

RESERVE November 18th for the annual chicken dinner in the Lot 16 hall.

COME AND SEE Carleton put on "The Warpath" on Sept. 25th. Monday evening, September 27th, in Birch Grove Hall, Freetown.

GOOSE DINNER and chicken supper at William Haggerty's, New Annan, Wednesday, September 24th. Meals 12-2 and 5-8. Dancing afterwards. Auspices C. W. L.

KENSINGTON United Church, Sunday, September 26th. Sunday school 10 o'clock. Morning worship 11 o'clock. Evening worship 7:30. Masonic service, Summerside 9:30 a.m. Rev. Evans will preach at all services. Rev. Lewis M. Murray, B.A., B.D., minister.

TRYON UNITED CHURCHES. Services for Sunday, September 26th. Tryon 11 a.m. Cape Traverse 3 p.m. Crapaud 7:45 p.m. The children of the Tryon Sunday School will present a Rally Day Program at the morning service of worship. Rev. Lloyd Archer, Minister.

PERSONALS Mrs. Franklin Brown, New London, is visiting her son-in-law and daughter, Mr. and Mrs. Elmer Paynter, Kensington. —Bur.

Miss Alberta Buntain, Rustico, is visiting her uncle and aunt, Mr. and Mrs. Nelson Paynter, Burlington. —Bur.

Mrs. Vernon Williams, Charlottetown, accompanied by her daughter, Linda, is visiting her parents, Lt.-Col. and Mrs. E. W. Johnstone, Burlington. —Bur.

Mrs. and Mrs. Samuel Simmons and Mr. and Mrs. Earl Simmons, Summerside, attended the Anglican Church supper in Kensington on Wednesday evening.

Mrs. and Mrs. J. E. Inglis, grandsons, Jimmie and Mr. and Mrs. Elmer Cole, Kensington, accompanied Mr. and Mrs. Stewart Hunter and family to Mont Joli, P. Q., on September 18 and spent the week-end there. —Bur.

Among those attending Egmont Bay-Mont Carmel Exhibition on Wednesday were Mr. and Mrs. Frank Baglole, Mr. and Mrs. Horace Paynter and Mr. and Mrs. Lorne Crozier all of Kelvin Grove. —Bur.

Mrs. Erskine MacMurdo, Kelvin Grove, accompanied by her aunt, Mrs. W. G. Simpson, Kensington, left on September 21 for Ottawa, where her daughter, Miss Jean MacMurdo, has been critically ill. —Bur.

Mrs. and Mrs. Stewart Hunter and family, Kensington, accompanied by their son, Donnie, who is a Bank employee in Summerside, motored to Mont Joli, P. Q., on September 18 where they will reside for the winter months. Before leaving, Mrs. Hunter was entertained by Malpeque Road neighbors and friends who presented her with an electric clock and a reading lamp as well as a treat for the children. —Bur.

Mrs. Mervin Kahle accompanied by her children, Jimmie and Patsy, left on September 21 for Ottawa after spending a month in Kensington, guests of the former's parents, Mr. and Mrs. James Saunders. Mr. Kahle joined his family at Ottawa and they motored to Clinton, Ont., where he is stationed with the R. C. A. F. —Bur.

Rain and Frost there is a possibility only a portion of these will be harvested. The majority of wheat is grading number three northern to five. Coarse grains are still yielding well, but moisture content is too high. Skies are clearing, giving hope for an early resumption of harvesting. Rain and winds have frightened a lot more crops in Northern Saskatchewan and late crops were badly hit by frost. However, considerable new grain has been written off anyway. Wheat yields of 12 to 15 bushels, or less, are anticipated. Grading mostly number four northern or lower. Barley is yielding 15 to 20 bushels, and oats up to 30 bushels per acre.

A fair start has been made in harvesting crops in Central Alberta, with wheat 15 per cent to 60 per cent swathed. However, half the farmers at many points have not been able to get on to the fields as yet, even where crops are well ripened. Frost damage was minor except at Donalds where killing frosts covered the entire district.

