Issued every Friday morning. It is made up of matter which has appeared in the Daily Examiner as a first class newspaper containing all the latest news. Subscription \$1.00 a year

# THE DAILY EXAMINER

OCTOBER 14, 1897.

## THE TATTLER.

Dr. Mary Walker is writing her autobiography.

The wife of Senator Stewart will chaperon a party to the Alaska goldfields next spring.

Miss Alice Huntington Spauldings, only 20 years old, has been elected to a chair in Alleghany college.

Mrs. Mildred A. Charlesworth and Miss Julia H. O'Brien have been appointed by the secretary of agriculture as assistant microscopists in the bureau of animal industry in Chicago.

One old lady in England boasts of having looked on King George III's jubilee show as well as the two of Queen Victoria. She is Mrs. Blunt, mother of the bishop of Hull, now 95 years of age.

Miss Juanita Florence O'Hara has been elected secretary of the Citizens' Law and Order League of Massachusetts. She has a thorough knowledge of the liquor law and in many different cases acts as her own attorney.

Mrs. Meredith Brown of Dunedin, New Zealand, is president of the New Zealand Rational Dress Society of that city. However slow this remote country may be in other matters, the women are not behind in matters of dress.

Miss Jane Addams of Hull House has been recently appointed post-mistress of station No. 10 in Chicago. She did not ask for the place. She gets \$200 per month salary and the public seems much pleased with her management.

The Countess of Aberdeen, president of the International Council of Women and of the National Council of Canadian Women, is now in England, and is endeavoring to organize a National Council of Women for Great Britain and Ireland.

When Mrs. Potter Palmer was at Spa, Belgium, some little time ago, she was the guest of the queen of the Belgians at her villa for several days. She was handsomely entertained, the queen giving a dance followed by a musicale in her honor.

Mrs. Caroline Westcott Rowney of Chicago has started for the Klondike equipped with a complete outfit for publishing a newspaper. She expects to reach there before winter and be ready to chronicle the news when the spring gold diggers enter.

Teresina Tui, the violinist, now the Countess Franchi-Verney, has been nominated an officer of the French academy, having been proposed by M. Hanotaux, minister of foreign affairs. The artist formerly studied at the conservatory of Paris.

Mrs. A. Imogene Paul of Chicago, who was for three years the sanitary inspector of the Civic federation, recently took an examination, and out of the 231 eligibles for the position of ward and street inspectors she got the best marking, standing 98.06, nearly perfect.

## THE BATH.

Bathing after a nap is injurious. A rough bathing towel is better for any kind of a bath than a smooth one.

For protecting the hair during a shower bath or in a large plunge a cap of water-proof silk is light and comfortable.

The rule is hot water for the tub bath, cold water for the shower bath and water of normal temperature for the plunge.

It is hardly necessary to remind the bather that weakened digestion is the result of bathing within an hour of a full meal.

If the temperature of the bath water is either above or below normal, the face and edges of the hair should be thoroughly moistened with the water before the plunge is made.

One should never stay in a tub bath more than ten minutes or in a shower bath over two. In a plunge bath one may safely stay 20 minutes, as the exercise prevents bad effects.

A return from a dusty trip or a ride in the wind should be followed by a hot rather than a cold bath. The escaping steam induces perspiration, and the hot water washes out the fine dust.

If one is contemplating the necessity of exposure to sun or wind, a cold water bath is better than a warm one, as it toughens the skin and makes it firmer in its resistance to unfavorable conditions.—Exchange.

### AYER'S PILLS

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and testify that I have derived great benefit from their use. For over two years past I have taken one of these pills every night."—G. W. BOWMAN, 25 East Main St., Carlisle, Pa.

**CURE**  
**CONSTIPATION.**

## THRONE LIGHTS.

There have been 27 cases of insanity in the Bavarian royal family during the last 100 years.

Queen Victoria has received an autograph letter from the young king of Spain, thanking her majesty for conferring upon him the Royal Victorian order.

The only unmarried daughter of the Prince of Wales is not allowed to ride a bicycle. She has a tricycle, and even that she never uses without an attendant.

The Princess Louise is engaged in sculpturing the figure of an angel with outstretched wings, which is to be placed over the altar in the Prince Henry of Battenberg Memorial chapel at St. Mildred's.

Emperor William of Germany has decided, it is reported, that in future at all his meetings with the czar he will wear his new uniform of a Russian admiral. This uniform is not blue, like those of the other European navies, but black.

King Alfonso of Spain is not the only boy monarch in the world. There is another youthful king, the maharajah of Nepal, who is now just over 20 years old. His province covers over 54,000 square miles, with a population of some 2,000,000 Indians, known chiefly as Goorkhas.

## WOMAN'S BEAUTY.

"How long are women beautiful?" asks the New York World. Generally between five and six feet in Boston.—Boston Globe.

