Mr. McNeill now wears eight medals for his successes at different athletic events and values Col. Irving's silver brooch very much. He is a native of this Island and has competed at the club sports in previous years. ISLAND GOODS IN NEW GLASGOW.—The Eastern Chronicle of New Glasgow says: "The last shipment of wool made by G. A. Dixon & Co., was we believe the largest from here for some years, the value being \$900. This speaks well for the Charlottetown woolen mills manufacture of tweeds, as this one shipment represents that amount in cloth sold. THE PICNIC OF THE BOYS BRANCH OF THE LEAGUE OF THE CROSS will be held at Red Point Wharf on Monday the 18th inst. The steamer Southport will leave Ferry Wharf at 9 o'clock a. m. and at 2.30 p. m. Return tickets 25 cts. each. A refreshment saloon and all amusements usual on such occasions will be furnished. A pleasant time may be expected. A TRAMP.—Citizens who reside in the western end of our town have been caused some uneasiness for several nights by the depredations of some man who has been christened a tramp. Several houses have been entered and thefts made. Owners of houses are loading their guns and it is probable that the tramp will be shown the path of glory that leads to the grave—that is, if he does not stop his escapades. THE STRIKE OF THE MINERS WILL COST THE MEN AND THE COMPANY \$150,000. A special despatch to the Halifax Herald from Spring Hill, N. S., dated August 13, says: "The strike has assumed a crisis, and is now within measurable distance of its termination. Hitherto only the coal cutters and coal handlers have been on strike; but the pumpmen, firemen and engineers have kept at work, and so have kept the mine free of water and the property in safe condition. But now the strikers have called out these men, and they ceased work to-night. The calling out of the pumpmen and engineers is said to be unprecedented in the history of strikes. It means the destruction of the mine. The stoppage of the pumps would soon cause the mine to be flooded; and to flood the mine is to destroy it. Once flooded, it would take three years to pump it out again, and then the underground working would be destroyed. The strike has already proved most disastrous. Previously \$10,000 a week were paid out in wages. The strike has lasted nine weeks. That means \$90,000. That is the sum lost. Besides that, the men have either spent the money they saved or have been compelled to run head over ears in debt to sustain themselves and families during the strike. The withdrawal of so much money from circulation naturally hurts business, and many merchants have been compelled to ask for an extension. The loss to the company has also been very great. They have lost the sale of 100,000 tons of coal which would have been mined during the two months of the strike; they have lost some large contracts that would have kept the mine running full time for some months to come; and half of the employees, including the majority of the best men, have left Springhill and gone to other mining centres. The strike has been disastrous to all parties. NEWS NOTES. China's tea crop is heavy this year and of prime quality. The French Government is taking steps to abolish duelling in the army. At Jeddah on Sunday there were 126 deaths from cholera and at Mecca there were 108. The present population of Vermont is 332,000. The census returns in 1880 gave the population as 332,286. The state seems to be almost exactly where it was in 1880. A telegram received by G. H. Toombs states that H. U. Hartshorn, of Boston, will arrive in Charlottetown to-morrow evening, and will buy raspberries for the next few weeks, commencing on Monday, 18th inst. All shipments made to him will be attended to, and highest prices will be paid. For particulars enquire of George H. Toombs, Queen St. See advertisement this issue. K. D. C. for the Stomach. K. D. C. LETTERS TO THE EDITOR.

A Grievous Error.

SIR.—In looking through the premium list for the first Annual Exhibition on the Driving Park and Exhibition Grounds at Charlottetown, I see the Percheron horse, the Clydesdale horse and the shire horse shown all together like sheep, to compete for one little prize. Now, Mr. Editor, it is quite out of place to treat those horses with so much contempt. The Percheron horse, is the backbone of his country; the Clydesdale horse is the backbone of his country; the Shire horse the backbone of his country. It has cost thousands of pounds to bring them to their present perfection, and a lot of good talent with the money. Besides all this, it has cost the men of our Island thousands of dollars to bring them to the Island. Now, Mr. Editor, I fail to see where these men have merited so much contempt as is displayed on their horses. Certainly an act of great unkindness is shown them. I think, Mr. Editor, that these horses should all alike have classes, unless indeed, any honorable gentleman wishes to give a special prize to one particular class of horses. I think if all shared alike the man of enterprise is at a loss, after all, with all due respect to our commissioners. I think, Mr. Editor, that the clique that has ruled our exhibitions for the last ten or fifteen years should now be broken up. We don't expect one man to rule our exhibitions after this. Queen's County will not stand it. We must have fair play. There has been money enough spent on the ground to give every man fair play, and that is all that is expected, and fair play will be required to make the exhibition a success. CITIZEN.
