GOVERNMENT PURCHASE OF ANOTHER PROPRIETOR'S ESTATE.—The Government, we understand, have completed the purchase of the Rev. George Townshend's property on Lot 43,—about 3,000 acres—at 6s. an acre. If the estate has been purchased at this moderate rate, we hope it will be found that, without any risk of loss, it can be resold to the tenants at but a trifling advance. In an early number we shall probaby offer a few remarks touching the present aspect of the Land Question at large.

MORE CABLES.—It appears that the British Government will soon lay down a telegraphic cable between Jamaica and Cuba, which is now connected with this continent and with Europe through the Atlantic Cable. The British Colonial Office will then be in immediate communication with this important dependency. By thus being able at slight expense to transmit despatches and orders, and to take cognizance of the military, civil and commercial relations of the island, the Government will in a few months save the expense of the cable, while at the same time, in any emergency, it will be far better, to act as the circumstances may demand. Independently of this the cable will be of great service to these Provinces, by bringing the markets of the important colony of Jamaica into direct communication with us.

The Ottawa *Times* say:—"The Hon. Mr. McGee resumed his seat in the House last night, and on entering was received with a hearty burst of applause from all parts of the House. A little before midnight he spoke briefly on the Intercolonial Railway Bill, and took occasion to refer incidently to the leading questions which had been submitted by the Government for consideration, in terms of the warmest approval of the general policy which has thus far been sketched. Mr. McGee spoke, we think, with rather more vigor than he did on the Address, and appeared to be in a much better state of health than when he was last in Parliament. Sir John A. MacDonald paid an eloquent tribute to the hon. gentleman for the great service he had rendered the country, and expressed the congratulations of the Government and House at his being again able to take his seat in Parliament."

FENIANISM.—Mr. McGee, in a speech in the House of Commons, referring to the bill which is intended to prevent persons going armed with deadly weapons, spoke fearfully as to the likelihood of there being Fenian demonstrations made during the year in or against Canada. He said he "believed that our people, as a whole, irrespective of origin or creed, are loyal and sincerely attached to the institutions under which they live. At the same time he believed this to be a very critical period, and he should be sorry to see the country lulled into a false security. In his humble opinion the next six months would be the most critical six months through which Canada had ever passed. He based this opinion partly on the fact that the next year was the Presidental year, when influences would naturally be at work dangerous to the peace especially of our border districts."

The short winter session of the English Parliament gave to students of Parliamentary history an event without a parallel in the annals of the British senate, viz, the father leading the House of Lords, and, through Mr. Disraeli's absence, the son at the same time leading the House of Commons. This was a happiness denied to Elizabeth's great minister, Lord Burleigh, although his son Robert, on the death of his father, succeeded him in what would now be called the premiership; and it was denied to Lord Chatham, although his son, the younger Pitt, became Chancellor of the Exchequer at twenty-three. Lord Stanley acquitted himself excellently well, though the satirical illustration of his defence of the government policy with regard to Abyssinia is not without justice.

The Ottawa correspondent of the N. Y. *World*, who is not disposed to flatter Canadians, or to pourtray our future in too glowing colors, says, that if our "present prosperity is continued, there will not be much likelihood of annexation ideas being entertained." He is quite right; people who refused all political alliance with the United States when Canada was poverty stricken and over-burthened, and the States were prosperous, are certainly not very likely to change the political faith now.

The Quebec correspondent of the Montreal *Daily News* writes as follows:—Col. Graham, who figured at Halifax and Prince Edward Island as a consummate swindler, is not forgotten here. He brought an introduction to Sir N. F. Belleau, and he brought also his empty purse. He narrated his disappointments and his necessities. His excellency could not remain deaf to his requests when he remembered that a brother Governor had introduced him. He therefore ordered his Aide-de-Camp, Mr. Taschereau, to conduct him and make him known to a Banker. When the Colonel had shown his draft for $1,000, an objection was raised to cashing it unless endorsed, and Mr. Taschereau, taking it for granted that Sir Narcisse would not send him on such a mission to assist a swindler, endorsed the draft, and has had the pleasure of paying it. Such is the rumor that circulates here, but those who know the Lieutenant Governor reject the idea of his saddling an unfortunate Aide-de-Camp with a loss literally forced on him. Col. Graham evidently intended to confine his compliments to Lieutenant Governors, and would be shocked if he was told that he had been the means doubly victimizing a very gentlemanly youngster; *the better plan would be to charge the bad bill to the Civil Service account.*

The twenty-second volume of the "Correspondence of Napoleon I." has just appeared, and is said to be of great interest to the lovers and students of history. It contains more than seven hundred documents of all kinds, covering the last nine months of the year 1811, a brief interval of peace which was soon followed by the carnage attendant thereon.