Heavy frosts in the Edmonton territory will reduce wheat grades to numbers five and six. A lot of grain may be cut for feed as much of the hay crop rotted in windows in the hay season. While swathing has started in some districts, some of the grain is beginning to rot. Temperature dropped to 18 degrees in the Valley area, resulting in further reduction in yield and quality, and a reduction in quality in more advanced sections. Warmer weather now enabled operations to be resumed in most areas. The North of Edmonton frost was general. Advanced crop will show least damage and late crops will likely be used for feed as hay supplies are low owing to the poor hay season. Some hay is even rotting in the stack.

Light frost damage is reported in all districts of the Peace River area, but weather is now sunny and warm and harvesting general. Fifty per cent of the wheat has been cut and 50 per cent threshed. Rain delayed fruit shipments from the Okanagan Valley. The movement of peaches, prunes and plums is practically finished, but let pears are 90 per cent to 70

UNLOADING car cedar shingles today. John Myers, Carleton.

PANTY SALE — Keir Clark's Store, Kensington, Saturday, Sept. 25th, starting 8 p.m. Sponsored by Coronation W. I.

DANCE from 9.00 to 12.00 at Art Larkins', Kensington, Saturday, September 25th. Sponsored by Indian River W. I. Music by Hickey Bros. Canteen.

GUEST PREACHER AT FRENCH RIVER—Rev. C. H. Ferguson of Kempville, Ont., was guest preacher at the French River Thankoffering service held at French River United Church on Sunday. The theme around which he built his address were three words of Jesus: "Come, Abide, Go." The pastor, Rev. S. H. Haslam conducted the service. Special music consisted of a special rendition by the church choir and two duets by Messrs. Ernest Dunning and Andrew Johnstone.

Rev. Mr. Ferguson is one of the commissioners of the General Council of the United Church of Canada, currently meeting in Sackville, N. B., and last year was president of the Montreal and Ottawa Conference. His brother, Rev. Merrill Ferguson, a missionary from Angola, Africa, was in St. Peters on the same Sunday.—Bur.

FUNERAL AT BURLINGTON—The funeral of the late Mrs. William J. Paynter was held from St. Stephen's Church, Burlington, following a short service at her late home, and was conducted by her minister, Rev. W. Eric Ingraham. The "Going Down the Valley" was effectively rendered by Mr. Richard Dickleson, New Glasgow, accompanied by Mrs. Ernest Dunning, Long River. At the church, the hymns were, "O For a Closer Walk With God," and "The Sands of Time Are Sinking." Mrs. H. B. MacLeod was organist. The pallbearers were: Messrs. William J. Proffitt, Halsey Proffitt, E. W. Johnstone, Nelson Paynter and John Proffitt. Burial was in the church cemetery. —Bur.

Continued from page 1

Armed Forces what arms the Russians are believed to have or to be working on. Thus, to meet the threat of Russian jet bombers, much of the effort in the weapons field in this country has gone into fighter planes, radar and aircraft armament.

Among the first results of this effort were the CP-100 long-range jet interceptor and the "pine tree" radar chain. But science's stunning advances are making both obsolete.

\$3,000,000 ON RESEARCH So \$3,000,000 is being spent this year merely for the research work on a superior intercepter, not expected to fly for another four or five years. A new radar chain, the mid-Canada line, is being built to provide earlier warning of an air attack.

To arm Canadian fighter planes, an air-to-air guided missile is in the final stages of development. In answer to Russian improvements in magnetic and acoustic mines, the navy's new destroyers—seven launched, seven still on the ways—are being redesigned to accommodate better armament and more asdic to probe for enemy submarines at longer range.

OTHER MILITARY AIDS It has been able to help its Allies in many ways, too. It has developed an armor-piercing ammunition which has been accepted as standard by both Britain and the U. S.

It has come up with probably the most deadly flame thrower in the world today. The defence research board, after four years at the job, has produced a new and better tournament for the army.

