

Lea-Bred Holstien Heifer Topped Class Of Ayrshire

By NEIL A. MATHESON... Mr. Lea, incidentally, was a former Premier of this province... The noted Truxton farmer was elected to the Provincial Legislature in 1927.

Most people who know the history of the Holstein-Friesian breed know that "The Red Factor" as it's called, is probably the one thing that haunts the breed that has dominated the Canadian dairy cattle world.

The "Red Factor" discussion started when Dr. Lea told me that the internationally known bull "Rosafite Citation R" has it, and his sire "ABC Reflection Sovereign" also has it.

When the young bull was returned to him, he advertised his semen at \$5.00 a vial, which is cheap for semen from a sire of that breeding.

RED AND WHITE AT FIRST... Lincoln Dewar tells me the Holstein cattle originally were Red and White, that later the black color was superimposed on the breed.

Both records were made on the same farm... The record of 16,000 pounds milk, 667 pounds butterfat which the Guernsey release refers to is a production recorded by Patricia as a seven-year old cow.

NOT FOR THE DEAF... The "SPECTRA", a new tiny aid—so small can barely be seen when worn—a miracle to say the least. No button, no wire.

COULD AN IDB LOAN HELP YOUR BUSINESS?... Thousands of businesses throughout Canada have used IDB loans to expand or modernize their facilities.
