PURCHASERS.

IT is four years since we began shipping Machines to your Island, and from our large increase of sales each season are assured that our efforts to furnish you with the best Mower and Reaper in the world, have been appreciated, and with this encouragement we have endeavored to study more particularly your requirements, and each year build our Machines more especially adapted to your country.

We have this year attached a Self-acting Reaper and Mower, which we offer you as the most perfect combined Mower and Reaper manufactured in America, or in any other country. This Machine differs in many respects from all others, and is particularly adapted for cutting lodged grain. By a very simple device the points of the guard-fingers can be dropped at the point of the driver, picking up and cutting the grain, which is not done by any other Machine in this or any other market.

Other Machines will probably be offered you at perhaps, lower prices, but be assured there are none which can compare with us in quality of work or quality of material used in construction. We feel confident that our Combined Machine will prove as satisfactory as the Mower and Reaper, and have no hesitation in warranting it to be superior to any Machine in this or any other market.
