GENUINE HASZARD'S IMPROVED

TURNIP SEED!

(x)

We have just received a large quantity of this Seed, which we guarantee to be the

Real Genuine Haszard's Improved,

grown in England by the same man that Mr. H. T. Lepage formerly got his seed from.

We sold a large quantity of this Seed last summer, and it proved true to its name, producing fine crops of large, sound, good-keeping turnips.

If you want a good crop of Turnips, buy the Real Genuine Haszard's Improved Seed at

BEER & GOFF'S.

Charlottetown, May 21, 1893.

"She Looketh Well"

to the ways of her household." Yes, Solomon is right; that's what the good housekeeper everywhere does, but particularly in Canada.

But her ways are not always *old* ways. In fact she has discarded many unsatisfactory old ways. For instance, to-day she is using

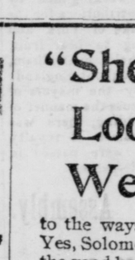
the New Shortening, instead of lard. And this is in itself a reason why "she looketh well" in another sense, for she eats no lard to cause poor digestion and a worse complexion.

COTTOLENE is much better than lard for all cooking purposes, as every one who has tried it declares. Have you tried it?

For sale everywhere.

Made only by
N. K. FAIRBANK & CO.,
Wellington and Ann Sts.,
MONTREAL.

Unlike the Dutch Process
No Alkalies
—OR—
Other Chemicals
are used in the preparation of
W. BAKER & CO.'S
BreakfastCocoa



which is absolutely pure and soluble.

It has *more than three times the strength* of Cocoa mixed with Starch, Arrowroot or Sugar, and is far more economical, *costing less than one cent a cup.* It is delicious, nourishing, and EASILY DIGESTED.

Sold by Grocers everywhere.

W. BAKER & CO., Dorchester, Mass.

Feed a Cold

Yes, but feed it with Scott's Emulsion. Feeding the cold kills it, and no one can afford to have a cough or cold, acute and leading to consumption, lurking around him.

SCOTT'S EMULSION

Of pure Norwegian Cod Liver Oil and Hypophosphites

strengthens Weak Lungs, checks all Wasting Diseases and is a remarkable Flesh Producer. Almost as Palatable as Milk. Prepared only by Scott & Bowne, Belleville.

FOR INVALIDS

whose system needs toning up and whose appetites are failing, a quick and pleasant remedy will be found in

CAMPBELL'S QUININE WINE.

Prepared only by K. CAMPBELL & Co.,
Beware of Imitations. MONTREAL.

JOHNSON'S ANODYNE LINIMENT

UNLIKE ANY OTHER.
As much
For INTERNAL as EXTERNAL use.
In 1810

Originated by an Old Family Physician.

Think Of It. In use for more than Eighty Years, and still leads. *Generation* after *Generation* have tried and blessed it. Every Traveler should have a bottle in his satchel.

Every Mother Should have Johnson's Anodyne Liniment in the house for Croup, Colds, Sore Throat, Tonsilitis, Colic, Cuts, Bruises, Cramps and Pains liable to occur in any family without notice. Delays may cost a life. Relieves all Summer Complaints like magic. Price, 35 cts. post-paid; 6 bottles, $2. Express paid, I. S. Johnson & Co., Boston, Mass.

Written for the Examiner.

Nature.

The rustle of the grove is in our ears,
And song of bird and whispers of the leaves,
And in our eyes the sight of all things dear
and pure,
The soul suffused with essence of the whole.

These days are not the common days,
Their secret, clear to the poet's eye,
Reveals what Thomson knew,
And Wordsworth dreamed.

The nameless joy of Nature is around,
Filling or tree or flower;
Redundant in the wave upon the sand,
O'erflowing in the droning bumble-bee.

Surely he may rejoice,—
That one who, seeing, can declare:
"I know what these things mean!"

C. G. S.

(Contributed by the Y. W. C. T. U.)

Suggestive Mathematics.

(a) In early times, Schoharie County, N. Y., was bought of an Indian chief for a barrel of whiskey. If the Indian drank one-half a pint a day, how long did it take him to swallow the whole County?

(b) As the county contains 256,000 acres, and the whiskey was valued at $1 a gallon, what was the price per acre?

A poor man, seventy years of age, was sent to the alms house. Had he saved the money spent for tobacco since he was 20 years of age, providing he spent an average of $30 a year, how much would he have had?

(a) If a family spends 15 cents a day for beer, how much is expended in four weeks? (b) How many loaves of bread at 5 cents a loaf could be bought for the same money?

A teetotaler and a whiskey drinker started together on a journey, each with his own horse and buggy. The distance was 700 miles. The horses each travelled at the rate of five miles an hour. The teetotaler made the journey in twenty days. The drinker stopped three times a day at the saloons for his dram, losing an average of fifteen minutes every time. How many days did it take to make the journey?

