Eagle Stopped From Carrying Away Small Girl

WISTARIA, B.C. (CP)—Two sisters and two half-eggs attempted to carry away a four-year-old girl yesterday. Mrs. Fred Spicer said Wednesday the attack occurred.

Velda Neeney, daughter of Mrs. Cliff Bennett, was playing in a field near the Bennett farm house at Ootona last week when she was taken by an eagle. Mrs. Spicer said she saw the eagle swoop down on the girl's head, catching her hair, while the other dove into her back. She tried to stop the eagle but she and the eagles landed above her, sitting on the trunk. The two older sisters were going to Velda's rescue when school teacher M. C. Gray, who was driving by, stopped and scared the eagles away.

Get To Dispose Of Butter Surplus

OTTAWA (CP)—The federal government will dispose of its persistent 200,000-pound butter surplus, at a loss if necessary, Agriculture Minister Harry Hays said Wednesday.
"There is no question but that we probably will have to take a loss. But the sooner we get rid of it, the better off we'll be," Hays said.
The stocks would be depleted in a little over a month, he said. The surplus is being disposed of in a number of ways, including a program to sell butter to the Netherlands. The Netherlands is buying butter, but recent United States sales to that country have been around 25 cents a pound. Canada's last butter export was in quantity at a good price were to Britain in 1959.
The surplus of dairy farmers were guaranteed a floor price of 14 cents a pound for top grades. For the last two years, while that price is maintained, the federal government has been paying about \$40,000 annually in a consumer subsidy so that butter is more competitive with margarine and spreads.

JFK Gives Assurance For Bar Pact

WASHINGTON (AP)—President Kennedy has told the U.S. Senate that the limited nuclear test-ban treaty is "safe" and will in no way tie the president's hands against using nuclear weapons in defence of the United States.
In a letter Wednesday, Kennedy pledged to carry out safeguards insisted on by the U.S.-joint military chiefs of staff in giving their support to the pact. He also tried to answer major arguments raised by doubters and opponents and declared:
"It is not only safe but necessary, in the interest of this country and the interest of mankind, that this treaty should now be approved, and the hope for peace which it offers fully realized by the Senate."
One of the treaty's staunchest opponents remained unswayed. Senator Strom Thurmond (Dem., S.C.) declared the treaty's military risks "are formidable and even fearsome." He told the Senate its ratification could leave the U.S. "at the mercy of only of submitting to nuclear blackmail, nuclear war or surrender."

NEW SKIRT AIDS TUMMY

LONDON (AP)—A British airline announced Wednesday the introduction of a self-inflating skirt for high-flyer stewardesses.
The "new skirt," said a spokesman for the British Overseas Airways Corporation, will have an elastic panel with a two-button adjuster on the side.
"That should take care of those bulging tummies in the air," Boyle's law, you know, which says the volume and pressure of a gas vary inversely.
"Come again, please?" he explained. "As the girls ascend to an altitude of, say, 5,000 feet and above, their tummies swell. This makes their skirts too tight and quite naturally they don't like it."
The girls grumbled officially about the bulge. They said their skirts fit beautifully on the ground but not so happily in the air.

Europe's Farm Produce Needs Prescribed As Fantastic

By ARCH MACKENZIE
OTTAWA (CP)—A "fantastic market" for Canadian farm produce appears to exist in Europe, Agriculture Minister Harry Hays reported Wednesday on his return from 15 days in Europe.
European agriculture tends to be high-cost farming, and Canadian efficiency is a big advantage to capitalize on that with quality products, he said.
Mr. Hays said he had talked about wheat sales on his 5,000-mile trip through Russia and other countries.
He said he returned Tuesday night from visits to Britain, France, Finland, Sweden, Denmark, West Germany and Russia, where he spent 65 days.
At his press conference Wednesday, Hays stressed reports that Russia wants to acquire substantial credit advances of Canadian wheat. One Ottawa informant said that wheat would exceed sales in Red China and perhaps include other areas of Canada's wheat production.
