Local and Other Items.

BUILDING IN AMHERST.—Upwards of $200,000 worth of brick and stone buildings have been completed in Amherst within the past two years.

AT BARBADOES.—Private advices report that the Aspotogan, Capt. Taylor, arrived at Barbadoes from Buenos Ayres on the 24th June—all well.

SEASONABLE.—When everything appears unusually fresh we say the season is forward, and when a person is unusually forward we say he is too fresh.

A WARNING.—In the village of Bempton, East Yorkshire, England, a young woman, whilst in the act of throwing rice at a newly married couple, fell backwards and expired.

DROWNED.—A boat capsized in Port Hood, C. B., on Monday night, precipitating the occupants—Arthur Merritt, Patrick Doyle and Alex. Ledbetter—in the water. The first two were saved, the last drowned.

COLD, cough, coffin is what philosophers term "a logical sequence." One is very liable to follow the other; but by curing the cold with a dose of Ayer's Cherry Pectoral, the cough will be stopped and the coffin not needed.

HE GETS THERE.—Mr. William Dennis, of the Halifax *Herald*, has been elected Alderman for Ward Two, Halifax, defeating Mr. C. H. Smith, who recently lost his seat through being employed as counsel for the city in a lawsuit. The figures were 199 to 115.

THE inestimable value of Ayer's Sarsaparilla as a blood purifier should be known to every wife and mother. It corrects irregularities, gives tone and strength to the vital organs, and cleanses the system of all impurities. The best family medicine.

ODD LUCK.—The family of W. F. Strouse of Shamokin, Penn., have odd luck in birthdays. His wife was born on Christmas, his second daughter on St. Valentine's Day, his third on the Fourth of July, and his only son on Thanksgiving Day.

STRUCK HIS UNCLE.—At Margaree Harbor, C. B., on Monday, Thomas Burns got into an altercation with his uncle, Dennis Burns, in regard to work on the public highway. The young man struck his uncle on the neck with a pick, perforating the windpipe. The uncle is dying. The nephew is in jail.

BAD FOR DRUNKARDS.—They have a new law for diminishing drunkenness in Minnesota, which will be watched with much interest. The first time a man appears drunk on the public streets he is fined from $10 to $40; the second offence costs him from $20 to $50; and on the third occasion he is treated to a term of imprisonment from sixty to ninety days.

THE PRICE OF ROYALTY.—The following we clip from an exchange:—Mrs. Smith—"Yes, my daughter Lucy married a blacksmith, and they have a nice home and are getting along nicely. Mary married a butcher and is very comfortably provided for. Jeanie married a section hand and they are happily situated." Mrs. Jones—"And your daughter Gladys?" Mrs. Smith—"Alas! she married a foreign nobleman. I send her $2 per week and some discarded dresses, and by taking in washing she manages to support the family."

Personal.

Rev. E. A. Harris is visiting Charlottetown.

Rev. James Simpson left by steamer Carroll last evening to take a well-earned holiday trip.

Mr. Gladstone, in a recent speech on Home Rule in Ireland, said: "We are the first to tell other nations their faults, but the last to listen to any one's advice."

Mr. W. H. Haszard is at home again—from Portland, Oregon. He reports the "Island boys" along the line as all well, and doing well. He looks well himself.

Mrs. Langtry, her sister and maid, sailed from New York for England on Saturday. The Lily has sadly changed. She has a troublesame affection of the nose, her health is failing, and her beauty fading.

The Queen of Madagascar is described as a small, slender, light brown women, with a very sad face, a sweet smile and no end of Paris gowns. She is 23 years old, has been four years a Queen and is really worshipped by her people.

There are some Waterloo men alive in England stsll. The most distinguished is the Earl of Albermarle, who was a subaltern at Waterloo, and is now hale and hearty at 90. The Queen sent him a boquet of roses Waterloo day. The Earl is the writer of a very interesting book, full of the recollections of a long and busy career.

DIED.

On the 18th inst., Mary Ann, eldest and dearly beloved daughter of John and Ann Harper, aged 19 years and 9 months.

At Tignish, on July 6th, Joseph Gaudet, aged 30 years. May he rest in peace.

Summerside Exports.

Summerside, July 17.—Shipped per steamer St. Lawrence, Cameron, master, for Point du Chene:

180 cases eggs	$ 734
2 cases lobsters	12
8 horses	725

5 sheep	15
5 brls pork	60
800 lbs hams	80
500 lbs lard	60
5 lbs butter	8
Sundries	20
	$608

Telegraphic Odds and Ends.

QUEBEC, July 17.—The barque Premier, from Santos, in Brazil, has arrived at Saguenay, with sickness aboard, supposed to be yellow fever. The captain is dead, and there are two men down with the disease.

