canvass and a program of education through the schools, churches and other organizations. The speaker said this is a big question everywhere. In no Province in Canada, he stated, "have we yet adopted compulsion, as they have in some Australian States." He believes a possible answer lies in having a chance to talk the matter over with people in their own homes. This he called a sound educational approach that will get results. "It is my belief that it is the challenge of the hour for your League and a problem as real as that of getting a sanatorium was twenty-five years ago." Dr. Wherrett compared condi-

tions now and then. In 1926, when he spent a month here, clinics were held one month in a year and in 1925 and 1926 examined only 190 people. Now there is a regular clinic service and last year 21,642 people were X-rayed. In those early days 72 cases of tuberculosis would be found in a month, but now there were only 117 in a year. He also reminded the gathering that in 1926 there was no sanatorium, but now there is a fine institution that last year treated all active cases and, in fact, took in polio cases as well.

Speaker Thanked

In expressing the thanks of the League to the guest-speaker, Dr. W. J. P. MacMillan said he had allied himself with the fight against tuberculosis and stated he had found that in any welfare organization the strength came from the women of the Province. He pointed out that in the bad years, mentioned by Dr. Wherrett, members of the Women's Institutes had raised \$70,000 towards the erection of a sanatorium and then the Provincial Government did the rest. In connection with this he did not believe that Government should do it all, but thought there should be active co-operation between the people and the Government. His remarks were seconded by Rev. T. H. B. Sohier.

Lieut. Governor T. W. L. Prowse agreed that the Government should not do it all and private citizens should bear a share of health work. "We should all make our contribution either in money, time or in ability to do a job," he stated in his brief remarks.

Executive Secretary

The Executive Secretary, Major V. N. Hodson, stated in his report that the x-ray equipment, van and generator operated throughout the year without loss of time due to breakdown. He mentioned that some replacements were necessary such as tires for the trailer and an x-ray tube.

Mr. Hodson said there were no changes in staff during the year, which consists of four, executive secretary, Seal Sale secretary and two technicians. During the year 1952 there were 17,044 x-rays taken, the second largest total since the unit was formed. The result was 16 new active cases found and 194

non-tuberculous chest conditions. A combined tuberculin testing, ECG and x-raying project was successfully carried out at Borden, St. Peter's Lake and Summerside. At the latter point 3,155 persons were x-rayed, the best attendance there to date. The speaker said that all schools and colleges in the two cities are x-rayed regularly every second year as are the Provincial institutions at Falconwood and Beach Grove. All service personnel of the R.C.A.F. station were x-rayed by request, as were most of the families. The executive secretary again conducted the March of Dimes Campaign for the Polio Foundation and the clerical work was done by the League staff. Mr. Hodson said that rehabilitation is not properly the work of the voluntary organization, rather it came under the Provincial Rehabilitation Officer. But as part of

WOULD YOU BUY PRECIOUS GEMS FROM A FURRIER?

We certainly hope NOT! You know little enough about quality and value of precious stones! Your furrier probably knows less! You would patronage your own jeweler in whom you have complete confidence, he has built a solid reputation over the past many years through hard work and unswerving integrity.

WOULD YOU buy expensive FURNITURE from a FURRIER? You shouldn't! He knows little of the quality, construction or value of this type of merchandise. You would and should deal with a firm that has been long in the business and has built a reputation founded on fair dealing, knowledge of the trade and has a name that guarantees to you that you are getting the best quality possible at a fair price.

It Only Stands To Reason, You Should Deal With A Specialist, One Who Knows His Business!

WOULD YOU buy exquisite FURS from a FURNITURE STORE? You certainly should not! A jeweler is a jeweler, he knows his business — a furniture store is a furniture store, they know their business — a furrier is a furrier, he knows his business. It takes years and years of hard work to become an expert furrier, one who can be depended upon serves many years of apprenticeship. It takes years of experience to be able to judge the many different types of fur, the many different qualities, the construction and fur of a well made garment. Furs are bought mainly on faiths, faith in the firm you are dealing with; your furrier is the judge of quality and value, you depend upon his knowledge and integrity. Therefore be well advised—if you don't know furs—know your furrier—know his reputation, assure yourself that you have complete confidence in the furrier you are dealing with before doing business.

BEFORE YOU INVEST — INVESTIGATE

TRADE IN YOUR OLD FUR COAT!

We repeat our special offer of two weeks ago! Your old furs are worth money to you—and to us—We will make you a very generous allowance for your old furs against the purchase price of a new fur coat. Trade in now! Also receive a special cash discount—Free storage until wanted. Easy payment plan if desired.
