Poetry.

THE WIDOW'S SONG.

BY T. K. HERVEY.

This world is a wide one, for sorrow or joy;
And where in this world is my lost sailor boy,
With his loud ringing laugh, and his long sunny hair?
Do they swell on the breeze yet, or float through the air?
Is there any bright land, 'mid the lands of the earth,
That holds the lost child of my heart and my hearth?

I have sat by the fire when the old men have said,
There be eyes of the living that look on the dead.
O! tell me, ye seers in search of the tomb,
Do ye find my fair son in its valley of gloom?
Is there any pale boy with a look of the sea
'Mid that people of shades, who is waiting for me?

O, that morn when he left us! Mine eyes have grown dim,
And seen little that's bright since they looked upon him;
And my heart, in its dullness, hath learned to forget
But the light of *that* morning shines clear to it yet:
No record is lost of the bright sunny day,
When passed my fair boy like a spirit away.

We waited—how long! but we waited in vain!
And we looked over land and we looked over main,
And ships, O! how many came home from the sea,
That brought comfort to others, but sorrow to me.
In all those gay ships, O! there answer was none
To the mother who asks, if she yet have a son!

They tell me of countries beyond the broad sea,
Where stars look on others that look not on me;
Where the flowers are more sweet, and the waters more bright,
And they hint that he dwells in those valleys of light—
That he rests in a home with some fair foreign bride,
This world is a wide one!—why is it so wide?

But they surely forget—which my sailor does not—
That I'm sitting whole years in my lone little cot.
He knows, O! he knows, If I may, I shall wait
Till I hear his clear shout at the low garden gate;
He is sure his sad mother will strive not to die
Till the latch has been raised by her lost sailor boy.

I believe that he lives. Were he laid in the mould,
There's a pulse in my heart would be silent and cold:
Which awoke at his birth, and, through good and through ill,
Has played in its depths, and is playing there still.
When its star shall have set, then that tide will be dry,
And the widow be sure where to look for her boy!

Shut the door! The winds are blowing—freezing—why stand there talking—talking—why don't you shut the door?

"Though you, my friend, may boast a gifted mind,
A soul of honor, and a taste refined,
These *bitter* times, we seek for something more,
The first of virtues is—to *shut the door!*

NEW USE FOR ICE.—The Scientific men of France are at present speculating on a recent instance of a young man brought to life after being frozen up eleven months on the Alps. It has given rise to a revived belief in the theory, that life can be suspended at pleasure and criminals are about to be demanded of the Government to be frozen on experiment. The reader will already have inferred what a relief this offers to such unhappy ladies as find themselves not contemporary with the hearts they sigh to win.—They have only to be iced till overtaken. We should add, however, that the above is by no means a joke. The blood of a living man was infused into the veins of a frozen youth and he moved and spoke. The experiment was afterwards tried on a hare, frozen for the purpose, with complete success.

The Home Journal suggests the idea of putting the discovery into practical use, that is, put out $500 at interest, and have yourself packed in ice, and stay frozen, with suspended life, till it amounts to a fortune.

TEN DAYS LATER FROM CALIFORNIA.

The steamer Daniel Webster arrived at New York on the 11th Jan., bringing over 300 passengers, and advices from San Francisco to the 15th Dec. She brought $580,000 in freight and in the hands of passengers, but no mail came by this steamer.

PROSPECT OF MINERS—INDIAN DISTURBANCES.—Since the sailing of the last steamer, there has been considerable news interesting to the United States. Rain has fallen sufficiently to enable miners in the dry diggings to prosecute their labors with energy and effect. Many who had large piles of dirt accumulated, have commenced washing with great success, so that, although operations in the rivers have nearly ceased, there will be little diminution of the amount produced during the winter. Large sums have been refused for piles of dirt, which a short time since could have been purchased for a trifling amount comparatively.

