Family Reunion At Wheatley River

A very happy reunion of the Ling family took place at Wheatley River, Sunday, August 20th, when some seventy persons met at the old homestead now occupied by Mr. Harry Ling and his mother, Mrs. Norman Ling. Those attending from outside the Province were Mr. and Mrs. Herbert Steneman, Mount Dora, Florida; Mr. and Mrs. Richard Whetson, Middlefield, Ohio; Mrs. Lottie Sargent, Mantua, Ohio; Mrs. Charles Ross, Mattapan, Mass.; Mr. and Mrs. Borden Ling and children, Montreal; and Mrs. Elmer Ling and Barry, Halifax, N. S.

As this was the first visit of the Whetsons to the Province, they were very glad to meet their many family connections including Mrs. Whetson's grand aunt, Mrs. Herbert Andrews, the former Margaret Ling, who is the only surviving member of the ten children of John Ling. Mr. Whetson believes that the scenery through the Province is excellent and that the island is just one big garden. The day was pleasantly spent in making each other better known to their American cousins who also have some real experiences and stories to relate. Mr. and Mrs. Steneman before moving to Florida ran a dairy farm near Cleveland, Ohio, employing some twenty men. They retired about eight years ago and travelled considerably since, including a visit to the island four years ago.

Mrs. Sargent has been to her mother's old home on two former occasions. Mrs. Ross is an annual visitor to her birthplace. On her return to Mattapan she will be accompanied by her mother, Mrs. Andrews.

A delicious supper was served by the hostess assisted by some of the ladies, and all wished the Stenemans a happy and safe return to U. S. A.

Watchman Service To Protect Property During Rail Strike

MONTEREAL Aug. 21 - A railway spokesman today gave an indication of what the impending strike will mean, in outlining arrangements for protection of railway property should the stoppage occur on Tuesday morning.

"The term essential services has been used and is very misleading," he said. "For full railway operation is essential to the needs of the country. In the event of a strike, only emergency measures can be considered." These emergency measures would call for the operation of trains only in case of fires in forest areas, or for use in the rare possibility that some train or trains might be involved in accidents close to the time of the strike deadline, he said.

Otherwise agreements between management and strikers would provide watchman service or patrol operations to protect railway property against fire, pilferage or sabotage. In many cases small towns depend upon the railway water supplies for fire protection and domestic use.