DEATH OF COLLECTOR SMITH.—The somewhat sudden death of Collector Smith is announced to-day. Mr Smith was, we believe, born in Prince Edward Island, of which Colony his father was Lieut. Governor. He was Collector of Revenue at this port when the Revenue was in the hands of the Imperial authorities. When the control of the Revenue passed into the hands of the Provincial authorities, Mr. Smith, with other Imperial officials, was pensioned. He has continued to reside here ever since, and probably none of our citizens was better known, or more generally liked. His kindly, cheery face will be long missed from Prince William Street and the News Room, as well as from the family circle.—*St. John Globe.*

It is rumored that the Legislature of this Island is to be convened for the transaction of buisness on the 4th of March.

A Halifax exchange says the fishermen of that place are in a deplorable condition. A committee, composed of his Worship the Mayor, the members of the Legislature, and a number of gentlemen, has been formed, for the purpose of relieving the distress among them.

TEMPERANCE HALL COMPANY.

The annual general meeting of the Temperance Hall Company was held on Monday, the 6th inst, per statute. The Hon. Charles Young, LL. D, President, in the chair. The Secretary and Treasurer submitted the Report and accounts for the past year, showing a balance in favor of the Company of £85 11s. 10½. The accounts were audited by the public auditor, (Thos. Des Brisay, Esq.) and on motion, were unanimously adopted. After some further routine business, the shareholders proceeded to elect by ballot the directors and secretary for the ensuing year which resulted as follows:

Hon. Dr. Young, re elected
Mr J. W. Morrison, "
" W. C. Trowan, "
" J. B. Cooper, "

" G. W. Milner, "

J. W. Morrison, Esq., was elected by ballot the Secretary. The meeting then adjourned. At a meeting of the Directors held immediately thereafter, the Hon. Dr. Young, was re-elected President, and J. W. Morrison, Esq, Treasurer.—*Pat.*

ST. DUNSTAN'S TEMPERANCE SOCIETY.—Mr. Edward Roche delivered an excellent lecture before this Society on Monday night last. The audience, though small, were appreciative, and passed a deserved vote of thanks to the lecturer. The lectures and debates before the society are of a miscellaneous character, and calculated to draw good houses. The debate for next Monday night will be: 'Could the Maine Liquor Law be successfully applied to this Island?'

EXPORTS FROM CASCUMPEC.—Through the kindness of the Collector of Customs for the Port of Cascumpec, John M. Clark, Esq., we have been furnished with the following list of shipments from thence. This though, does not by any means, show the whole of the exports from that port, as large quanties have been shipped to Charlettetown, Summerside, and we are told, to Port Hill:—

Exported from the Port of Cascumpec from the 9th day of May, to the 1st day of December, 1867: 19,893½ bushels Oats; 11,653½ do. Potatoes; 1060 do. Barley; 680 do. A terrible case of destitution has been made public in New York. An English lady, the widow of Mr. Boone, an actor of considerable ability, being reduced to the lowest depths of poverty and misery, poisoned herself and three children last week. It appears that the unfortunate lady lived in some poorly furnished apartment at 29 Amity street, and here she and her three children were found, apparently in the agonies of death. They were conveyed to the hospital, and though still alive, their recovery is doubtful. On being asked what had led her to commit such a dreadful crime, Mrs. Boone replied that she had been entirely deserted by her friends and was entirely destitute, and not being able to support herself and family, preferred that they should all terminate their existance by poison rather than starve, which seemed the only alternative.

In the city market, the supply of turkeys, geese and fowls is falling off, and the price of beef is, in consequence, advancing. Island flour is plentiful, but oatmeal is scarce and in good demand. The quantity of hay brought in equals the consumption. A good article brings from 3s. 6d., to 4s., per cwt. Wood is limited and dear. Pork was a shade higher this week. In the grain trade there is not much business doing yet. Oats were selling for 2s. 8d., yesterday.—*Pat.*

The Hon. James C. Pope left here on Thursday *en route* for England. We wish him a safe and pleasant trip. Mr. Pope is certainly one of our most enterprising buisness men. He has recently purchased the premises known as Pethick's Brewery, and intends to add this acquisition to his extensive mercantile shipping speculations.—*Ib*

Souris Harbor is still open, but the ice outside renders it useless for the purposes of navigation.—*Ib.*

ERUPTION OF COAL.—The Leeds (England) *Mercury's* Hartlepool correspondent states an extraordinary eruption of coal has taken place on the beach between West Hartlepool and Seaton Carew. Those sands, which are the resort of visitors during the bathing season, were on the 27th ult metamorphosed to a great extent into a coal-field. It will be remembred that last winter, immediately following a north-east gale, the poor of Hartlepool assembled on these sands on the occasion of the sea disclosing an immense amount of treasure trove which had been buried for forty years. At that time the "scene" was something extraordinary, and many a hungry family was nourished during the severe winter by the lucky discovery of hundreds of Spanish dollars. The scene on Wednesday was far more interesting and the upheaving of such an amount of one of the most important necessaries of life by the angry ocean will be productive of much more beneifit and comfort to the poor of the neighbourhood. It is computed that not less than 1 000 tons of coal have been cast upon these sands. From an early hour in the morning the beach has presented a most animated appearance. Nearly every cart in the town has been called into requisition to carry away the treasure, and on the banks adjoining the railroad heaps have been raised, some of them containing from 10 to 15 tons of coal. The poorer inhabitants of the town turned out with barrows, baskets, sacks, &c., and every descripton of receptacle which could be rendered available to gather up the cast up treasure.

