

Marian Hall is much the same as Bernardine. It has 26 semi-private rooms and 7 private rooms. The kitchen, T.V. lounge, study room and laundry facilities are all located on the main floor; each floor has a lounge and study room. Dining facilities for both Marian and Bernardine Hall are located in the Main Dining Hall, less than 5 minutes walking distance from either residence.

Fun and games in the Marian Hall Lounge

Blanchard Hall offers apt.-style living in a 3 storey building holding 68 apartments. The building is capable of holding 272 students. The apartments have 6

rooms -- a living room, a dinette, a kitchen, 2 bedrooms, a 4 piece bathroom and a large walk-in storage closet. Laundry facilities, a reception lobby, phones, T.V. lounge, and a sports room are located on the ground floor. A Meal Plan is available from the Main Dining Hall if you do not wish to prepare your own meals. This residence accommodates both males and females in separate rooms with four people in each apartment

## EDITORIAL

Most university students sometimes wonder whether they should really still be in school. On such occasions they usually all have one thing in common, namely a concern for their own enjoyment and advancement.

I mention enjoyment and advancement because those two words should induce people to join the staff of the UPEI SUN. Make no mistake about it. Journalism, especially on a college newspaper, is fun. The SUN can provide the excitement of team accomplishments, the joys of written expression, and the satisfaction of having others read your work. And oh yes, let's not forget the pride of seeing one's name in print.

Students should also know that joining the SUN can trigger a future career. For those hoping to become professional photographers or journalists, the SUN is an opportunity they just can't afford to miss. No matter what your planned vocation, however, your university newspaper can help. Almost any employer is impressed by a job applicant who has had articles published, who has had photographs printed, or who has been otherwise involved in newspaper work. In the continually competitive job market the person who has worked for something like the UPEI SUN will have an advantage.

What's that you say? You think that working on the student newspaper will take too much time. Let me put your mind at ease. Being a part of the SUN staff is not necessarily terribly demanding. One can be free to contribute to as many or as few issues as he or she pleases. You can give the SUN either a great effort or a little one, whichever suits you.

Remember that you need no previous knowledge or experience. Those of us who have worked here before will show you exactly what to do. We'd appreciate having you on our team, and we think you'd enjoy being a part of the SUN.

John Cairns  
SUN Editor

## Before I Came

## To University

## I Wish I'd

## Known .....

- that it didn't matter how late I scheduled my first class, I'd still sleep through it.
- that I would change so much and barely realize it.
- that you can have a lot of different people in a lot of different ways.
- that university kids throw paper airplanes too.
- that if you wear a skirt everyone asks you why your so dressed up.
- that every clock on campus shows a different time.
- that you were smarter in school, so what.
- that I'd go to a party the night before a final.
- that Chem labs require more time than all my other 18 credits combined.
- that change is a very positive experience and shouldn't be avoided.
- that you know everything and fail a test.
- that I could get used to almost anything, I found out about my roommate
- that home would be a great place to visit.
- that most of my education would be obtained outside my classes.
- that friendship is more than just getting stoned together.
- that what I was getting into...
- that I would become one of those people my parents warned me about.
- that free food served at 10:00 is gone at 9:59.
- That Sunday is a figment of the world's imagination.
- that Psychology is really Biology, that Biology is really Chemistry, that Chemistry is really Physics, that Physics is really Math that Math is really...
- that it is a good idea to go places alone and not to always rely on a group for support
- that friendships are what makes this place worthwhile.