On navy drawing boards is a design for a new, single-screw frigate which could be produced rapidly in event of emergency.

70-KNOT BOAT A 40-foot, 70-knot boat has been developed which can lift out of the water by riding on hydrofoils, winking sheets of metal sticking out from the sides of the vessel.

For the army, the defence research board has developed a new anti-tank weapon known as the Heller. It is far more accurate than the old bazooka.

For the RCAF, Orenda-engine Sabre fighters are being delivered to the air division in Europe. On order, the American Neptune bombers to replace Lancasters for maritime reconnaissance and anti-submarine work. The British Britannia will be modified and used in a similar role.

Hit - and - Run Victim Regains Consciousness ST. JOHN'S, Nfld., (CP)—Nineteen-year-old Ignatius Grotty regained consciousness yesterday for the first time since he was struck by a car 118 days ago.

Doctors said he regained consciousness early today and the immediate danger is over. They said, however, his right leg and arm are still paralyzed and he is unable to talk. The case now has been classified as aphasia, loss of memory due to brain injury.

Police, meanwhile, are continuing to search for the driver of the car which hit the child and failed to stop.

Let's Talk It Over

We'd like to write a column on the subject of noise. Occasionally you will find a school teacher who, when the noise in class gets a bit higher than the normal hum of industry, instead of subduing the class to a degree or two near silence, will pitch his or her voice so that it will carry above the class-room din. The natural result of this, of course, is that the noise also increases, because the teacher's voice has begun to interfere a little with the conversation groups active in the room. The teacher may then raise his voice another notch, and the vicious circle continues until bedlam is reached. Then either the teacher realizes his error and tackles the problem in a more effective manner or those in control begin to realize that the teacher has missed his calling, and should have gone in for auctioneering or hawking merchandise at a circus midway.

Noise is always a possible handicap to effective work in a classroom. Right now up at Summerside High School noise originating outside the class rooms reigns supreme. On a side street next to the school a cement mixer has been installed. The noise of a passing plane or a racing car engine or other such distractions last only a short time and the teacher can always wait until the uproar subsides, but a cement mixer presents a sterner challenge to the teaching profession. Planes may come, and planes may go, but the cement mixer goes on forever.

If the teacher is to convey any useful information to his charges at all, he must bellow as Hitler did to his goose-stepping legions. Summerside is undergoing an extensive street repair program, and this little side street seems to be about the only feasible location for a cement mixer which is to supply cement to the streets around the vicinity. So Summerside High School must perform endure the bedlam until the streets are paved. Both teachers and pupils must go forth day after day to the "Daily Grind."

Appointed To N. S. Public Utilities Bd. HALIFAX, (CP)—Appointment of William H. Pipe, former Liberal member of the legislature, as a member of the Nova Scotia public utilities board was announced today.

The appointment brought the board to full strength. Other members are chairman William Outhill and vice-president R. J. Filin.

U. S. Living Costs Decline Slightly WASHINGTON, (AP)—The cost of living in the United States fell 0.2 per cent last month because of marked price tags on clothing and food—especially meats—the bureau of labor statistics announced Friday.

In each of the preceding three months the figure had edged upward. The August consumer price index dropped to exactly the same level as in August 1953, at 115 per cent of the 1947-49 average.

Food prices dipped 0.6 per cent in August, the bureau said, and weakness in food prices in the early weeks of this month indicates the September average will be at least as low.

A significant drop was noted in the prices of radio and television sets, as much as 20 to 25 per cent in some cities on a number of models.

New automobiles also were down from the manufacturers' list prices in "a good number" of cities. Rents edged up 0.1 per cent, but it was noted that the rate of increase has been slowing.

Scientists Report Three Changes In Mother Earth By JAMES M. LONG ROME (AP)—Mother Earth's slip is showing. She's getting just a bit tipsy. And she's slowing down her day is getting longer than 24 hours.

Just looking out the window, you wouldn't notice any of it. However, scientists in Rome this week for a 42-nation geophysics conference reported that their instruments and calculations have detected all three changes.