Dr. W. H. Russell has accepted the most responsible and influential outside position connected with the *Times*, and is about to proceed to Paris as its own regular correspondent. In his new character Dr. Russell will be able to influence the foreign policy of the Empire to some extent, for the British press takes its tone on many questions from the admirably selected extracts as well as thoughtful remarks on continental affairs, which have, as a general rule, characterized the Paris letters of the Thunderer.

On Tuesday, the wife of Aaron Rowe, living three miles south of Mount Vernon, presented her husband with five children at one birth,—three boys and two girls. The mother and children are doing as well as if nothing extraordinary had occurred.

CHEAPER THAN EVER.—Now is the time for those who are in want of Dry Goods to make their purchases. And we would desire to call the attention of our friends to ROBERT YOUNG'S large and well selected stock, confident that those who favor him with their patronage will get the best value for their money at his establishment.

Pain Killer.

NORTHAMPTON, March 11, 1867.

Dear Sir:—I wish to add to your numerous testimonials. Last September, while at work cutting sole leather with a die and a heavy iron mallet, I made a mis-strike, and the mallet came down with its whole force on my thumb, splitting it from the first joint entirely open, and laid the bone bare. I supposed I had ruined my thumb forever; but I thought of your Pain Killer, as I had often heard of its healing qualities. I went about a half a mile, and obtained a small bottle. I saturated a little cotton batting, first winding a waxed thread around the wound, and applied the Pain Killer, saturating the bandage two or three times a day. In five minutes the pain ceased, and in a week it entirely healed up; and I will say that I have never seen anything for healing qualities that equalled it; and I would earnestly recommend it to the public as a pain killer and a healer.

AN EFFECTUAL WORM MEDICINE.

Brown's Vermifuge Comfits,

OR WORM LOZENGES. Much sickness undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Children having worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of worms in children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.

The following is an extract from a letter received by us from

DR. RUSH, OF NEW YORK:

It speaks in trumpet tones for this great remedy; read it: "As I before remarked, I have used your WORM CANDY in my practice;—now I never said a word in favor of a Patent Medicine before, but I think it just to say to you that your medicine is no humbug. I have tried it and I know it will do all it claims. It must be one of the most successful medicines of the day, for it is one of the most valuable. Those who have children should never be without it." Sold by all Dealers. *Get our Almanac.*

The disasters to American vessels by fire, wreck, collision or other mishaps at sea during November, involved the loss of 21 vessels, valued at about $1,586,200. There were also two steamers, six ships, two barques, nine brigs, thirty schrs, and two sloops. During the eleven months of 1867 that have passed by, there have been 428 American vessels lost, valued at $19,170,200 as compared with 516 valued at $27,132,800 during the same period of 1865.

Capt. Brown, of the ship 'L C Owen,' belonging to the port of Charlottetown, under date Havre, France, Dec 12, 1867, writes to Mr. A. W. Owen, of this city, the following particulars:—'At 10, a m, on the 24th of November, during a heavy gale, we fell in with a ship water logged. We ran close to her, and saw that all hands were on the main and mizzen tops. We hove to under her lea, as there was a very heavy sea running. At 3 p m, they got their boat out, and 10 of them entered it, and came alongside the 'L C Owen.' We took them on board all right. With the heavy waves their boat got smashed against our ship, and as they had not another, and ours would not live in such a sea, we had to remain by the wreck all night. The next morning we managed to lower our boats and take the rest of them (15) off the wreck, making 25 in all. They had been three days and three nights without anything to eat or drink. As their ship had filled at once, they saved nothing except the clothes they had on. Her name was the 'Norwood,' of Newburyport, from Quebec, bound to Liverpool. We met her in Lat. 42° 7m N; Long 45° 43m W. Three days after we took the men on board we fell in with a barque, on board of which we put eight of them. After six days more we fell in with another barque, and put seven on board of her. The other ten we brought with us to this port.'

Holloway's Ointment and Pills.—Judicious Management.—Though it is impossible, in this climate of changing temperatue, to prevent ill-health altogether, yet its form and frequency may be much mitigated by the early adoption of remedial measures. When hoarseness, cough, thick breathing, and the attending slight fever indicate irritation of the throat or chest, Holloway's Ointment should be rubbed upon these parts without delay, and his Pills taken in appropriate doses, to promote its curative action. No catarrahs or sore throats can resist these remedies. Printed directions envelope every package of Holloway's medicaments, which are suited to all ages and conditions and to every ordinary disease to which humanity is liable.
