Bad for the Government.

Mercier's Painful Admissions

MONTREAL, Oct. 30. Matters for the Provincial Government are getting worse, and it will not be surprising if Holland and Casgrain close their case very soon, so certain does every one appear that the judges have already seen enough to report dead against Premier Mercier and his colleagues. It was positively painful when Count Mercier had to admit that Pacaud, his man of confidence, had gone wrong, that his Provincial Secretary regretted what he had done, and that he only heard of Attorney-General Robitoux's attempt to discount one of Pacaud's \$20,000 notes when the matter came out before the commission.

NEWS FROM OTTAWA.

Rumored Cabinet Changes.

The Manitoba School Act.

OTTAWA, Oct. 30. Rumors as to the Quebec representation in the Federal Cabinet are still rife. One rumor is to the effect that Oulmont has been offered Chapleau's portfolio, but declines to accept unless Chapleau is satisfactorily provided for. The latter supposition seems probable. Greenway will appeal the Manitoba School Act case to the Privy Council.

CANADIAN EGGS IN ENGLAND

Big Profit on a Shipment.

MONTREAL, Oct. 30. A special cablegram from London says: "The Canadian egg trade is making enormous strides. High prices enabled one shipper to make \$5,000 profit on a single shipment. Importers are generally seeking Canadian eggs. One shipper alone expects to handle fifty-five million before the season ends. If prices are maintained, dealers say that eggs from Ontario, Prince Edward Island and Nova Scotia will gradually replace the inferior classes of foreign eggs in Liverpool and other markets."

SMALLPOX IN QUEBEC

The Disease on the Increase.

MONTREAL, Oct. 30. Smallpox appears to be on the increase in Quebec province in spite of the almost superhuman efforts being made by the health authorities to stamp it out. So far ninety-eight cases have been reported to the Provincial Health Board. Of these eighteen have proved fatal.

Troubled Ireland.

CORK, Oct. 30. While William O'Brien was addressing a meeting of McCarthyites last night, a mob of Parnellite followers headed by William Redmond attacked them and a riot ensued. The police finally restored order.

Steamer Set on Fire.

St. LOUIS, Oct. 30. The steamer Oliver Bierne, of the Mississippi river, was set on fire yesterday by enraged negroes, and was burned to the water's edge. Thirteen persons were burned to death or drowned.

The World's Fair.

CHICAGO, Oct. 30. The Unitarian Conference of Illinois has pronounced in favor of opening the World's Fair on Sundays.

General Telegraphic News.

PITTSBURG, Pa., Oct. 28.—Suit has been entered in the United States Court here against the officers of the Louisiana Lottery Company for unlawfully using the mails.

LONDON, Oct. 28.—A scientific investigation has been made as to the cause of the explosion in the office of the National Press, of Dublin, the McCarthyite paper. Experts are satisfied it was caused by natural gas.

SYDNEY, N. S. W., Oct. 28.—Mr. Dibbs, in an address to the electors, says that owing to the reluctance of English investors to subscribe to colonial loans, the colony must look to her own resources till confidence has been restored. Therefore, moderate duties on imports should be imposed to provide for the immediate wants of the colony.

EVANVILLE, Ind., Oct. 28.—A tray containing \$5,000 worth of gems was stolen from the store of Jeweler Horn on Monday by a young man while the proprietor's attention was taken up with a young woman customer. The latter quickly disappeared and it is believed that she and the young man are two notorious Chicago thieves.

MADRID, Oct. 28.—There have been fresh inundations in Spain, and more damage and distress are anticipated. Heavy rains prevailed since yesterday in the provinces of Aragon and the rivers Galla and Giloa overflowed. The Elbro is still rising. Several houses of Agurou, a village in the province of Saragossa, were destroyed by the floods and the inhabitants sought refuge in the neighboring highlands.