Take the one about the day getting longer. It's the slightest change of the three, but in the long-run effect on gravity or ocean movements it might prove to be the most important.

Dr. Roger R. Revelle, delegate from the U.S. National Research Council, and Dr. Walter H. Munk of the Scripps Institute of Oceanography, both of La Jolla, Calif., said that for the last 3,000 years the earth has been turning steadily slower on its axis.

The average slowdown amounts to 1-2 seconds each 1,000 years. That in a year works out pretty small, but the two experts reported that the rate of slowdown appears to be steadily increasing. What causes it?

Revelle said the two major factors probably are tidal friction slowing down the earth's turn on its axis, and the forces exerted on the earth by the sun through atmospheric ties. Other possible factors are changes in inertia, changes in the sea level, and transfers on momentum between earth's mantle and core.

It was on the last point that Revelle and Munk reported the greatest change. They said there is a slip amounting to about 1/2 feet a year between earth's outer skin and her inner core.

Well Known Summerside Citizen Passes

The death occurred at his home in Summerside on Wednesday evening of a well known Summerside citizen in the person of John C. Perry. He was 83 years of age. Mr. Perry was familiarly known over the years as "Jack the Cook," a name he earned in his earlier years when he was a cook, first for the 109th Battalion in World War One and later when he worked in that capacity in several Summerside hotels. Mr. Perry was a man of friendly personality and noted for his wit. Before his health failed him he was a well known figure about town.

He was born in St. Nicholas but lived almost all his life in Summerside. He had been retired for the past five years but previous to that time and after he had ceased working as a cook he had been janitor of the Canadian Bank of Commerce and the Royal Bank of Canada. At one time he also held the same position with the Bank of Nova Scotia.

Mr. Perry had been in failing health for the past two years and had been confined to bed since April.

He is survived by his wife, the former Veronica Perry of St. Nicholas and one son Arthur, manager of Holman's carpet and wallpaper department; also two daughters, Celina, Mrs. Edmund Doucette, and Zita, Mrs. Frank Arsenault, all of Summerside.

He is also survived by eight grandchildren and three great-grandchildren, and by one sister, Mrs. Mary Arsenault, Ipswich, Mass.

The body is resting at his home and the funeral will be held this morning with Requiem High Mass at St. Paul's Church commencing at nine o'clock, standard time. Interment will be in St. Paul's Cemetery, Summerside.

Will Discipline 200 Freshmen

TORONTO (CP)—Dr. Sidney Smith, president of the University of Toronto, said Friday disciplinary action will be taken against 200 engineering freshmen who staged a march of destruction through the university Thursday.

The students roamed through University College and other buildings tearing posters and notices from the walls. An elderly professor, W. J. Andrews, was knocked down and required several stitches to close a head wound.

The discipline could mean fines, suspension or expulsion. Dr. Smith said he couldn't say what form it will take.

Student reaction also was severe. Martin Friedland, president of the student body, said an immediate apology will be demanded from the Engineering School. The undergraduate daily newspaper, The Varsity, condemned the students' action.

In addition to tearing down notices and injuring the professor, the students carried off traps, a table and a letter box. They also upset piles of chairs and tore the head off a drinking fountain.

Murder Charge In New Glasgow Death

NEW GLASGOW (CP)—James Swinamer was charged Friday with murdering Mrs. Gordon Skaling Sept. 12 in a two-room house on suburban Vale road.

Magistrate W. A. Richardson read the charge after presiding in a coroner's jury which intimated the woman had been murdered and asked for further investigation.

Mrs. Skaling was beaten to death and Swinamer has been held since then as a material witness.

Find Relics In Cornerstone

QUEBEC (CP)—Newspapers old coins and relics were found Tuesday in a cornerstone of the 50-year-old Jeffrey Hale's hospital. They will be re-inserted along with new relics in the cornerstone of the new hospital to be placed today by Governor-General Massey.

Hospital administrator Kenneth McNicholson said he ordered the McKensie wing cornerstone broken open after a retired hospital employee told him there "was something in it when it was laid."

