

ENJOY SKIING

St. Dunstan's University Students Paul DesRoches and Dan Murphy are seen as they start out for an afternoon of skiing. They were recent guests of Judge J. S. and Mrs. DesRoches, Montague, and enjoyed one of the rare opportunities for skiing so far this year.

MONTAGUE HIGH

Principal Away But Everything Goes Ahead

Well it really has been a busy week at Montague High. Busiest of all was our principal, John Hughes, who is currently attending the National Conference on Education which is being held at Ottawa. Prior to his departure Mr. Hughes spent many busy hours arranging schedules to maintain in his absence, the smoothly running organization which is "Montague High". Mr. MacDonald is an ideal and capable substitute in Mr. Hughes' absence.

The "Blue and White" year book committee held a meeting on Thursday afternoon the guiding hands of Mr. Hughes. It was decided that each committee should have over half of its project completed and passed in by February 27th; so, let's get it! We want a bigger, better, more popular year book than ever for this year.

The Monitor staff has been sneaking around the halls this past week and we can all guess why. They are getting ready to publish another High School paper in the very near future. So, watch out! Don't say anything you don't want publicly known.

The boys have really been busy at it. They've finished painting the lines for the basketball court, set up the badminton net, and with the help of the weaker sex, tried to finish painting on the lines for volleyball. All these games are set up in the basement and can be used at recess, before and after school, and are available to students from Grades ten to twelve and Commercial class.

Some of the games are rather vigorous for the weaker sex, but you should see them go! The teachers are getting a bit impatient though, because the students just never hear the bell. It hasn't been decided yet whether they really don't hear or just don't want to.

The students who attended the play "See How They Run" enjoyed it very much and thought that those of the teaching faculty should turn to acting and forget about teaching, probably more money in it anyway.

The High School hockey team is coming along by leaps and bounds. Friday night after the Ice Sports, they beat Souris High School by a score of 9-0. It was a good, clean, fast game and the two teams should be congratulated on not losing their tempers.

The star of the Ice Sports was (Brother) Peardon. We all hope Montague high will make as good a showing at the Provincial Ice Sports this year as they have in previous years.

The school curlers have been going on a regular schedule. They plan to follow it through until the curling season is over. An enterprising group of Grade Eleven and Twelve students are entering the Essay Contest. The Essay is to contain from 1200 to 2000 words on the topic "our duties and responsibilities as a citizen". This will certainly be a challenge to some of our senior "Brains". We wish them lots of good luck in their efforts.

EASTERN GUARDIAN

ALLISTON VARIETY Concert, Cambridge Hall, Feb. 26.

CATERPILLAR - Master Danny Boudreau, Montague, yesterday carried a fat, brown caterpillar into the Guardian office. Although young in years, Danny realized the caterpillar was slightly mixed up in his seasons, being a bit previous for spring, when all wise caterpillars make their first appearance.

YOUR country Jamboree is coming to Georgetown next Saturday night with 2 hours of Western and Rock n' Roll songs and music followed by 2 hours of Old time and modern dancing. Stars of TV, stage and Radio combine to bring you 4 hours of top entertainment and dancing. Doors open 7-8.5. Adm. Adults 65 cents. Children 35. Don't forget Town Hall, Georgetown, next Saturday night Feb. 22.

 - Boys 10 years: 1 Gary Campbell; 2 Ken Docherty; 3 Kenny Fraser.
 - Girls 1-4 mile: 1 Sandra Bell.

Nursery Club Holds Auction

A wide variety of articles was sold at the auction sale, sponsored by the Nursery Club of the Kings County Memorial Hospital on Wednesday evening, when members and invited guests met at the spacious home of Mrs. Leon Johnston.

Mrs. Roland Diamond, president of the club, capably acted as auctioneer and a substantial sum was realized.

During the evening, the presentations were made: one to Mrs. William Bears who is a recent bride and a valued member of the Nursery Club, the other to Mrs. Gerald Jardine of Murray River, a former club member, who with her family is moving to Campbellton, N.B. Each gift was accompanied by a humorous address in verse.

