16 Rescued After Crash In Labrador Wilderness

HALIFAX, Sept. 25 — (CP) — Sixteen American airmen who parachuted from their disabled B-50 bomber over Labrador Thursday were evacuated to Goose Bay today.

Spotted by an R.C.A.F. search plane 95 miles southwest of the big northern base yesterday, the men were taken to the shore of a large lake by a United States helicopter. There two Albatross amphibians took them aboard and transferred them to Goose Bay for medical attention.

The most seriously injured among the 12 crew members and four passengers suffered a broken leg when he landed in a river after jumping from the bomber.

Engines Catch Fire

The four-engine plane, on a routine training flight from Goose Bay to Tucson, Ariz., was abandoned after two engines caught fire and another stalled.

rescue squad, jumped to the survivors today and prepared them for the helicopter trip.

R.C.A.F. Search and Rescue Centre here in direct wireless contact with Goose Bay, said the last of the survivors was brought into Goose Bay at 2.30 p.m. A.D.T.

The R.C.A.F. said one of the big plane's engines caught fire shortly after it cleared Goose Bay Thursday night. This blaze was controlled but then flames shot out from another engine and the aircraft turned back towards Goose Bay.

Then, when a third engine failed, the 16 persons aboard bailed out at 1,700 feet to the barren, tricky Labrador muskeg.

Rescued From River

The unidentified man who suffered a broken leg had to be rescued from the river water by another crew member who landed nearby.

Slowly the 16 found each other. Two banded together at a rendezvous spot after an all-night hike. Giant bonfires by others brought all 16 together by Friday morning.

The aircraft crashed about four miles from the rocky bluff where they made camp and awaited rescue.

American officials at Goose Bay said their escape and survival was

Milk Production In Canada Declines

OTTAWA, Sept. 25 — (CP) — Canada's dairy cows haven't been doing so well this year.

The Bureau of Statistics reported today that milk production during the first seven months totalled 9,805,000,000 pounds, a decline of 8,000,000 pounds from the corresponding period last year.

July production was 1,866,000,000 pounds compared with 1,897,000,000 pounds in July, 1949. But the Bureau said that advance estimates for August indicate a small gain over a year earlier, reversing the July reduction.

Of this year's July output, 1,840,000,000 pounds or 63 per cent went into factory production.

The July dairy butter make was 3,609,000 pounds, eight per cent down from last year's corresponding total. All provinces shared in the decline except Nova Scotia and New Brunswick.

Other Alternative Would Be Price Control System

OTTAWA, Sept. 25 — (CP) — Two Western farm leaders today asked the Government to help farmers through the current inflationary-price period by granting general farm price-support or instituting price controls on goods, services, rents, wages and profits.

In conference with Trade Minister Howe and Agriculture Minister Gardiner, the spokesmen for Saskatchewan and Alberta farm groups said that while farmers would hesitate to strike, the representatives would not take responsibility for what transpired "if something is not done."

Prime Minister Early Answer

Mr. Howe and Mr. Gardiner replied, in effect, that while the Government so far had decided not to accept either of the courses proposed, the new requests would be referred to Prime Minister St. Laurent and a reply given within the next 30 days or so, the farm leaders said.

Conflicting Views Mark Opening Stages Of Quebec Conference

By GEORGE KITCHEN

QUEBEC, Sept. 25 — (CP) — Eleven Canadians sat about a big table today and agreed that it is high time Canada became a truly sovereign nation with power to amend her own constitution.

But, while they found solid ground on that fundamental issue, their views conflicted widely on method and other detail.

Those basic facts emerged as the heads of the 11 Governments of Canada, Federal and Provincial, met for the second time this year to seek a way to bring to Canada the power now held in the United Kingdom to amend the Canadian constitution.

From the west, in the quiet tones of Saskatchewan's Premier Tommy Douglas, the conference was told bluntly that Saskatchewan feels the many months of study leading up to this conference have produced "no substantial progress."

And, from the east, Premier Maurice Duplessis of Quebec urged the conference to call upon the British Parliament to issue a formal declaration that Canada has a right to her own constitutional setup.

The 70-odd delegates met in a richly-historic setting, in the old high-ceilinged chamber of the Quebec Legislature, with Prime Minister St. Laurent, as figurative head of the Canadian family, at the head of the conference table.

The conference is the second phase of a series of constitutional meetings which began last January in Ottawa. In the meantime a committee of Federal and Provincial Attorneys-General has delved into the complex divisions of Federal and Provincial jurisdiction in the constitution.

Report Tabled

Their report, tabled today, disclosed substantial areas of disagreement.

Fourth Prisoner Escapes As Jail Probe Ordered

SOREL, Que., Sept. 25 — (CP) — A fourth prisoner escaped from jail here today—shortly after Jail Governor Lucien Bateau was suspended and a full-scale investigation was ordered by the Provincial Government into a series of recent breaks.

Provincial Police officers have been running the jail since last week, when Mr. Bateau was pulled off the job.

