The student life is long on learning and on doing. That's why we're happy to offer you the value of the student life. It's not just the money you get for going to school. It's the experience of living with people who are learning and growing. The staff here have money to help you with your needs. They're here to help you who are learning and growing. They're here to help you who are learning and growing. They're here to help you who are learning and growing.

The Gem runs and survives on volunteers. Without, all our pages would be like this. If you can write, draw, talk, take pictures, think, or breathe, come join us. Please support your student newspaper. Staff meetings and production is every Tuesday evening at 5:30.