Mr. Nicholson said a sealed box in the stone contained: 1. A blackened copper coin dated 1821 and inscribed: "Lauson; bon pour hait sous" (Lauson; good for eight cents); a 1787 English shilling; 1902 and 1903 Canadian coins from a penny to 50 cents, and an 1851 United States gold dollar in an envelope marked: "From my dear mother, A. McKensie."

2. A packet, containing the painted portrait of an old man and some tufts of hair. 3. Copies of the Quebec Morning Telegraph and Quebec Chronicle-Telegraph—dated from March 26 to April 2, 1904. In one copy of the Telegraph was a small notice: "The cornerstone of the new McKensie memorial building will be laid tomorrow afternoon at three by Lt.-Col. Turnbull."

Golden Wedding Anniversary

Observing the happy occasion of their 50th wedding anniversary on Monday were Mr. and Mrs. H. W. Platts, who received approximately 200 relatives and close friends at a reception held at their home, 28 Admiral street.

The couple were married at Greenwood, P. E. I., in 1904 at the home of the bride's parents, the late Mr. and Mrs. Silas Rayner. Mr. Platts' father was a pioneer of the fox ranching industry on the Island. Mr. Platts is the son of the late Mr. and Mrs. George Platts, Kildare Cape.

Receiving the guests with their parents were their daughter, (Florence, Mrs. J. W. MacKenzie), and son, Mr. Everett Platts. Another daughter, Emily, (Mrs. Arthur Woolner of Branford, Ont.) was unable to be present.

A profusion of yellow roses, bronze mums and gladioli decorated the rooms while the traditional wedding cake, circled at the base with white and gold mums, centered the table. Tall white tapers were lit.

Many cards, telegrams and gifts were received by the couple as they marked this important milestone in their lives.

Feasting during the reception, which lasted from 3-6 p.m. and 7-10 p.m. were: Mrs. P. M. Stewart, Mrs. L. Smith, Mrs. M. C. Stewart, Mrs. D. H. MacLean, Mrs. M. C. Bell and Mrs. M. D. Dunbar.

The guests were served by Mrs. J. H. Simmons, Miss Mary Vessey, Miss Betty Roberts, Mrs. J. A. Graham, Mrs. W. S. MacLeod, Miss Janet Owen, Mrs. A. G. Turpin, Mrs. P. V. Beck, Mrs. H. H. Roper, Mrs. R. F. Norman, Mrs. Ralph Bearloto, Mrs. F. MacKinnon, Mrs. B. G. Hackett, Mrs. W. A. MacRae, Mrs. W. R. Stewart, Miss Fannie McLaine, Mrs. J. C. Montgomerie, Mrs. J. A. Horne, Mrs. E. C. Baker, and Mrs. J. H. Cery.

Mrs. Everett Platts ushered the guests into the dining room and was in charge of the guest book.

Secretaries Discuss Activity Co-ordination

MONCTON (CP)—Stronger co-ordination of activities was the principal topic of discussion as the general meeting of Maritime YMCA secretaries opened here Friday.

Clare Buckley of Halifax, president of the Maritime Association of YMCA Secretaries, is presiding. Inter-association competitions more closely knitting activities are under discussion.

Named To Assess Storm Damage

HALIFAX (CP)—The government Tuesday night announced the appointment of County Court Judge A. H. MacKinnon as special commissioner to assess damage caused Nova Scotia's "private industry" by hurricane Edna.

The loss has been estimated at nearly \$6,000,000. Highways Minister A. W. MacKenzie announced after a cabinet meeting that Judge MacKinnon, former provincial mines minister, will begin his survey immediately.

He added there was a possibility advantage might be taken of the Agriculture Prices Support Act to give immediate aid because it can be used to stabilize prices for damaged crops.

If this were done, it would be easy to assess the losses in the apple industry which had hoped to harvest a bumper \$4,000,000 crop this year. Instead, the crop was ruined.

