

# As the final month of our first Century draws to a close-----

## We pause and reflect-----

**W**E look back over the years and feel a sense of respect for the Holman Tradition, which is linked so closely to that of our

Prince Edward Island. We reflect on the wisdom and diligence of our founder and his successors, who shepherded the steady growth of the firm through years of depression, as well as, through years of abundance . . . . we pause and pay tribute to these men of faith, wisdom and spirit.

**W**E pause and pay tribute to all of our fellow workers . . . it is only through them that we have been able to help fulfill the needs, desires and comforts of our customers for the past one hundred years. It has given us a sense of joy and satisfaction to have been able to be of service to you.

**W**E are grateful for the friendship, support and confidence vested in us by you, our customers . . . we fully realize that were it not for this wholehearted friendship, support and confidence, Holman's could not have grown from a very small, modest beginning into the Nationally recognized organization that it is today.

**W**E look forward to the future with faith and assurance, with a solemn determination to continue the Holman tradition. We know that only by giving the people of Prince Edward Island honest, loyal and sincere service, will the success of our Second Century be a certainty.
