THUS SPOKE THE KING

"Life is a great adventure, and every one of you can be a pioneer, blazing by thought and service a trail to better things... Canada has before her a development far beyond the most optimistic dreams of her pioneers..."

The royal author of these royal words has walked our ways and gone back to the Seat of Empire. The shouts and bunting are no longer on our streets. But, inwardly, much of inestimable worth remains. We have stood shoulder to shoulder to cheer our King and Queen. It has united us as never before—deep below all differences and difficulties, East, West and North. We are united in a new hope and a new confidence in ourselves and in one another; for we have seen ourselves through royal eyes. And we have realized that it was fears which held us back, fears bred of threats without and of misunderstandings within. These fears had slowed the wheels of commerce and fed upon their own results. Now, mentally, we stand as physically we stood to cheer—shoulder to shoulder. In this new faith and confidence, we shall go forward "blazing by thought and service a trail to better things". Only thus can we fittingly respond to that man and king who visited us upon the greatest adventure of peace in modern history—and won a continent.

Low-cost Housing Plan For Veterans Before Government OTTAWA, July 27—(CP)—A low-cost housing scheme applicable to war veterans was placed before several administrative officers of government departments today by a small delegation of the Memorial Homes Building Society of the Imperial Veterans Association. J. Scott, president of the organization, headed the delegation, which comprised A. K. Nickeil, vice president and Robert Perdock, treasurer. The party saw officials of the War Veterans Allowance Commission, the Dominion Housing Scheme and the British Ministry of Pensions. The veterans asked governmental assistance for the construction of homes, under the aegis of the society, under a 35-year self-liquidating plan. The unit laid before the officials contemplated a six-room house built at an approximate cost of \$2,500. One aspect of the proposed plan was that labor employed should be exclusively war veteran labor and this should be paid, where feasible, by credit to the veteran on the purchase price of a home. All veterans purchasing homes would be required to pay a fixed part of the cost by his own labor. Other features of the project Scott and his colleagues submitted to the officials. They imposed certain obligations on the home-owners one of which denied them the right to sell, mortgage or hypothecate without the consent of the society.