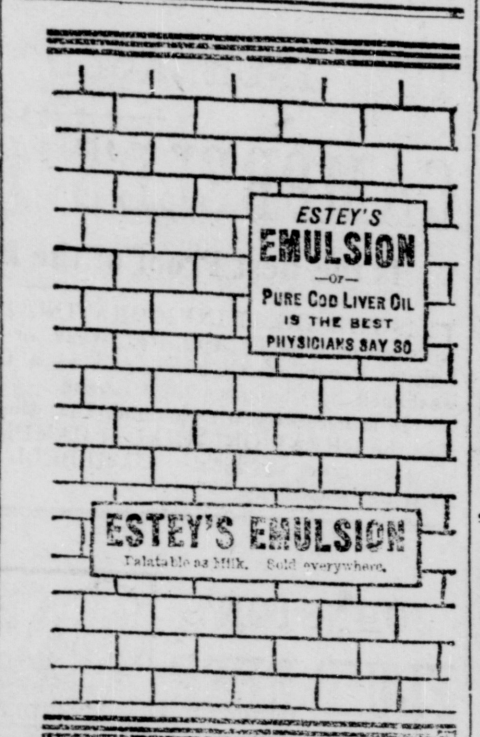

LONDON, Oct. 28.—Truth to-day publishes the details of another notorious outbreak upon the part of the Grenadier Guards. The trouble arose from the quantity and bad quality of rations served to the privates of the third

battalion, whose colonel nominally is the Duke of Cambridge. The men on Oct. 14 complained of the food to the officers of the day, but the latter declared the food was good and ordered the Grenadiers to eat it. Instead, however, they went to the windows of the mess room and threw the unsatisfactory rations into the barrack square. The mutinous privates were put under arrest pending investigation.

Weather Bulletin.

TORONTO, Oct. 30.—10 a. m. Moderate to fresh winds; mostly fair weather; with a little higher temperature. PIRACY.—We wish to caution the public against numerous imitations of Estey's Fragrant Philodermis now on the market. These unscrupulous dealers try to deceive the public by palming off preparations approaching Philodermis in name; but in name only. They have no merit but are simply trying to work on the enviable reputation that Estey's Fragrant Philodermis has attained. dw 1m

SARAH BERNHARDT, while out riding in Mississippi, met several young ladies on horseback returning from a luncheon, and each sustained a rose that was in her hair. At the performance that evening Sarah's corsage bouquet was of roses. It was a very nice compliment to her, and she was in a cheerful disposition after using Campbell's Quinine Wine. oct20tf

THEY'RE LOADED.—The electric wires have been playing strange pranks in Biddeford, Me., lately, charging whole side-walls of buildings, shooting flames from windows, and tearing balls of fire across stores. There has been a lot of jumping. One good result was observed in the activity of loafers who leaned up against an electrified brick block.

PRESENTATION.—Mr. Ewan Stewart, the Principal of the Georgetown School, was presented with a handsome parlor lamp by the old pupils on the eve of his leaving that place to assume the duties of Clerk of the City School Board and Grading Officer. SECRETLY KINDNESS.—What good work will not a ladies sewing circle do next? The one at West Pembroke, Me., recently called to the aid of a worried sister who had a fine crop of potatoes and nobody to dig them. The circle in a body dropped their needles and armed with forks, shovels and hoes adjourned to the potato field and soon had the tubers gathered, barreled and hauled, receiving from the owner the thanks, cents per barrel they had agreed to for the job for.

FOOTBALL.—A Halifax despatch of the 28th says: The Wanderers this afternoon played football with a combined team of the garrison and navy, defeating them by a score of six goals to nothing. This makes an unbroken run of victories for them this season. It is as though they are sure of the city trophy.

The Wanderers have advised the Abegweit that they will not be able to meet them here on Thanksgiving Day or thereafter. They would like to meet the Abegweits at Pictou that time, however.

France and England wouldn't be without each other for the world. Canada is fast feeling the way, too. The great Lesive Phenix, the marvellous washing solution. The common powder and the common ashes, which the housewives had to use, have now gone into the contempt which is their proper portion. Lesive Phenix is a synonym for beauty. Beauty of hands in the wash; beauty of clothes when washed; beauty of the skin when used in the bath. You use it for all kinds of washing; and then you use it for all kinds of cleaning and scouring. A boon to tired, worn woman.
