TORONTO (CP)—British Columbia Power dominated the trading on an otherwise dull market Tuesday.

B.C. Power traded 86,850 shares during the day, including two special size transactions of 12,300 shares at 24¾ a share and 10,000 shares at 24½ a share. The price remained steady at 24½ most of the day to close unchanged.

Monday the stock traded 97,724 shares and brokers speculated that institutions might be buying following the announcement of the settlement between the company and the B.C. government over the B.C. Electric dispute. Brokers attributed much of Tuesday's activity to the B.C. election results.