Great excitement has been produced in the Southern mines, by the discovery of richer diggings than ever before opened. In one week, and in a hole a few feet square, between $200,000 and $300,000 were extracted. The news getting abroad, in another week could be seen at the new diggings a town of several thousand inhabitants, and the country for miles around was staked out in mining claims.

The flourishing town of Placerville has nearly doubled its population, owing to recent discoveries of rich diggings in its vicinity.

Extensive operations are being entered into by quartz miners. Leads of the most surprising richness are almost daily being discovered, and companies almost as frequently formed to work them. The most ponderous machinery is being conveyed to the most rugged portions of mountain country; so we may safely calculate on hearing the crash of the mighty engine and the din of the thrifty towns and villages, where a few short months since our ears would have been regaled only by the howling of the wolf and the grisly bear. When the mountains, which are now covered with snow, shall cast aside their icy garments, and the sun of spring again greet us, then shall all these wonderful changes be accomplished, and the world be again stricken with wonder at the almost incalculable productions of our golden mountains.

The great Bear River and Auburn Canal will be completed by the first of January next, a period of little more than five months from its commencement. This great work of private enterprise gives employment to 10,000 laborers, and will add millions to the present products of our state.

The news from the southern portion of the state is less cheering. The Indians, from the Gila to the settlements near the Pacific are reported to be combined to drive away the entire white population. Attacks were made on unoffending citizens, some of whom have been killed. Cattle and horses have been driven off; in short, a general system of murder and plunder seems to have been adopted by the savages. On hearing of this combination, expresses were forwarded to the military commanders in California and the Governor, praying for aid, which was promptly responded to. Gen. Hitchcock has sent all his disposable force, and such supplies of arms and ammunition as the case required. The Governor also ordered out a brigade, and has commissioned the far-famed Col. Hays as its commander. Should the Indians show themselves to the gallant Rangers, they will be summarily dealt with.

There is a knitting machine in operation in Philadelphiai, which knits three hundred and eighty stiches at each turn of a small crank, which crank may be easily turned by hand from one hundred to one hundred and fifty revolutions per minute, making from forty to sixty thousand stitches per minute, or at the rate of about three millions per hour.

WIFE WANTED,—A down-easter advertises for a wife in the following manner:—

"Any gal what's got a cow, a good feather bed, with comfortable fixins, five hundred dollars in hard pewter, one that has had the measles, understands tending children, can have a customer for life by writing a small billet dux, addressing Z. R., and stick it on Uncle Ebenezer's barn, back joining the hog pen."

COURTING.—Here is a specimen of the good, old fashioned mode of courting, as it was done in Connecticut. Deacon Marvin, a large landholder and most exemplary man, accomplished his in this business-like way. Having one day mounted his horse, with a sheep skin for a saddle, he rode in front of the house Betty Lee lived in, and without dismounting, requested Betty to come to him. On coming, he told her, that the Lord had sent him to marry her; "The Lord's will be done."

CURES FOR THE UNCURED!
HOLLOWAY'S OINTMENT.

AN EXTRAORDINARY CURE OF SCROFULA OR KING'S EVIL.

Extract of a Letter from Mr. J. H. Aliday, 209, High Street, Cheltenham, dated the 22d of January, 1850.

To Professor HOLLOWAY.

SIR,—My eldest son, when about three years of age, was afflicted with a Glandular Swelling in the neck, which after a short time broke out into an Ulcer. An eminent medical man pronounced it a very bad case of Scrofula, and prescribed for a considerable time without effect.—The disease then for four years went on gradually increasing in virulence, when, besides the ulcer in the neck, another formed below the left knee, and a third under the eye, besides seven others on the left arm, with a tumor between the eyes which was expected to break. During the whole of the time my suffering boy had received the constant advice of the most celebrated medical gentlemen at Cheltenham, besides being for several months at the General Hospital, where one of the surgeons said that he would amputate the left arm, but that the blood was so impure, that if that limb were taken off it would be then even impossible to subdue the disease. In this desperate state I determined to give your Pills and Ointment a trial, and after two months' perseverance in their use, the tumor gradually began to disappear, and the discharge from all the ulcers perceptibly decreased, and at the expiration of eight months they were perfectly healed, and the boy thoroughly restored to the blessings of health, to the astonishment of a large circle of acquaintances, who could testify to the truth of this miraculous case. Three years have now elapsed without any recurrence of the malady, and the boy is now as healthy as heart can wish. Under these circumstances I consider that I should be truly ungrateful were I not to make you acquainted with this wonderful cure, effected by your medicines after every other means has failed.

