Testimonial

C. P. Fletcher, Esq.
DEAR SIR,—I do not wish to return to Montreal without expressing my gratitude to you for the very excellent Bell Piano that you placed at my disposal for my recital. I have tried many Canadian Pianos of different manufacturers and must say that, considering the size of the instrument, I have never found one to equal it for depth and brilliancy of tone. The action is quite as elastic and responsive as in American Upright Pianos of the highest grade. Again thanking you, very sincerely,

I remain,
Yours,

MAPLE SUGAR.

Widespread Ignorance on the Part of Consumers.
Speaking of maple sugar brings to mind the fact that there is no product of the farm concerning which there is greater ignorance on the part of consumers than maple sugar and sirup. It seems to be almost the universal opinion that maple sirup to be genuine must be dark in color and of a thick, heavy body. I have carefully studied this matter, and I am convinced that dealers in large towns and cities are largely responsible for this. Maple sirup is one of the easiest things to "doctor." For instance, a gallon of strictly pure, light colored maple sirup is received, and foreign substances, as cane sugar or glucose, are added and three gallons made, and all are branded "pure maple sirup." Some years ago I stepped into a grocery store in the city of Denver and inquired if they had any genuine maple sirup. "Oh, yes"—and I was shown cans branded "pure Vermont maple sirup." I asked the grocer if he would kindly let me taste a sample. He did so, and as I looked up I suspect he began to "smell mice" and asked if I was a manufacturer of the article. I said, "Yes, and I ship it every spring to your city." Seeing he was fairly caught, he said: "The fact is I cannot fool you, I see. This sirup of ours was probably made in Chicago." Last spring I sent a gallon by request to a pastor of a church in Brooklyn who in his boyhood days used to live on a farm in Chenango county and knew what real maple sirup was. We sent him a gallon of early make, of a light amber shade, and at once received word that the sirup was entirely ahead of any he had ever seen, and that it was an utter impossibility to procure such in the city. Why is it impossible? I know fine sirup is made and shipped. The fact is, as I said before, the consumer is not allowed to taste that fine, light colored, genuinely pure article, for once he gets a taste of it the trade for the bogus article is gone. A few days ago a friend told me he sent a pound of fine sugar, made by one of our farmers, to his mother in Baltimore. The cake weighed 18 ounces, and as it went by mail it cost him 18 cents postage. The letter carrier who delivered it said it must be something valuable to pay so much postage. The lady said she could guess what it was. It was a cake of maple sugar her boy had sent her from New York. As the carrier lived close by the lady told him to come in during the evening and she would show him something good. He did so, but the moment he saw it he said: "You can't fool me. That isn't maple sugar. Maple sugar is always black." She chopped off a corner and told him to sample it. He declared he had never seen maple sugar before and wanted the lady to write and order him 100 pounds. The sugar was shipped, cash received, and one man learned that maple sugar, in order to be genuine, need not be black as a stovepipe.—Country Gentleman.

AN OLD AND WELL TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures whooping cough, and is the best remedy for Diarrhoea. It is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

One loaf of bread may be light, sweet and digestible. You may use the same materials for another and have it heavy, sour and soggy. The knack is in putting the ingredients together just right. A substitute for Scott's Emulsion may have the same ingredients and yet not be a perfect substitute, for no one knows how to put the parts together as we do. The secret of "how" is our business—twenty-five years of experience has taught us the best way.
