THE ORANGE ORDER.—Boys' Lodge meets this evening.

TO-NIGHT.—In St. James' Hall to-night you will hear all about the gallant fight of the Revenge. Don't miss it.

I. O. O. F.—Wildey Lodge meets this evening at 8 o'clock. The first degree will be conferred. The Union Degree Staff will please be punctual.

HEAVY DAMAGES.—The Canadian Pacific Railway has been condemned to pay \$2100 for the destruction of buildings at St. Theresa, Que., by a locomotive spark.

LAST TRIP.—The steamer Coban, Captain Robert Fraser, will be due at Charlottetown on the 22nd inst., and will carry cattle and sheep on deck. This will be the last trip of the Coban this season.

GOOD WORK.—A St. John paper says: The schooner Annie C. Brown, Captain Alex. Fraser, of Kingston, Kent Co., loaded 70,000 feet of boards, went to Charlottetown, discharged, and came back to Kingston all in one week.

POLICE CHANGES.—Sergeant Cameron has been appointed acting Marshal, in place of George Passmore, who has been suspended; and night watchman Harris takes regular police duty until further orders.

REPAIRS.—New covering has been ordered by the Department for Annandale wharf. As the season is so far advanced, the covering will not be laid till next spring, but early enough then to meet the demands of the spring's shipping.

POLICE COURT.—Mary Ryan (colored) using profane language on the streets, fined \$10 or 20 days; James Donovan, drunk and inebriate, \$30 or 30 days; one Scott Act case was further adjourned, and another case was dismissed.

ON THE MOVE.—Mr. Brown, Government Engineer, visited Souris and Campbell's Cove Breckwater on Friday last. He left next day for Malpeque, thence to New London on Monday, after which he goes to other places included in his present visit to the Island.

THE Lady Godiva must have had exceptionally long hair since it completely concealed her lovely person. Since Ayer's Hair Vigor came into use such examples are not so rare as formerly. It not only promotes the growth of the hair, but gives a rich, silken texture.

INDISPOSED.—Mrs. Starr Keefer, the talented lady temperance lecturer, owing to a cold which she contracted a few days ago, did not fill her appointment for Souris on Saturday evening last. She returns from Bay Fortune to Cardigan where she will remain for a day or two's rest.

FALL PLOUGHING.—Owing to the fine dry weather which we have had this fall a large amount of fall ploughing has been done by our farmers. It is noticeable that in Prince County the wheel plough is fast coming into use, many of the farmers declaring it to be superior to all others.

MAKE A NOTE OF THIS.—Rev. Mr. Robertson, of New Glasgow, N. S., will lecture to-night in St. James' Hall. His subject will be, "The Elizabethan Vikings; or, the old sea dogs of the reign of Queen Bess." Mr. Robertson, as a lecturer, is unsurpassed in the maritime provinces for beauty of diction.

QUICK PASSAGE.—The Maggie Alice, Capt. James Lannigan, arrived at Souris on Thursday last, after making her round trip to St. Pierre, Miq., in ten days. She is being made ready to take in another cargo of cattle, produce, etc. for the same market. Capt. Lannigan, who is an uncle of our present Inspector of Fisheries, is one of the most energetic and successful men afloat.

AN IMPROVED METHOD.—Secretary Naylor, of the Halifax S. P. C. A., will endeavor to have a place fixed up where dogs and cats can be destroyed by coal gas. The arrangement consists of a large air-tight sheet iron lined box, in which the animals are placed, and the gas, conveyed into the box by a pipe, is turned on. When the animals have been smothered, the gas is allowed to escape through a pipe leading to the open air, and the bodies can be removed.

MUSICAL HEADQUARTERS.—Persons who contemplate buying pianos or organs should read the advertisement of Mr. C. P. Fletcher in another column. Those pianos have met with much success on the Island, and are in use by the most competent judges. More Bell organs have been sold on the Island than any other kind, and they are too well known to need puffing. Call and inspect these instruments at the music store of C. P. Fletcher, Queen Street, Charlottetown.

BIG TROTTING SCHEME.—A great trotting scheme is said to be on foot—the biggest trotting scheme ever started in Maine. It doubtless was inspired by the great \$10,000 stallion race in Boston. The scheme is to bring together a field of Maine stallions, of five years old and under, to trot next fall for a purse of \$5,000. This field would include Elmbrook, Wesland, Resolute, McOustic, the Seer, etc. The owners of several of these stallions have been approached by the speculative gentleman who is trying to arrange the race.

SOURIS RINK.—The new skating rink will be built. A very convenient and suitable site at the rear of Mr. James McCormack's residence has been purchased from the Trustees of the Knight estate. The building to be erected thereon will be considerably larger than the old rink and will be owned by a joint stock company whose capital has already been assured in ten dollar shares. Messrs. Cantwell and White have secured the contract for the carpenter work which is to be completed in time for the Christmas holidays, when Sourisians again except to "trip the light fantastic toe."

CANADA'S GOLD MEDAL PIANOS.—The Williams piano is known in the West and in England as the gold medal piano, from its having received so many gold medals at great exhibitions. The Williams piano, of Toronto, has won over 200 medals the past few years, principally gold, and there are now nearly 18,000 Williams pianos in use, or nearly seven-eighths of all the pianos made in Canada, showing that the public endorses the opinion of the judges who awarded these gold medals. Samples of these fine gold medal pianos are daily arriving at J. F. Willis & Co.'s, Macsweeney's building, street, Charlottetown.

BOILS, carbuncles, and other skin eruptions indicate that the system is endeavoring to reject poisonous acids, and that Ayer's Sarsaparilla is imperatively needed. It is the most reliable of all blood medicines. Ask your druggist for it, and take no other.

A Cure for Diphtheria. R. Munch, proprietor of a drug establishment in Leipzig, Saxony, publishes in the Pharmacist, a medical paper, a remedy for diphtheris which has had surprising success. He urgently presses all physicians to try it for the benefit of patients suffering from the disease, and also requests the press to publish it. He says: "My little daughter, seven years of age, has had diphtheria twice within some weeks, with severe fever, about 105 F. We gave, with great success, rectified oil of turpentine (oleum terebinthi non rectificatum.) Dose, one teaspoonful in the morning, and the same in the evening."

Adults should take one teaspoonful. Afterwards drink a little lukewarm milk to allay the burning in the throat. For children the second dose can be mixed with milk, which will render it easier to take. The result is really marvellous. The inflammation of the abnormal diphtheric spots in the throat grow light at the edges, and in this way they gradually shrink until in twenty-four hours they disappear, leaving no sign. To quiet the inflamed tonsils, the throat was gargled every two hours, and then every three hours, with the following gargle: One ounce of chlorate of potash to forty ounces distilled water. The remedy has been used with perfect satisfaction both by adults and children, not one case ending fatally. The Milwaukee Volksblatt quoted this remedy from a German paper, and afterwards received a letter from a subscriber in Mitchell county, Iowa, saying that a child in the writer's family was attacked by diphtheria, treated by local physicians, and died; then four members of the same family were attacked, treated by this remedy, and, I am happy to tell you, all recovered.
