Council Adopts Street Committee Resolutions

At a special meeting of the City Council yesterday the following resolution, moved by Councillor P. R. MacCormac was passed unanimously: "That with the unanimous consent of the Street Committee the job evaluation and regulations governing the Street Department and its employees be adopted. Further that he it herewith understood that this resolution replaces all previous resolutions and regulations pertaining to the Street Department and its employees."

The resolution covered adjustments in pay rates for certain employees and the reclassification of a number of those in the Street Department from casual to permanent status. The duties of the City engineer, barn superintendent and the street supervisor were over hauled and have now been clearly defined. In order to bring the engineer in closer touch with the activities of the department his office is to be moved to the City Barn; he is authorized to hire and dismiss in the case of casual employees and has the power to suspend a permanent employee subject to review by the City Council.

Other resolutions of the Street Committee which were passed were: "That Mr. Sam Crockett, Asphalt Plant Foreman be placed on pension effective November 1, 1956."

"That the position of night watch man at the City Barn be dispensed with, effective May 10." In reply to a question by His Worship, Coun. MacCormac explained that the man who at present patrols Atlantic Wholesalers and other business establishments in that area would be approached to have him extend his patrol to cover the barn.

On the matter of the mechanical street sweepers, Coun. MacCormac said they had had the City mechanic make a complete survey of the street sweepers and as a result it was estimated that it would require an expenditure of almost five thousand dollars to put the machine in operation. He then introduced the resolution, "That the City Clerk be instructed to call for tenders for a new sweeper."

A resolution that the present avenue known as Brighton Avenue extending from Spring Park Road to North River Road be henceforth known as Churchill Avenue, received some objection from Coun. Foster before it was finally passed. In the discussion Coun. O'Neill

final plans were made for the graduation dance to be held in May. Following the business session a most interesting talk was given by Dr. Robert Forsyth on psychology.
