CLOTHES boiled without soap! "Impossible," you say. It would be impossible with the ordinary washing powders; but the function of "Lessive Phenix" is to do a great many things commonly deemed impossible. It makes your clothes like snow, and it makes the water and your hands soft; it will polish your silverware, your tinware, your bath; in fact, it will clean everything. Lessive Phenix—ask your grocer for it.

LOVERS of celery unwittingly "kill two birds with the one stone." Celery to them is like sweets to the children, they eat it simply because they are fond of it—but at the same time it is food and medicine. You buy a bunch of celery from Gay & Son, but do not expect a bottle of "Pains Celery Compound," or package of food preparation thrown in. All the same the essence of food and medicine is in the celery. Gay & Son only charge for the one, the other is free gratis. a31—mon & thurs

MORE RECORDS SMASHED.—The first annual games of the Metropolitan Association of the Amateur Athletic Union of the United States, were held on the Manhattan field, Saturday, says a New York despatch. George S. Gray broke the record (his own) for putting the 16 pound shot by 2 1/2 inches, with a put of 46 feet 4 inches. J. S. Mitchell threw the 16 pound hammer 139 feet 2 inches, breaking Arthur Hale's English record and the world's by 11 inches. Mitchell threw the 56 pound hammer 33 feet 8 1/2 inches, beating the record by 7 1/2 inches.

DESTRUCTIVE FIRE.—Mr. Alexander McNevin, who lives near Bonshaw, lost his homestead by means of fire a few nights ago. There had been a fire in the woods near by the previous day, and during the night the flames spread rapidly to the adjoining buildings. Mr. and Mrs. McNevin, with their family, having only sufficient time to escape from the house with their lives. Every building and everything in every building was destroyed, except the pigsty. Fortunately Mr. McNevin owns another house on an adjoining farm, and to this he was able to remove. But his loss is a very heavy one, and he has the sympathy of his neighbors.

A MAGNIFICENT BUILDING.—Plans are nearly completed for the proposed Oddfellows Temple in Chicago, which will surpass in height all other structures on the face of the earth. The building will have a frontage of 225 feet, and the central portion will rise to an eminence of 556 feet, one foot higher than the Washington monument. Contractors say it will be necessary to dig 75 feet under ground to make the foundation safe. The central portion will have thirty-two storeys, capped by a cupola ornamented by a spire, and will be flanked on either side by twenty-two storeys. One thousand offices and numerous fraternal halls are planned for its interior. Eight millions will be expended in its construction, and work will begin as soon as an available site is procured.

NOTES FROM OTTAWA.

Scenes in Parliament.

Exploded Slanders Revived and Disproved.

STRIKE AT OTTAWA.

Serious Charges Against Leading Grits.

Laurier Involved with the Boodlers.

OTTAWA, Sept. 15. The House of Commons yesterday was occupied in concurrence on a report of the Committee of Supply, and also in the consideration of a few items of supply remaining unvoted.

Davies and Mills renewed their attack on Foster regarding the subsidy to the West India steamers; but after a couple of hours' "blow," the appropriation passed. The supplementary estimates will be brought down to-day.

Mr. Forbes asked if the Government intended taking action in the matter of charges preferred many years ago by Hon. Wm. McDougall against Mr. Chapleau, of having tried to blackmail Smith and Ripley, railway contractors.

Sir John Thompson gave Mr. Forbes a severe dressing for abusing his rights as a member, in making a question the vehicle for personal attack on an exploded charge.

Hon. Mr. Chapleau read a letter that he had received from Hon. William McDougall, written on Sunday, regretting the revival of the old personal matter, which years ago had been explained and forgotten. Mr. Chapleau also produced the affidavits of Smith and Ripley, denying the charges.

Mr. Forbes took to his heels and is probably running still.

In the Senate, the report of the Railway Committee on the Bay Chaleur scandal was adopted on a vote of forty-three to ten—all the Grit Senators voting against it.

Sir Richard Cartwright promises a resolution this afternoon, dealing with the expenditure on the Langevin block.

Fifteen hundred mill hands went on a strike at Ottawa yesterday and are still out. They want higher pay and shorter hours.

Hon. Alex. Lacoste, Speaker of the Senate, has been appointed to succeed the late Chief Justice Dorian of Quebec. Senator Ross will succeed as Speaker.

It is now known that Mr. Laurier was present in Mercier's house with Mercier, the two Langliers, Pacad, Tarte and Senator Pelletier, when the promissory notes were drawn up to procure the boodle for the elections, which notes were afterwards paid out of the Bay Chaleurs steal. Liberals are much excited over this revelation, and they say Laurier will have to explain his connection with the boodlers.

Col. Amyot is to be impeached for having drawn his full sessional indemnity for two years when it can be proved that he was absent for lengthened periods attending courts at Quebec. Similar charges will be brought against another Quebec Liberal.

Tigri Occupied by British

To Be Used as a Coaling Station.

LONDON, Sept. 15. British men-of-war have occupied Tigri, an island belonging to Turkey on the west coast of Methylene, and have landed troops and artillery. It is intended to fortify the island and make it a coaling station and rendezvous for the British fleet. It is sixty miles from the mouth of the Dardanelles.

Floods in China.

Heavy Loss of Life.

LONDON, Sept. 15. Official reports say that 1,500 perished in the Shanghai floods, while hundreds were injured by the falling of buildings. An enormous number of cattle also perished.

Telegraphic News.

HALIFAX, Sept. 13.—The bark Quebec, abandoned after the late hurricane 150 miles off Halifax, and whose crew was taken off by the Gloucester fishing schooner Iolanthe, and has been towed into Halifax. She is in good condition and was found with her lower masts and rigging all standing. She was not leaking except through the two holes bored by the crew before abandoning her. The Yankee fisherman was doing her. The crew were taken off by the steamer, and immediately after the last boat left the bark, the Yankees stepped on board, took possession of the prize, stopped up the augur holes and towed her to Halifax. She is worth about \$25,000. The captain and crew of the Quebec must have been panicky-stricken to abandon a vessel in such good condition.

SHERBROOKE, Quebec, Sept. 13.—There is great excitement here over the murder of one Bouchard, a rather tough character, who lived with his wife and child on Wellington street. The wife and daughter are under arrest, but are not supposed to be implicated. The former called in a neighbor and showed him her husband's dead body, which seemed as if a knife had been run down his throat. It is believed that there was a row and that the wife, who was drunk, woke up to find her husband dead in a room beside her. An husband had to-day Joseph Boileau was arrested early hour to-day Joseph Boileau was arrested charged with the crime.

deck. Some thirty feet of rails and the life-boat were smashed, the deck damaged and several plates bent. The passengers were much alarmed and life belts were prepared, but the fears of all were soon allayed. The Arizona a long time searched in vain for the unfortunate sailing vessel. Part of her bowsprit was left on the Arizona's deck and from wreckage seen it is feared she foundered.

BOSTON, Sept. 13.—The schooner yacht Fleur de Lis, with about 40 excursionists, was run into to-day by the steamer Cumberland, from St. John, N. B. The Fleur de Lis sunk after the party had been landed on the wharf. The Cumberland was uninjured.

QUEENSTOWN, Sept. 13.—The Guion line steamer Arizona, Capt. Brooks, from New York, Sept. for Liverpool, arrived here today in a battered condition. The passengers report that at an early hour on Sunday, Sept. 6th, while the vessel in a fog was steaming rapidly an unknown sailing vessel, believed to be a large coasting schooner, struck the stem of the Arizona's port quarter. The passengers were in bed at the time, but were awakened by the shock and noise of the collision, and all rushed on deck.
