Total 134,158.

DO NOT MISQUOTE FIGURES.

Some advertisers are using the Inland Revenue Department's recent official report upon baking powders to show the comparative strength and qualities of these articles as they are sold in the Dominion. It is not fair, however, either to analysts or to the public in making this use of the official figures that they should be misquoted, as it is alleged has been done in some instances.

The following figures are copied from the official report printed by the Canadian Government and show correctly, as per that document, the relative strength value of the baking powders named. The analyses in all cases were made by the Government Analysts:—

	Per cent. of available leavening gas.
"Royal" (average of three highest tests),	13.4
"Cleveland's" (average of two highest tests),	13
"Dearborn's" (average of three highest tests),	11.7
"Imperial" (average of two highest tests),	9.9
"Magic" (contains alum), average of three highest tests),	7.7

These tests should set the baking powder question at rest.—Montreal Pharmaceutical Journal.—dy.&wkly
