

NOTICE:

HI STUDENTS!!!!!!

It's Treena Gallant again and I'm back to give you some new listings of student bursaries and scholarships. The following is a list of different awards that are available for the month of November, but REMEMBER it's wise to stop in to the financial office once and awhile to check if any current awards have been sent to us, and to get a head start on any already available awards.

GOOD LUCK!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Treena Gallant Financial Aid
University of Ottawa Undergraduate Research Scholarships-- Nov. 13

(Provincial) I.O.D.E. Scholarship-- Nov. 15

CIMN

By Chris McCarron

CIMN Station Manager Rodney St. Pierre has a couple of outstanding problems at the station.

One of the problems has to do with Island Cablevision. Sometimes (too frequently) Island Cablevision shuts off CIMN's signal. Island Cable leaves CIMN off all weekend long only to restore service on Monday. Island Cable does this, it claims because CIMN's signal interferes with another signal broadcasting on Sundays. Since CIMN doesn't pay for their signal, Island Cable sees CIMN as less important than the other program that runs on Sunday. Rodney finds this shut off frustrating because CIMN is working hard to promote itself (newspaper ads, sharp looking T-shirts and a T.V. commercial). What is the point of spending money on promotion when the listeners go to tune in, the station is off the air? This is entirely the fault of Island Cable Vision. Rodney is currently negotiating a solution with Island Cable.

A second serious problem has to do with the theft of property belonging to CIMN. An alarming number of CD's, albums and anything else is being stolen from CIMN. Rodney wants everyone to know that the station will press charges against anyone caught stealing anything from CIMN. Unfortunately Rodney admits that most of the thievery is being done by a small number of Station volunteers. These people ripping off the station must realize that everyone is paying in their student fees for much of the CDs being stolen.

What music is being stolen? Answer every type of music. The most popular music being stolen is predictably heavy metal and hard rock. Stuff like Metallica and Guns'n Roses. The new Metallica CD was stolen 3 days after it arrived. The Guns'n Roses CDs were stolen one week after arrival.
