

Moon Trip Is Possible Early As '69

WASHINGTON (AP) — Senators were told here that the United States may send a manned moon shot could come in 1969.

Dr. Edward C. Welsh, executive secretary of the National Aeronautics and Space Council, held out this possibility and also said the U.S. leads Russia in many phases of the manned space flight.

His comments came before a Senate appropriations subcommittee when asked about the U.S. position in the space field.

Dr. Welsh said the U.S. goal of a successful manned moon trip is a successful moon shot in this decade still is in sight, adding that "1969 is considered a good, practical year" in which to expect the attempt.

In comparing U.S. and Russian space achievements, Dr. Welsh said the U.S. has an edge in "docking spacecraft and has engaged in much more space maneuvering" than the Russians.

He said the U.S. has logged 1,375 manned space hours against 507 for Russia. He said the U.S. has launched 380 spacecraft compared with 185 by Russia.

"They have more powerful boosters," he said, "but we are testing ones as powerful now."

Problems Need Slower Approach

OTTAWA (CP) — Canadians are in too much of a hurry to have all the country's problems solved by immediate, clear-cut decisions, Prime Minister Pearson said here.

He told 240 teen-agers from high schools across the country at a Rotary Club luncheon here: "We want clear-cut decisions, but many of the problems that we face in Canada and in the world today are not black and white. You cannot make quick, clear-cut decisions about everything."

The prime minister said there were many national and international problems which could be better solved by a more thoughtful, slower approach.

"There is very little time for tranquil thought today."

"I often think we get impatient if we miss the first segment of a revolving door."

As a long stream of students lined up to take his photograph in the Chateau Laurier Hotel ballroom, Mr. Pearson reminisced about his youth.

"I had hoped to become a baseball coach, or a University of Toronto professor."

"I certainly never expected to become prime minister."

Canadian Play Wins U.S. Prize

TORONTO (CP) — A Canadian radio play won a first prize and the praises of a U.S. panel judging entries in the annual Gabriel awards for religious broadcasting in North America, the National Catholic Communications Centre has announced.

The NCC entry, "White Christmas," with its theme of a colored man's reflections on Christmas in a white man's world, was written and performed by Robertson Tabor. Paul MacDonald directed and produced the quarter-hour dramatic narrative.

The Gabriel award sponsors, the Catholic Broadcasters Association of America, holds its annual awards dinner in San Francisco May 10. The association is an affiliation of local, regional and national producers of religious programs throughout North America.

Mr. Tabor began his radio writing career 28 years ago at CKCW in Moncton. MacDonald broke into radio at CJCH in Halifax 16 years ago.