The province has already applied to the Canadian disaster fund but was informed that most of the fund has ever paid out was about \$100,000 to tornado-stricken Sarnia, Ont., two years ago. Federal and municipal governments gave assistance.

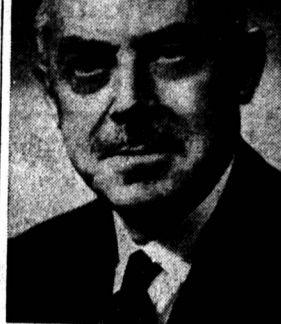

However, it plans to set up an organization—probably of growers—to receive any money for distribution. The fund does not hand out money to individuals.

S. B. Purvis Dies In North Sydney

NORTH SYDNEY, N. S. (CP)—Stephen B. Stoen Purvis 77, for many years a leading oyster farmer in Maritime light harness racing circles, died in hospital Wednesday night. A mining engineer, he worked in the Florence colliery here until he retired in 1933.

Culture Pearls Originator Dies

NAGOYA, Japan (AP)—Kokichi Mikimoto the humble noodle vendor who gained world fame and riches by coaxing oysters to produce pearls, died Tuesday at 86.

Colonel Paul P. Hutchison, C. of Montreal, who was elected national vice-president of the Canadian Bar Association, at the annual meeting held recently at Winnipeg.

Announce Imperial Oil Scholarships

EDMONTON, (CP)—Eleven winners of Imperial Oil undergraduate scholarships, each potentially worth \$2,500 in the next four years, were announced Thursday. They include: Frances Nadeau, Richard Lesperance and Joseph Rivet, all of Montreal; Judith Ann Murphy, Saint John, N. B.; and George Dyer, Dartmouth, N.S.

Wheatley River W. M. S.

The Wheatley River Auxiliary of the W. M. S. held their monthly meeting in Wheatley River hall on Sept. 16. Mrs. Gordon Andrews presided and led the worship service on the theme "A Nation Begotten God." The leader and members read from the Missionary Monthly representing "India," followed by hymn "Once to Every Man and Nation." Prayer was offered.

An interesting letter from a native of India was read by the leader. Thank offering was taken which amounted to \$7.50. The new study book, "The Church in India" was then introduced. Mrs. Harry Ling read the first chapter, assisted by Mrs. Fred MacRae and Mrs. Harold Buntain, which told us some interesting facts about the people of India.

Mrs. William Ling and Mrs. Preston Rackham presented a dialogue "About India." The worship service closed by singing "All People that on Earth do Dwell." Roll call was answered by 11 members and one visitor with words of Scripture verse "Unto" Plans for the thank offering service were discussed. A letter from Mrs. MacLeod was read stating that October is the time to renew Missionary Monthly. A pantry sale was decided on to raise funds for the Church Sign Board. Six friendship calls were made. Mrs. Reagh Barrett will be leader at the next meeting. Word for roll call will be "verily!"

Defence Contracts

OTTAWA, (CP)—The defence production department and defence construction limited Thursday issued a list of defence contracts valued at \$11,793,450 which were awarded to Canadian firms from Aug. 16 to 31.

The list includes only contracts valued at \$10,000 or more and excluded contracts classified for security reasons and amendments to existing contracts.

The major contracts were placed with Canadian Arsenals Limited, Ottawa, and S. F. Bowser Company, Limited, Hamilton, for weapons and ammunition.

Smallest State Has Five Year Plan For Peaceful Expansion

MONTE CARLO, (Reuters)—Europe's smallest state, Monaco, has a five-year plan to make the country a bit bigger—and has hit upon the most peaceful way of doing it ever tried in Europe.

The principality, consisting of little more than the city of Monte Carlo, intends to gain more elbow room by expanding its area by about one-tenth—but at the expense of the sea, not of a neighbor.

On a Mediterranean promontory of reclaimed land, government officials plan to build, as might be expected, a big hotel and a new casino.