A New York journal asks, "How long are women beautiful?" "Why, from head to foot, I suppose."—Cleveland Plain Dealer.

The World is puzzling its head over the question, "How long are women beautiful?" That's easy. A woman is beautiful as long as somebody loves her.—Albany Argus.

It is rather a bootless discussion started by the New York World as to when woman's beauty reaches its height. It all depends on the woman. Some are most beautiful at 18 and some at 68.—Boston Transcript.

## WOMEN'S WAYS.

They are bringing out women jockeys down in Maine. There seems to be no good reason why women shouldn't be entrusted with the duty of holding the ribbons.—Boston Herald.

The ideally beautiful woman is born in Tennessee. She absorbs loveliness from nature which surrounds her, and from the time she becomes a woman sets the hearts of man kind to palpitating.—Nashville American.

Fair haired people are becoming less numerous than formerly. The ancient Hebrews were a fair haired race; now they are, with few exceptions, dark. So it is in a lesser degree with the Irish, among whom 150 years ago a dark haired person was almost unknown.

The most valuable sword in England is the one presented by the Egyptians to Lord Wolsey. The hilt is set with brilliants, and it is valued at \$10,000.

LAUNCHING THE LIFE-BOAT.

There are greater dangers than those of the angry sea. That dread disease—consumption, kills more men and women in a generation than the sea has swallowed up since the earliest history of navigation.

There is a sure and safe life-boat ever ready to be launched for men and women who suffer from this merciless destroyer. It is Dr. Pierce's Golden Medical Discovery. It cures 98 per cent. of all cases of consumption, bronchitis, asthma, laryngitis, weak lungs, spitting of blood and throat and nasal troubles. It acts directly on the lungs, driving out all impurities and disease germs. It soothes and heals the mucous membranes of the lungs, bronchial tubes, throat and nasal cavities. It restores the lost appetite, makes digestion and assimilation perfect, invigorates the liver, and purifies and enriches the blood. It fills the blood with the life-giving elements of the food that build new and healthy tissues. It tears down, carries off and excretes the diseased and half dead tissues upon which the germs of consumption thrive. It checks the cough and facilitates expectoration until the lungs are thoroughly cleared. It is the great blood-maker and flesh-builder. Unlike cod liver oil, it does not build flabby flesh, but the firm, muscular tissues of health. It does not make corpulent people more corpulent. Thousands have testified to their cure under this great medicine after they were given up by the doctors, and all hope was gone. An honest dealer will not suggest some inferior substitute for the sake of a little extra selfish profit.

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. All medicine dealers sell them. No other pills are "just as good."

## Big Difference.

"What!" said the judge. "You expect me to send your husband to prison when you acknowledge that you threw five flatirons at him and he only threw one at you?"

"Yes; that's all right judge," said the irate Irish woman, "but then the one he threw hit me."—Harper's Bazar.

Singers, actors and public speakers since the introduction of the electric light have less trouble with their voices and are less likely to catch cold, their throats are not so parched and they feel better. This is due to the air being less vitiated and the temperature more even.

A crocodile takes 80 seconds to turn completely round.

## TOWN TOPICS.

Chicago is greatly excited over the discovery of water frauds. Some villain must be pumping pure water into the city mains.—Omaha World-Herald.

The New Yorkers have heard of Mobile's success in dealing with street noises, and are now hopeful, although they admit they haven't got the hang of the thing yet.—Mobile Register.

Chicago boasts of the only mayor in the country who leads bicycle parades, but New York is ahead. New York has a mayor who drinks tea and chews tobacco at the same time.—Kansas City Journal.

## THE WAITER.

How much will the average hotel waiter measure from tip to tip?—Boston Transcript.

The waiter should be a dangerous man in a poker game. He usually holds a tray full in his hand.—Exchange.

Customer (in restaurant)—I've forgotten what I wanted to order, and I had it right on the tip of my tongue. Waiter—What did you say about a tip, sir?—Philadelphia Record.

## SICK HEADACHE

Positively cured by these Little Pills.

## Be a Strong and Healthy Woman.

### Paine's Celery Compound Can Renew Your Life.

Every woman in Canada now suffering from nervousness, sleeplessness and general debility can quickly enjoy the full blessings of life. Medical science has given to women the most efficacious medicine that has ever been devised. It is known as Paine's Celery Compound, the prescription of Professor Edward Phelps, one of the ablest physicians that ever lived, and is peculiarly adapted to woman's system. It makes them well and keeps them strong.

Mrs. E. Hurd, Summerville, N. S., says: "I cannot speak too highly of your wonderful curing medicine, Paine's Celery Compound, from which I have derived such direct benefit after suffering from nervous prostration, sleeplessness and general debility. I first used one bottle and was greatly improved; I afterward used two bottles more, and found myself quite well. I wish to recommend Paine's Celery Compound to others, and trust that it will be found in every home where sickness prevails, so that health may be restored."
