UNUSUAL DRAMA AT CAPITOL THEATRE SUMMERSIDE

—One of the year's most unusual and dramatic stories is unfolded on the Capitol screen in "Saadia" M-G-M's striking Technicolor picture filmed on location in French Morocco, with Cornel Wilde, Mel Ferrer and Rita Gam in starring roles.

With its settings the palaces and courtyards, the markets and bazaars, the people and the pagentry which make Morocco one of the most fascinating and mysterious places on earth, "Saadia" tells an absorbing story of a civilization in which the modern and medieval are curiously juxtaposed and where enlightened rulers struggle to free their people from ancient beliefs in sorcery and witchcraft.

Saadia, a beautiful, proud and spirited Berber girl, is the story's heroine. Brought up by the sorceress, Fatima, in a weird environment of black magic, she believes herself to have the Evil Eye and to be responsible for the epidemic of bubonic plague which falls on her village. Two men fall in love with Saadia, one the progressive young Caid, Si Lahssen, the other the French doctor, Henrik, who has come to Morocco to escape the past. They form an alliance to rescue the girl they both love from the evil power of the sorceress. It is Saadia herself, however, who escapes her bondage in a spectacular act of heroism in which she saves her plague-ridden village, and in the film's stirring climax, in which the life of Si Lahssen is weighed in the balance the fate of both the Caid and the doctor is resolved as well.