The expansion program is part of an ambitious plan for rejuvenating and modernizing the Riviera resort centre, now fallen on hard times. Government officials also plan a new and broader seaside promenade, a stretch of sandy beach installed along Monaco's rocky waterfront and a glittering new shopping centre.

Interesting Address On Community Planning Given By C.P.A. President

Sir Brian Dunfield, justice of the Supreme Court of Newfoundland and president of the Community Planning Association of Canada, addressed a large gathering yesterday at a luncheon meeting at Howard's Restaurant at Summerside.

Sir Brian was welcomed by His Worship Mayor Henry W. Wedge who also presented the distinguished visitor with a silver letter opener as a memento of his visit to Summerside.

The guest speaker was introduced by Dr. Frank MacKinnon of Charlottetown, provincial president of the C.P.A. who stated it was an honor to have Sir Brian visit the Charlottetown and Summerside organizations and said "he is an inspiration to all of us." Dr. MacKinnon touched briefly on Sir Brian's distinguished career, which saw him admitted to the Bar in 1911 and appointed judge of the Supreme Court in 1938. He was knighted in 1949 by the late King George VI.

Sir Brian expressed enjoyment of his visit to Summerside and told briefly of the organization of the Community Planning Association in Ottawa in 1946, intended as a laymen's association for the improvement of community planning. He said divisions in Saskatchewan and New Brunswick were formed last year and now the organization stretches from coast to coast in every province of Canada. Sir Brian states that the organization is approved and subsidized by the Dominion Government and each provincial government and stated that shortly, the local chapter should be getting a larger subsidy than it is receiving at present.

He expressed the desirability of employing a member of the professional planners' association and said that the benefits of such a move would make themselves shown prominently over a period of years, as the town continues to expand.

Dr. Hillard E. Clark thanked Sir Brian on behalf of the gathering for his interesting and informative address.

Dr. Henry Moyses, president of the Summerside chapter of C. P. A., presided and introduced the officials and guests at the head table including Gordon C. Welsh,

secretary of the local organization, Mrs. W. H. Swetnam, Mayor Wedge, Dr. MacKinnon, Mr. J. Watson MacNaught, M.P., parliamentary assistant to the Minister of Fisheries, Group Captain Swetnam, Mrs. Wilfred Perry and Dr. Hillard Clark.

Sir Brian left late yesterday afternoon for New Brunswick.—S.

Film Council Monthly Meeting

A regular monthly meeting of the Summerside Film Council was held last evening in the High School library with the president, Mr. Alvre Arsenault presiding.

Plans were discussed for the fall and winter activities and for acquiring increased membership in the council. The consensus of opinion was that there are still a number of clubs and service organizations in Summerside and vicinity which could be induced to join if they were acquainted with the advantages of membership in the council.

It was decided that one of the projectors along with a supply of film would be left in the custody of the president at the Knights of Columbus Home on Central Street in order to make it easier for members to get a projector and films at such times when the school, where the other projector and main film library are kept, might be closed.

The meeting was addressed by Mr. John Martin of the National Film Board office in Charlottetown on matters of particular interest to the local council.

Mr. Martin dealt with the work of the National Film Board and the service it provides all across Canada in preparing films of an educational nature. This service he pointed out, is much appreciated by the American tourists who do not have a comparable service provided by the government of the U. S. A.

The decision to purchase a new projector for the Summerside Council was deferred to a future meeting.—S.

Conway

Mr. and Mrs. Robert Morrison and son Wallace, Argyle Shore were week-end visitors at the home of Mr. and Mrs. Wallace Morrison.

The monthly meeting of Conway Women's Institute was held at the home of Mrs. Arthur Adams on September 14.

Mrs. Roland Adams and son, spent a week recently at the home of Mr. and Mrs. Richard Wall, Malpeque.

Mr. and Mrs. Arthur Adams were recent visitors at the home of Mr. and Mrs. Wilfred Hamby, Charlottetown.

Poultry Buying

Buying live chicken, capon and fowl Wednesday, Sept 29 from 8 a.m. to 2p.m. at my home on Malpeque Road. Paying highest market prices.
