NEW YORK

NEW YORK (AP)—The stock market showed Tuesday that a couple of days of mild adjustment to recent gains were more than enough and the list surged higher, making its best gain in nearly three weeks.

According to some indicators, the market was at new peak since it hit its 1963 bottom late in June, but the Dow Jones industrial average was a shade below the recovery high it set last week.

Wall Streeters said that the moderate declines of Friday and Monday seemed to demonstrate that the market was in no mood for a really sharp "correction" of its five-week advance. Both of these setbacks were accompanied by declining volume.

Chrysler starred in the advance, heading the list of most active issues at it spurted 3¾ to 63¾ on 106,200 shares.

The Dow Jones industrial average rose 5.07 to 651.48, a shade below its recovery peak of 652.61 reached Nov. 29.

Standard and Poor's 500-stock index and the Associated Press average were at new highs since the June lows. The AP 60-stock average rose 2.2 to 241.9. Standard and Poor's gained .70 at 62.64.

Volume swelled to 5,210,000 shares from 3,810,000 Monday.

Gold mining stocks were weak. Dome Mines dropping 1½ and Homestake 1¾, in a typical reaction to strength in the general list.

Canadian Pacific, Distillers Seagrams and Walker Gooderham all gained ¼. International Nickel was up ½.

Prices on the American Stock Exchange also staged a general advance. Volume increased to 1,420,000 shares from 1,220,000 Monday.

Among Canadian issues Shawinigan, Preston, Fargo Oil and Scurry Rainbow oil were all off ⅛.