(Signed) J. H. ALIDAY.

CURE OF ACUTE RHEUMATISM OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. John Pitt, Dudley, 19th Jan. 1850,

To Professor HOLLOWAY.

SIR,—It is with the greatest pleasure that I write to thank you for the benefit I have received from your Pills and Ointment, which have completely cured me of the Rheumatism, under which I suffered for this last four years, at times I was so bad as hardly to be able to walk. I had tried every kind of medicine that was recommended without receiving any benefit. I at last thought I would give your medicines a trial and purchased from Mr. Hollin, Chemist of this Town, two boxes of Pill and two of Ointment, and in three weeks through them and the blessing of God, I was restored to health and strength, and am now as well able to walk as ever I was in my life. I am well known in this parish, having been sixty-five years in it, with an exception of ten years I served in the 24th Regiment of Foot.

(Signed) JOHN PITT.

CURE OF A BAD LEG OF MORE THAN SIXTY YEARS' STANDING.

Mr. Barker, of No. 5, Graham's Place, Drypool, near Hull, had ulcers on his leg from the age of eighteen until upwards of eighty, and although for many years he had sought the first advice in the country, nothing was found to cure them. He very often suffered most excruciating pain for long periods together, which incapacitated him from attending to his business. He had given up all hopes of getting a cure when at last he was persuaded to try Holloway's Pills and Ointment, which he did, and however wonderful it may appear, the leg was thoroughly healed by their means, and by continuing to use the Pills alone after his leg was well, be has become in health so hale and hearty as now to be more active than most men of fifty.

N. B—The truth of this extraordinary statement can be vouched fo by Mr. J. C. Reinhardt, 22, Market Place, Hull. February 20th, 1850

CURE OF A DESPERATE CASE OF RINGWORM, OF SIX YEARS' STANDING.

Lima, 13th November, 1849.

One of the most eminent Surgeons in Lima (the Capital of Peru) had a child covered with Ringworm for more than six years; in vain he exhausted all his art in his endeavours to effect a cure. Not succeeding, he consulted among his brethren, the most celebrated medical practitioners of the City, but nothing was found to do the child service. When he was persuaded by Mr. Joseph P. Hague, the English Chemist and Druggist, residing at 74, Calle de Pallacio, to try Holloway's Pills and Ointment, which was done, and after using six large Pots of the Ointment, with a proportion of the Pills, the child was radically cured, to the surprise of the whole medical profession. The name of the parent, from motives of delicacy is withheld.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Chiego-foot	Fistulas	Sore throats
Bad Breasts	Chilblains	Gout	Skin diseases
Burns	Chapped-hands	Glandular Swellings	Scurvy
Bunions	Corns (Soft)		Sore heads
Bites of Moschetoes and Sand-Flies	Cancers	Lumbago	Tumours
	Contracted & Stiff joints	Piles	Ulcers
		Rheumatism	Wounds
Cocoa-Bay	Elephantiasis	Scalds	Yaws
		Sore Nipples	

Sold by the Proprietor at 244 Strand (near Temple Bar) London, and by GEO. T. HASZARD, Agent for P. E. Island, in Boxes and Pots, at 2s, 5s, 8s, and 20s each. There is a very considerable saving in taking the larger sizes.

N. B. Directions for the guidance of Patients are affixed to each Pot or Box.