NEW YORK, July 17.—Red Star Line steamship Westernland arrived from Antwerp to-day with a case of smallpox on board. The steamship has been quarantined.

NEW YORK, July 17.—Among the passengers for Europe to-day was Commodore Slavin, president of the American Contracting and Dredging Co., who goes to Paris to arrange the final contract with the Panama Canal Co., for the completion of the canal at a cost of two hundred million dollars.

TORONTO, July 17.—The Salvation Army in Eglington, in spite of several previous warnings, and its own promise, held a knee drill in the road opposite Oulcott's hotel in the suburbs. Reeve Wilson, who was having supper at the hotel, came out and ordered the arrest of the leaders. On one, a man named Whelan from the army training school, the magistrate imposed a fine with the option of ten days in jail, and Whelan chose the latter.

PITTSBURG, Pa., July 17.—Two New York brokers are endeavoring to purchase all the breweries in this city with the intention of consolidating them into a stock company, the stock of which will be placed in the London market. Some of the firms are willing to sell, others demand larger sums than have yet been offered.

OTTAWA, July 17.—Nearly all the Cabinet Ministers are temporarily absent, Hons. Tupper and Bowell being the only ones in the city to-day. Dalton McCarthy has arranged a series of meetings in Manitoba next month in the interest of the fourth party. The capture of the Kolapore cup by the Canadians is the subject of congratulations among militiamen to-night. The Burke extradition evidence has been received here, but action will not be taken until the 26th inst. Until that date habeas corpus may be applied for.

CORNWALL, Ont., July 17.—The Grand Trunk railway double track is to be completed from Montreal to Cornwall in about three weeks. It is expected that the double track will be finished from Brockville to Iroquois and from Wales to Cornwall this season. This will leave a small section between Iroquois and Wales which may not be finished until next year.

MONTREAL, July 17.—Hon. Mr. Laurier spoke here this evening before Club National. The Grit leader seems to think that Orangemen will vote against Sir John, and thus give the power to a purely French party.

LONDON, July 17.—Another murder by Jack the Ripper is reported to-day. It occurred last night in Castle Alley, Whitechapel, and, as before, the murderer escaped.

HALIFAX, July 17.—The $300,000 four per cent. local government loan, to run thirty years, has been taken at from 1¼ to 1½ per cent. premium.

LONDON, July 17.—Gen. Boulanger has been interviewed concerning the indictment found against him in Paris. He declares that the statements made in the indictment are a tissue of falsehoods.

PARIS, July 17.—The *Temps* says cypher telegrams have been discovered which prove General Boulanger was at the head of the plot to march upon Elysees palace. Several officers high in rank have promised him support.

LOWELL, Mass., July 17.—The large stable of the Lowell horse railroad was burned to-night with 120 horses, 30 cars, four carloads of hay, one carload of straw, four hundred bushels of oats, tools and other materials. The loss to the car company is from $100,000 to $125,000, and the insurance about $75,000. The other losses cannot be estimated.

NEWBURG, N. Y., July 17.—A strange malady that appears to be epidemic is prevailing in this city. Everybody here is talking about the disease, and at the present time it is estimated that two thousand Newburg people have the "Harrison grip." One physician has seventy cases, another sixty-eight, one fifty-two, and others are run to death with patients affected. The premonitory symptoms of the disease are lassitude, pains in the side and back, alternating chills and hot flashes, etc. Children principally are affected, although when adults are attacked the illness is much more severe and prolonged, though as yet no cases have proven fatal.

Curious Transmittal of Scarlet Fever.

In 1846, a boy of eight years, the brother of the narrator's wife, was taken down scarlet fever, and died. One of the principal amusements of his illness had been looking over a large picture book. After his death, this, with several other useful play-things, was packed away in a trunk. Twenty-six years later, in 1872, the sister-in-law of the editor took his trunk with her on a journey which she made in England where he was then residing. The trunk was opened the second day after its arrival, and the picture book was taken out and presented to the editor's two-year-old son. During the next fortnight, the little fellow was attacked by scarlet fever. It was a wonder to the doctors who were called in consultation, how the disease had been contracted, as there had been no scarlet fever in the town for years. At last it occurred to the editor that the picture book might have transmitted the disease, and the medical men in attendance, on being told the facts connected with it, agreed that it had retained the poison for twenty-six years, and communicated it to the child.—*Boston Pilot.*

MEN and women prematurely gray, and whose hair was failing, are enthusiastic in praising Hall's Hair Renewer for restoring the color and preventing baldness.

News Notes.

Many very valuable relics of the civilization of ancient Egypt have recently been obtained for the Boston Art Museum.

With Italy getting on a scare lest France shall throw an army across her frontier before the national defence line is ready, and Austria looking askance at Russia's officers surveying on her border, the inhabitant of this western continent should feel especial reason for thankfulness that he lives in a country where, with anything like a fair show, the police could wallop the armies without calling out the spare men.