A dainty lunch was served by the hostess assisted by Mrs. Beecher Hickox, Mrs. Bears, Miss Florrie Beaton and Mrs. Roy Gillis.

fore be of interest that Farm Forum for Monday February 24, plans a special report and discussion on the topic of weather forecasting in Canada.

The superintendent of the Public Weather Service Station of the Meteorological Services of Canada will comment on or answer questions relating to weather service for farmers. Further on this question of weather it would seem in order of comment that this part of the continent has enjoyed some unusual benefits this winter.

While supposedly favourable climatic such as Florida and southern United States have suffered storms and severe frost the Maritime Provinces have hardly come up with either one respectable storm or a really cold day. So far this winter we have heard no one complaining about our weather and that means that it really must be satisfactory.

Montague Rink Regular Skate TONIGHT Excellent Ice Time: 8 to 10

Reaction to the question was quite conclusive on the point that farm forum people thought the Canadian farmers have effective representation and policy-making by the C. F. A. There was little inclination to criticize the C.F.A., what criticism there was directed towards the lack of individual interest and support on the part of too many farmers.

Certainly the C.F.A. must be able to prove that it is representative of Canadian agriculture that does not mean that every Canadian farmer must be in agreement with its policies, the most that can be expected is that the considered majority opinion and promote policies which will improve conditions generally, first for all farmers and secondly for all Canadians.

A recent decision of the annual meeting to amend the Constitution in such a manner to provide a delegate voting body of 81 persons of the C. F. A. annual meeting th's will still further broaden the base of the Federation. It will now be up to the provinces to devise ways and means of financing these additional delegates.

WEATHER FORECASTING

Farm people have good reasons for being interested in and observing the weather. Working hand in hand with nature the farmer must constantly take into account the weather and weather prospects. For this reason weather forecasts are of more importance and more value to him than to other occupations. It will there-

A meeting of the shareholders of the Montague Co-operative Association will be held in the board room on Wednesday, February 26th at 8:00 p.m., to make final decision on offer of purchase. A full attendance is urgently requested.

LITTLE SANDS Surprise Couple On Anniversary

The Little Sands Farm Forum met at the home of Mr. Montie Livingstone on Monday, Feb. 3.

Two gravel trucks have been hauling gravel westward from the shore of Mr. Peter Richards this week. It is quite unusual to be hauling gravel on Feb. 3, from Little Sands. There has been very little snow this winter in the south-eastern section of the Island. These last few days have been a little frostier, but so far, February has been a wonderful month. January too was unusually mild.

Mrs. Reuben Moore, High Bank, was a patient in the Montague Hospital. Her many friends in Little Sands hope she will soon be much improved in health.

Mrs. Angus MacPherson, has been home in Little Sands for over a month. We hope she will soon be feeling well again.

Mr. Hugh MacNeill accompanied Mr. Carleton Hume and his father, Mr. George B. Hume, Little Sands on a business trip to Charlottetown on February 3.

Word has been received from Mrs. Bob Sasser (formerly Miss Alice Sikes, Little Sands) that she and her husband and three children expected to leave Frankfurt, Germany on January 31, by plane, for New York. Mr. Sasser was in the American Armoured division and was stationed in Germany. The expected to arrive in New York the next day. Mrs. Sasser said they would be met at New York by her sister Annie. Her boy Edward, is stationed near (in Frankfurt, Germany) and visited with the Sassers, the previous day. The Sassers enjoyed their stay in Germany but would be happy to get back to the United States, where many of their relatives reside.

Mr. and Mrs. Ivan Gordon, Abney, visited their parents, Mr. and Mrs. Archie Munn, Little Sands, recently.

Mr. Lemmie MacLean is not enjoying the best of health at his home in Little Sands. His friends here hope that he may very soon be feeling better and on the way to a good recovery.

Mrs. Billy White, teacher at Parkdale, was expected home in Little Sands on Friday evening, Feb. 20.

Mr. and Mrs. Gerald Lanigan of Montague.