Ironically, the Provincials weren't aware of the escape of Gerard Picard until he was captured and returned to them by city police.

Police Chief Albert Tanguay of Sorrel is getting pretty annoyed about the publicity his town is getting from the jail breaks—in which it has been reported that three prisoners broke out twice, committed burglaries in Sorrel and then stole back to their cells. One escapee didn't bother returning the second time and still is at large.

"Once we catch a culprit and he is sentenced, the case is out of our hands," Chief Tanguay told the Canadian Press tonight. "If he escapes from the (Richelieu) County Jail, that's not our fault. We cooperate with other police forces to maintain law and order but we're not responsible for jail breaks."

Jail Governor Bateau, appointed five months ago, said Friday night that he hadn't been suspended and denied that there had been any series of breaks. Tonight he could not be reached for comment on his suspension, announced in Quebec today by a high Provincial Government official. The official added that a full investigation of the reported "night sorties" from the jail is in the hands of Solicitor-General Antoine Rivard.

Attlee Plans Election Early Next Year

LONDON, Sept. 25 — (CP) — Prime Minister Attlee intends to defer a general election until early next year, provided his hand is not forced by a defeat on a confidence issue in Parliament, Government sources said today.

Quarters close to Attlee denied reports that the Prime Minister is being pressed by certain Ministers for an early election. They say that the subject of election dates has not been discussed between Ministers at all.

This statement followed a week-end of newspaper speculation suggesting that Aneurin Bevan, left-wing Cabinet leader, is engaged in a clash with the Cabinet right-wing over election dates and general policy.

The national executive committee of the Labor Party will meet Wednesday. The Prime Minister will attend but there will be no talk of election dates, it is officially stated.

The executive will be entirely occupied in considering final arrangements for the Labor Party conference, which will open at Margate next Monday.

Simultaneously with Attlee's disclosure of his thinking about election dates, Labor left-wingers displayed anger at Conservative newspaper speculation suggesting a Cabinet and Party clash between left and right.

This speculation said the Party conference next week will probably be split by Health Minister Bevan's and the left wing's demands for a more aggressive socialist policy.

Major Defence Position In City Falls To Yanks

TOKYO, Sept. 26 — (Tuesday) — (AP)—Seoul tottered today as U. S. 7th Infantry Division troops captured the city's 700-foot South Mountain late Monday while three other columns of marines converged toward the heart of Korea's centuries-old capital.

A U. S. army spokesman in Tokyo said late reports placed marine units at Duk Soo Palace in the centre of Seoul.

There were no immediate details, and it was not known whether the palace had been captured from the Communist invaders who had held Seoul since June 28.

The army and marines have established contact inside Seoul, the spokesman said. He did not know where, for the marines had stormed in from the southwest, northwest and north, while the infantry entered from the south.

South Mountain, a tree-covered park around which much of Seoul is built, was the major Communist defensive position. Its slopes were studded with mortar and artillery positions and gashed with slit trenches and underground military installations.

Carrier-based U. S. planes cleared a fiery path for the Allied forces, hurling searing jelled gasoline and 500-pound bombs on North Korean tanks, barracks and gun positions.

Planes and artillery helped silence the Red guns in South Mountain park as 7th Division troops assaulted the slopes.

At the same time U. S. Eighth Army troops, racing northward from their rapidly expanding Pusan perimeter, narrowed the gap with the 10th Corps troops in the Seoul area to 40 miles or less.

Victory In Sight

"Victory now is in sight," Lt. Gen. Walton H. Walker, Eighth Army commander, declared in a statement to the press today. "The republicans are now in a position to take the city and the victory would mean a free and untrammelled society for all Koreans with the dignity of the individual fully restored."

Once Walker's men close the

News In Brief

SAIGON, Indo-China, Sept. 25 — (AP)—Gen. Marcel Carpentier, commander of French forces in the Far East, said today American military aid to Indo-China is inadequate to offset the large-scale help which Red China is furnishing to the Communist-led Viet Minh.

NEW YORK, Sept. 25 — (AP) — Foreign Secretary Bevin of Britain today pressed the aim of American proposals for strengthening the United Nations against aggression. He also told the Russians that Britons are ready to fight to the end for their liberties.

LONDON, Sept. 25 — (CP) — Commonwealth leaders today tackled a six-year development program designed to throttle Communism in Southeast Asia by improving conditions there. Hugh Gaitskell, Minister of State for Economic Affairs, welcomed the delegations from Canada, Australia, Ceylon, New Zealand, India and Pakistan for the week-long talks.

NEW YORK, Sept. 25 — (AP) — The Atlantic Pact Council will announce tomorrow a decision to set up a combined force for the defence of Western Europe, persons in close touch with the Council reported tonight. But the 12 countries have delayed a decision on whether to bring German armed units into the force, the sources said.

WINNIPEG, Sept. 25 — (CP) — The Red-dominated United Electrical Workers' Union was fired out of the Canadian Congress of Labor today in the first explosion over Communism at the C.C.L.'s annual convention.