Tom smokes three cigars and his father smokes five cigars each day, for which they pay sixty cents a dozen. His father drinks three glasses of beer a day at five cents a glass. Tom's mother buys three loaves of bread a day at five cents a loaf, and two rolls of butter a week at fifty cents a roll. At the end of the year how much more do the cigars and beer cost than the bread and butter?

A smoker spends twenty cents a day for cigars; how many dollars will he spend in one-half a year? How many books at $2 apiece could he buy with this money?

Souris Notes.

Summer has at last arrived and the "Metropolis of the East" has donned its regular summer apparel, after having done which it stands second to no other place on the Island. Whether its beauties be viewed by persons taking an evening's walk along Souris Beach, where he is fanned by the cool sea-breeze of Colville Bay, or by taking a drive into the surrounding country, where he may view farm-work at its height, and, at the same time, take advantage of some of the best fishing grounds on the Island, it will, I am sure, make a favorable impression and be again re-visited when vacation time comes round.

Building operations are progressing rapidly in Souris. The central part of the city, which before was devoid of buildings, is now gradually becoming filled up, and I think that before long Souris may, in justice, lay claim to the enviable position of Capital of King's County, in a commercial, educational and geographical point of view.

Very little is said about politics as yet around here. It is rumored that both sides are busy canvassing for the fray, which is hourly anticipated; but the general opinion is that the "Orator from the East" will this time be consigned to "political perdition."

COON.

Souris, June 12, 1893.

New Land.

SAID TO HAVE BEEN DISCOVERED BY A SEALER IN THE ANTARCTIC OCEAN.

The Active, which arrived at Dundee lately, with a full cargo of sealskins, reports the discovery of land in latitude 65 south, longitude 63 west.

If the location given above be correct then the newly discovered land is a little to the Northwest of Palmer's Land. Palmers's Land is in the Antarctic Ocean, south of the South Shetland Islands. South of Palmer's Land is Graham's Land, discovered by Biscre in 1832. The South Shetland Islands are six hundred miles south of Cape Horn and were discovered by Captain William Smith in 1819. They have since been frequented by whalers.

The South Polar region, unlike the northern region, is almost covered by the ocean, the only extensive land being far to the south. The Antarctic Ocean is a name that should, properly speaking, be applied only to the ice-bound sea to the south of the Antarctic circle. In practice, however, it is usually extended so as to include more or less of the cold region around the South without reference to the circle.

As compared with the corresponding Arctic Ocean, little is known about this portion of the earth's surface, but it is sufficiently clear that the cold and the dangers to navigation in the southern ocean greatly exceed those of the northern, and that human beings and most other animals cannot—or at least do not—ordinarily subsist within its limits.

NO OTHER remedy for pulmonary troubles combines so many good qualities, nor proves so generally efficacious as does Puttner's Emulsion. For sale by all medicine dealers, only 50 cents for a large bottle.

Behring Sea Arbitration.

SEAL LIFE AND HABITS—SIR CHARLES RUSSELL AGAIN.

Paris advices state that Sir Charles Russell spoke again on Friday in behalf of the British case before the Behring Sea tribunal of arbitration. He compared the attitude of the United States in regard to the official report of H. W. Elliott, who was sent by the United States' government to examine the methods of seal catching, etc., in the Pribyloff Islands and Behring sea, to the conduct of Balak, King of the Moabites, who sent for Balaam to curse the Israelites, and when Balaam blessed the Israelites instead dismissed him in anger.

Sir Charles Russell asserted that Stanley Brown nowhere denied the statements of Mr. Elliott to the effect that the slaying of the males lowered the fecundity of the herd, and that as the male birth rate is equal to the female birth rate, the killing of the male disturbs the balance of the sexes; that the males formerly fought for mates, but they were now so few that the females could select their own husbands and have a perpetual leap year.

Lord Hannen, one of the British arbitrators, concurred in the view that the killing of male seals was an injury to the stock.

Sir Charles Russell replied that it was a serious matter to interfere, even for a limited time, with the rights of nations on the high seas. Sir Charles added that if the court should find it necessary to interfere, doubtless the briefest possible regulations could be adopted, such regulations not to be for the aggrandizement of the United States or of the lessee company, but to preserve the seal species.

General Telegraphic News.

ST. JOHN'S, Quebec, June 12.—Saturday evening while taking a walk on the plank walk of the Chambly canal, near the wharves, Miss Comeau, aged 19, missed her footing when crossing from one pier to another and fell into the river. One of the Misses Marchand, who were with her, caught hold of her dress but the current of four miles an hour dragged Miss Comeau away. Her body has not yet been found.

LONDON, June 12.—A conference of the Irish members of Parliament was held today to discuss the retirement from parliament of Thomas Sexton, who withdrew from the House of Commons in consequence of differences regarding the management of the Freeman's Journal, the organ of the anti-Parnellite section of the Irish Parliamentary party, of which Mr. Sexton was one of the directors. The conference voted to rescind a resolution, adopted Saturday, calling upon certain members of the board of directors of the Freeman's Journal, including Mr. Sexton, to resign. As a consequence, Mr. Sexton will not apply for the stewardship of the Chiltern Hundred.