HELD FOR SLAYINGS

BANGKOK, Thailand (Reuters) Three Thai police officers are under arrest in the assassination nine years ago of three cabinet ministers and a member of Parliament. Thai officials announced Tuesday. The four were killed in March, 1949, while prisoners of former government head P. Pibulsonggram. An announcement had said they tried to escape and were shot.

Outlines Program

(Continued from page 3)

in their rehabilitation program; 20 per cent is used in research; 10 per cent for referral services—used in finding employment for the rehabilitated and the balance is used for administration purposes.

Each association has a board of directors composed of parents and people who donate their services on a charitable basis. The Quebec board has 30 directors. The money used for administrative purposes is paid out to the association secretary who makes a full time career of this position and to others who have various forms of employment in the association's main office.

FROM BIRTH

In order to help the Cerebral Palsy victim as much as possible, the child is taken under the association's care at the moment of birth for diagnosis. From there through the various stages of its life, the child is rehabilitated through education, care in hospitals and is made ready for life in the outer world. The Cerebral Palsy victim is never really out of the association's care and is watched all through life.

How do the association know when a CP child is going to be born?

"Doctors diagnose the Cerebral Palsy child prior to its birth," Mr. McIntosh said, "and advise the association just where and when the birth will take place." During the school term, the children are taken to and from school each day by a special bus. Through the co-operation of service club in Montreal, parties for the young ones are arranged on such occasions as Christmas, Easter, Thanksgiving, etc.

Are Cerebral Palsy victims tended under one roof or within one institution in the Montreal area?

"No", Mr. McIntosh's said. "Various centers within the city, such as the Children's Hospital and the Montreal Crippled Children's Hospital provide several types of rehabilitation services for the Cerebral Palsy cases."

"Our major problem when we first organized in Quebec about 10 years ago was the lack of trained personnel," Mr. McIntosh said. "These included speech therapists, physiotherapists and social workers. However, we have now reached the stage where we can afford to expand into other areas of the province."

"Our major goal is, in the near future, to send out working teams of trained personnel to these rural sections that cannot afford the expense of operating a clinic," he emphasized.

"It is also a well known fact," he concluded, "that Canada is further advanced than any other country in the world in the care of Cerebral Palsy. Although this disease has been known to exist, it has only been within the last decade that doctors have been able to cope with it."

The first printing press in British North America was established in Halifax in 1751.

BUYING PULPWOOD IN SOURIS

3 1/2 FT. ROUGH AND 3 1/2 FT. HALF BARKED

EASTERN PRODUCTS CO.

Volkswagen

JUST A 13-INCH LIFT FROM THE CURB...

plus lowest cost per delivery

Whatever you deliver . . . TV sets, orange crates, washing machines, nail kegs or general freight . . . loading a Volkswagen is easier, faster and safer because you load from the side as well as from the rear and your load gets a balanced, "cradled" ride.

And Volkswagen saves you money on every delivery too. The rear-mounted air-cooled engine (no anti-freeze) together with a new, heavier type transmission, comprises a rugged, economical power unit that gives this functionally designed vehicle 30 to 35 miles to a gallon. Backed by a central 4-million dollar Spare Parts Depot, Volkswagen's efficient dealer organization guarantees prompt service from coast to coast.

Nationally known companies use Volkswagens:

Bell Telephone Company • Canadian Broadcasting Corporation
Canadian National Telegraphs • Culligan Soft Water • Steep Rock Mines
Eaton's of Canada • O'Keefe's • Ontario Government, Dept. Lands & Forests
Ontario Provincial Police • R.C.A. Victor • Simpsons-Sears • Singer Sewing Machine
St. John Ambulance • Thor Industries . . . and many others

HERE'S WHY VOLKSWAGEN CUTS DELIVERY COSTS!

Let your Volkswagen dealer prove that you, too, can cut your delivery costs.

- 1 LARGER LOADING SPACE — 70 CU. FT.
- 2 LOWER OPERATING COST — 30-35 M.P.G.
- 3 NIMBLE IN TRAFFIC — EASY TO PARK
- 4 LOW LEVEL LOADING — 13 IN. FROM CURB
- 5 WIDE SIDE AND REAR DOORS
- 6 LARGEST ADVERTISING SPACE — 80 SQ. FT.