Expulsion of the 25,000-member union came after an executive spokesman had bitterly described its officers as "crawling on their bellies to Joe Stalin."

Fat Conroy, national secretary-treasurer of the C.C.L., doing a clean-up job for the executive after the U. E. W. had appealed a suspension slapped on it by the executive 10 months ago, charged that "every U. E. W. officer is a complete vassal and slave of the Communist Party in Canada and the United States."

Fortune Bay Man Killed In Crossing Accident Last Night

Mr. Allan Robertson, a fisherman from Fortune Bay, was killed last night on the Lower Cardigan Road when an automobile in which he was a passenger was in collision with a train on a level crossing. The driver of the car, Mr. Chester Burke, also of Fortune Bay, his wife and Mrs. Robertson all escaped without serious injuries. Mr. and Mrs. Burke were taken to the Montague Hospital, but Mr. Burke was released shortly after and returned to his home. Mrs. Burke remained in hospital overnight, but it was understood her injuries were not critical.

The Burke car, a 1938 Ford, was reported to have struck the regular passenger train on the crossing about 5.15 p.m. The train was backing towards Montague, several miles away.

Coroner Dr. C. S. A. Inman of Montague ordered an inquest. A jury was impanelled and the hearing adjourned until Thursday night at Cardigan. Members of the jury include: John A. MacDonald, foreman, Joseph McLellan, Norman MacKenzie, Daniel Acorn, Francis S. Sheppard, Leo A. Griffin and Walter Conohan.

The car was proceeding from Georgetown towards Cardigan, it was reported. The car was hurled sideways and Mr. Robertson was thrown to the roadway. He died instantly.

Mr. Robertson, about 50 years old, is survived by his widow, the former Helena Aitken of Rollo Bay, and by several children.

Select Site For Nfld. National Park

ST. JOHN'S, Nfld., Sept. 25 — (CP) — Newfoundland's national park will be located in the Newfound Sound area of Bonaville Bay, it was learned today. Title to the area will be handed over to the Federal authorities as soon as the purchase of some private agricultural grants in the area has been completed. Resources Minister Russell said that the Newfoundland Government will "encourage" private enterprise in developing tourist possibilities.

Rain Helps Check Forest Fires In B. C. And Alberta

EDMONTON, Sept. 25 — (CP) — Rain fell in parts of Northern British Columbia and Alberta today checking the progress of 100-odd forest fires and slightly clearing the air of a choking pall of blue smoke.

Half an inch fell at Grande Prairie on the southern fringe of the fire belt and small amounts were recorded elsewhere. Weather officials said an appreciable rain in the region is unlikely Tuesday.

An Air Force officer who counted 60 fires in Northern British Columbia in flight to Edmonton said it would take three days' rain to douse the flames, raging uncontrolled through rugged country where fire-fighting is impossible. Weather officials said the rain-storm is already moving out of the area.

The Air Force officer, Ptl. Lt. Jack Jaworski, operations officer at North West Air Command, Edmonton, is a former bush pilot who took a major role in battling fires

More Than \$100,000 Stolen By Phone Girls

MIAMI, Fla., Sept. 25 — (AP) — The Southern Bell Telephone Company here has lost at least \$100,000 in two years to young women employees who took rolls of coins out of the counting room in their brassieres, police reported today.

Six young women, their families, husbands and boy friends—15 persons in all—are under arrest. Police recovered nearly \$100,000, much of it in silver. They found two suitcases full of quarters and another filled with currency, totalling \$5,000 in all, in an automobile driven by one of the women.

Two pretty girls admitted they took as much as \$150 a day each. Another said she took \$75 to \$90 a day, while others admitted taking lesser amounts.

All the thefts were from the counting room where a torrent of silver came each day from pay station telephones. The girls admitted stuffing rolls of quarters in their brassieres instead of putting the money on automatic counting machines.

How much the loss would amount to over a period of years

22 Missing After Crash Of Troop Transport

TOKYO, Sept. 26 — (Tuesday) — (AP) — A C-54 troop transport with 51 persons aboard today plunged into the sea on take-off from a southern Japan airbase.

One body was recovered and 22 persons were missing.

Twenty-eight persons were rescued. Some were hurt critically.

Gen. MacArthur's headquarters announced the plane crashed about half a mile from the end of the air base runway.

The plane carried 43 passengers and a crew of eight. Included in the crew were two nurses and two medical technicians.

Twenty-five passengers and three crew members, including one nurse, were among the survivors.

The survivors got into life rafts and were picked up by Japanese fishing boats. Survivors were taken to hospital.

Cause of the accident will be investigated by a board of United States Air Force officers.

Report Shortage Of Potato Pickers

WOODSTOCK, N. B., Sept. 25 — (CP) — A shortage of potato pickers became evident today as harvesting entered full swing in Carleton County. Farmers throughout the local office of the Unemployment Insurance Commission and then walked the streets in search of helpers, but the supply proved far short of the demand.

About 300 additional men were reported urgently needed, with the situation subject to quick change. The shortage was believed due largely to improved employment conditions throughout the Province.
