If the fish won't bite

Here's an idea for those days when you feel like going down to deal with the fish personally. Intrepid souls who, with spear in hand and web on foot, chase fish in southern waters, can now increase their range with aluminum harpoon-guns. Aluminum is used because it is light and does not rust. These are the main reasons why this metal is so popular, and why Alcan is busy with projects which are planned to increase Canada's production to 500,000 tons a year. Aluminum Company of Canada, Ltd. (Alcan).

CEMENT

Possibly the last car this year, due to arrive. Book your orders now. CENTRAL FARMERS CO-OP LTD. (Produce Div.)