TOPEKA, Kan., June 12.—The westbound train on the Atchison railroad was robbed by four or five men last night. They escaped after fatally shooting the express messenger.

NEW YORK, June 12.—A special from Pueblo, Mex., says the most disastrous storm that ever visited this part of Mexico is reported from the town of Punchmetta. The entire town was destroyed on Friday, every residence and building in the place being swept away by terrific wind. Two thousand people are homeless, 300 persons were injured but no fatalities are reported. The storm also destroyed crops of that section.

WINDSOR, Ont., June 12.—The boldest murder ever committed in this locality occurred this evening. Two men, named Captain James Hickey, a submarine diver, and John Vrooman, a mechanic, were driving along the street, seated in the same buggy, when Vrooman drew a revolver and shot Hickey in the left breast, and then pushed him out of the buggy and drove off. Hickey died instantly. It is said that Vrooman has been intimate with Hickey's wife for some time, and about a week ago she disappeared. Vrooman, after being arrested, told the following story: "He was driving along Sandwich street when Hickey appeared and insisted upon getting into the buggy to talk the matter over. The conversation soon grew into a quarrel, when Hickey hit him, and he believed intended to shoot him. For self protection he shot Hickey." Hickey had a revolver in his possession when shot.

AMHERST, June 12.—H. G. C. Ketchum, engineer of the Chignecto Marine railway, has returned to town from London, where he has been in the interests of the undertaking. In conversation with him your correspondent was informed that the prevalent reports against the undertaking and the raising of the necessary money to complete the railway are incorrect. The company has not issued to the public any prospectus of their bonds, having only issued them to their own shareholders, with the result that one hundred thousand pounds have been promised. The remaining one hundred and eighty thousand pounds will be offered to the public when the market becomes favorable.

—Montreal Star: Another Northern Republican, Mr. Murat Halstead, declares for the disenfranchisement of the negro with a view to reducing the representation of the Southern States. He argues that, the Republicans not being allowed to poll their negro vote in the south, the Democrats gain by this very measure of negro enfranchisement which was intended to weaken them. According to the present scale of state representation in Congress and the Electoral College, he shows that one white Southern voter has, in reality, nearly as much voice in the affairs of the nation as five Northern electors; and, by striking the negroes from the roll, he proposes to remedy this by basing the representation wholly upon white population. This may be good party tactics, but the United States will make a serious blunder if it teases the negro ulcer with caucus-room devices. The negro is a legitimate charge upon the people who enslaved him and wrought upon him all the wrong whose marks he now bears.

THIS WONDERFUL STORY

Was Told Mr. Frank H. Colley,

Local Editor of Age, Belfast, Me.

"For 15 years I have been a sufferer from Salt Rheum of head, with its attendant itching and burning. Crusts 1-8 inch thick would form over my whole scalp, crack and bleed. I also had a general Salt Rheum on my body from which I suffered torture. My food distressed me badly and a severe palpitation of the heart added to my suffering, and unfitted me for labor.

LUCIUS H. DUNCAN,
Chairman of the Board of Selectmen of the town of Northport, Me.; member of Maine Legislature for 1885-86.

Physicians said I had CHRONIC ECZEMA, a BAD HEART TROUBLE, and DYSPEPSIA in a severe form. I used many remedies, but received no permanent relief. After taking 6 bottles of SKODA'S DISCOVERY, with LITTLE TABLETS, and using SKODA'S SOAP and OINTMENT, I find myself perfectly cured. Skilled physicians have examined my heart and pronounce it normal in all its functions."

SKODA DISCOVERY CO., WOLFVILLE, N. S.

For sale by all Druggists. Trade supplied by W. R. Watson, Charlottetown, P. E. I.

1893 SWIFT!

THAT the '93 "SWIFT" is the best wheel made in ENGLAND, and that it is second to none in AMERICA, any unprejudiced wheelman will say after a fair test of this Machine's powers.

Here are a few plain reasons why the SWIFT, made by the Coventry Machinists' Company, Coventry, England, the oldest Cycle Manufacturers in the world, is the *acme of all that is* great and good in a strictly high-grade wheel:—

WHY?
BECAUSE it is simple, and the adjustment and bearings accurate.
BECAUSE it is light and strong—correct proportions not weight give strength.
BECAUSE its roller forged chain reduces friction to a minimum.
BECAUSE it is not possible to make a better wheel.

Many more equally strong reasons can be given why the "SWIFT" is THE wheel. I will have a sample wheel here in a few days. Hold your orders until you have seen it. Now is the time to buy the "SWIFT."

Terms Cash; or to those who prefer, on easy instalments.

WILLIAM J. STAIR,
may16 Agent for Charlottetown.
