

Commitment

**A Vote for the Liberal Team is a
Vote for New Hope and Opportunity
—Everywhere on the Island**

1. JOBS

Islanders need jobs, but we realize that a "quick fix" to our job needs is not the answer. We need a **permanent** solution. Our job creation policy is built on three principles:

- (1) We know that most Islanders want to work.
- (2) We know that most Islanders want to stay in their home community.
- (3) And we know that small, family-owned and community-based businesses have been the most successful in providing long-term jobs.

By building on these principles we can solve our job problem.

2. HONESTY

We promise honest government. We take our responsibility as public officials very seriously. We are asking you to place your trust in us. In return, we pledge ourselves to respect that trust with honest government.

"You deserve to know the truth."

3. SECURITY

Islanders have lost hope.

We believe that government has a responsibility to provide new hope and opportunity. Government must provide leadership to carefully manage our resources.

Only when we get control over government can we get control over our own lives and our own destinies.

4. EQUALITY

Everyone - rich or poor, big or small - has to have equal access to government.

Political parties cannot fulfill their duty if they are held captive by big interests who only want to manipulate government to their own ends.

We believe that what you say is every bit as important as what big interests say. We will listen to your voice.

5. INVOLVEMENT

Our democratic system is based on involvement. But people won't get involved if no one is listening to their concerns.

Our philosophy is based on trust and respect. You trust us to listen to your concerns. We must respect your concerns and opinions.

Nothing - not party loyalty nor personal ambition - can be placed above that. What you say is important.

6. FAIRNESS

We believe that P.E.I. is an Equal Partner in the Canadian family. We deserve no more and no less than any other province.

We have to stand up to Ottawa's outbacks or they'll continue to take advantage of us.

We will speak out for your rights as a Canadian. We will stand up for Islanders' rights as full partners in Confederation.

7. DEVELOPMENT

We believe that every area of the island deserves to share in the resources of the Province.

If we are going to have a healthy economy, then economic development has to be evenly balanced across the entire Province.

Your Liberal Team believes that every area of the Province must prosper if we are going to bring new hope and opportunity to our island.

**OPPORTUNITY
FOR ISLANDERS**