The charges are in brief as follows: Using lighted candles on the communion table, the mixing of water with the sacramental wine, the making the sign of the cross, the observance of the ceremony of ablution, taking the eastward position, and singing the *Agnus Dei* after the prayer of consecration. The counsel for the Bishop of Lincoln have objected to the reception of the articles, and the Archbishop is to hear the argument on the motion July 23rd.

At Mount Pleasant, Fla., Frances Cooper, a colored women, invited three other negro women, neighbors, to dinner. After dinner the three guests were taken with convulsions, and one expired in great agony. Investigation established the fact of poisoning, and the woman confessed that she had a grudge against these women, arising through some neighborhood quarrel, and had placed vermin poison in a dish of butter beans for the purpose of poisoning them.

The *Japan Gazette* of the 29th ult. contains intelligence which has been received at Hong Kong from Kiaying Chau, a prefecture in the northeast of Kwang Tung, that early on the morning of the 2d the Chau Ping and Ping Yuen districts were flooded by the bursting of a water spout or tornado, described by the Chinese as a water dragon, and the level country was flooded with nearly 36 feet of water. The villages of Chaukon and Ha-Ku-Haui, in the Ping Yueng district, Cueong, Tan, Hop Lai, Sam Chan Kin and Sam-Po-Hui, in the Chan Ping district, were overflowed, many houses being wholly swept away, while others were inundated. Upwards of 6,000 lives were lost.

A sensational preacher named Drew, pastor in a town called Leclaire, Iowa, stated in the course of a recent sermon that a virtuous woman between the age of sixteen and twenty-five years could not be found in the place. At the end of the services the preacher was surrounded by his congregation, who made violent protests. The next day he was called upon by thirty young ladies, and public retraction demanded. Mr. Drew offered to take back his words privately, and apologized to his callers, but they would have none of it. Then a mass meeting was held in the largest hall in the town, where four hundred indignant women and men met. They invited the minister to attend, but a report from Port Byron says that he left this State and went to Illinois, fearing personal injury.

The articles of complaint against the Bishop of Lincoln have the following formidable introduction:—

"In the name of God Amen We Edward White by Divine Providence Lord Bishop of Canterbury Primate of All England and Metropolitan To you the Right Reverend Father in Christ Edward by Divine permission Lord Bishop of Lincoln All and singular the articles heads and interrogatories hereinunder written touching and concerning your soul's health and the lawful correction of your manners and more especially for having when officiating as Bishop and the principal celebrant in the administration of the Holy Communon in the church of St. Peter's at Gowts in the city of Lincoln and in the cathedral church of Lincoln in the month of December 1887 been party to and taken part in the observance of cetain unlawful rites and ceremonies," etc.

Tobacco Chewers Among Women.

A well known physician, while walking down the street with a friend, remarked, a patient of mine lives in that house who is dying—an idolized wife—beyond all help, and tobacco chewing has killed her. Why, Doctor! what do you mean? I mean this: her husband is literally steeped in tobacco juice, and the insensible perspiration from his body has become so saturated with nicotine as to be a deadly poison. His wife, before I was called, had absorbed enough of the poison so that no human power can save her; and even he will, I believe, end his days in torture from some kind of skin disease. The skin is really the most wonderful and important organ of the human body. Night and day, every hour of our lives, it is filtering out from the blood useless or poisonous debris. If it stopped work even for twenty-four hours in this or any case, death would ensue. You can imagine, then, what it means for a delicate, sensitive-skinned woman to sleep in a warm bed night after night with an inveterate tobacco chewer. The skin and mucous membrane of some persons is much more sensitive than others. A person who in summer is subject to hay fever, tanned or burned skin, in winter to colds, bronchitis, chapped hands, or chilblains, ought always (whether at home or travelling) to keep a bottle of Johnson's Anodyne Liniment near at hand. Dilute the liniment with water and gently bathe, or moisten a cloth with it and lay upon the irritated skin if very sensitive; then wash it clean in the morning with Castile soap and water. If a person who takes cold quickly, or is predisposed to bronchitis or catarrh, or exposed to any poison, irritating to the skin or mucus surfaces, which might tend to cause consumption will every night, before retiring, bathe the chest and throat with Johnson's Anodyne Liniment and, before dressing in the morning, rub the whole body smartly with a coarse towel, slightly dampened, and then wiped dry, we believe they never would have pulmonary troubles, or disease from defective working of the skin. I. S. Johnson & Co., Boston, Mass., will send a phamplet, free, describing other uses for this old household remedy, now eighty years old.

New ribbons, new plushes, new grenadine and other new goods just opened at Perkins & Sterns. jy13 3i
