying the blood, regulating the secretions, and giving tone to the stomach and kidneys. They are composed of rare balsams, without the admixture of a single grain of any noxious substances. They are as safe as efficacious.

WE HAVE FREQUENTLY HEARD MOTHERS say they would not be without MRS. WINSLOW'S SOOTHING SYRUP, from the birth of the child until it had finished with the teething siege, on any consideration whatever. It gives an infant, troubled with colic pains, quiet sleep, and its parents unbroken rest at night. 25 cents a bottle.

Married,

On the 18th October, at the residence of the bride's father, Egmont Bay, Lot 13, by the Rev. H. B. Swabey, Mr. Thomas Dyment, to Matilda, sixth daughter of Mr. John Moore, formerly of Lot 49.

On the 14th ultimo, at the Wesleyan Chapel, Balliol road, Bootle, Liverpool, by the Rev. John Walton, William Pennington Mead, Esq., of Plymouth, to Margaret Jinkin, eldest daughter of John T. Thomas, Esq., Merton road, Bottle—late of P. E. Island.

Died,

On Monday, the 24th ultimo, at Hope River, after 10 days' illness, which he bore with Christian fortitude to the Divine Will, James, the youngest son of the deceased Mr. Peter McNally, of the same place, aged 17 years and 9 months. He was a young man who will be much and deservedly lamented by all who knew him. 'Requiescant in pace.'

On the 4th July last, at Bay of Honduras, Captain George Clow, of Murray Harbor, aged 40 years, leaving a wife and four children to mourn their loss.

At New London, on Saturday, 29th October, the Infant son of E. L. Lydiard, Esq., aged 5 weeks.

At Charlottetown Royalty, on Wednesday, 19th ultimo, after four days' severe illness, William Pethick, son of William and Isabella Mortimer, aged three and a half years.

Launched,

At Rollo Bay, on the 29th ultimo, from the shipyard of Messrs. Davidson & Dingwell, a splendid Brigantine, called the ORION, of 183 tons medium measurement, built for the Newfoundland market, and pronounced by competent judges to be a faithfully built and well finished vessel.

From the shipyard of Captain L. J. Westaway, Georgetown, on the 17th ultimo, a beautifully modelled Brigantine, 251 tons, n. m., and about 340 o. m., called the T. H. HAVILAND. Her superior finish reflects great credit upon her builder, Mr. Joseph Fairchild, and she is pronounced by competent judges to be the finest vessel yet built in this section of the Island.

Ayer's Cherry Pectoral,

For the rapid cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in the advanced stages of the disease.

So wide is the field of its usefulnes and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other expectorant is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits upon the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

We can only assure the public, that its quality is carefully kept up to the best it ever has been, and that it may be relied on to do for their relief all that it has ever done.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparralleled usefulness of our remedies, but space here will not permit the insertion of them. The Agents below named furnish, gratis, our AMERICAN ALMANAC, in which they are given; with, also, full descriptions of the complaints they cure.

Those who require an *alterative medicine* to purify the blood, will find AYER'S COMP. EXT. SARSAPARILLA the remedy to use. Try it once, and you will know its value.
