**You can't go ALL-OUT**  
**If you feel ALL-IN**  
These days most people work under pressure, worry more, sleep less. This strain on body and brain makes physical fitness easier to lose—harder to regain. Today's tense living, lowered resistance, overwork, worry—any of these may affect normal kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest, that "tired-out" heavy-headed feeling often follow. That's the time to take DODD'S Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Ask for Dodd's Kidney Pills at any drug counter.

**REVEAL DETAILS OF NEW Canada House In N. Y.**  
NEW YORK (CP) — Canada House, a project to bring Canadian government, industrial and cultural activities in New York under one roof, will be a 27-story, \$6,000,000 building on Fifth avenue.  
Details of the structure, expected to be completed by April, 1957, were announced Saturday by Eggers and Higgins, senior architects on the project which was first conceived by Ray Lawson, former consul-general here.  
Work will begin in January to demolish six-story buildings at 680 and 684 Fifth Ave. at 54th St. to make way for the Canada House skyscraper. Its address will be 680 Fifth Ave.  
The exterior of the building will be of Canadian limestone. The \$6,000,000 cost is for the structure and is exclusive of cost of the choice land.  
The capital was subscribed by a group of 30 Canadian business leaders who plan to turn the building over to the Canadian government after they realize their investments from rental of space.
