It appears that the population of Charlottetown has been about stationary during the past decade. In the city proper are about 10,000 people, and in the Royal about 2,000.

MARK WRIGHT & Co., report the largest trade in the history of their firm; being able to compete with outside factories in the wholesale line, they are able to quote their retail customers prices lower than all competitors.

A PORTER.—There is no necessity for getting letter heads, billheads, etc., printed in Montreal or Toronto, when you can get them 20 to 25 per cent. less from John Coombs' Steam Printing Establishment, Lower Queen Street, Charlottetown.

MESSRS. FROST'S BEANS, the wonderful cheap meal shipped a few days ago as a case of dry goods and clothing to Chilliwack Valley, British Columbia. This is another evidence of the great enterprise of this firm.

O. D. Rankin: DEAR SIR.—I was induced to try a bottle of the Lilac Flower through the agent of the Company as a test of its merit, and must say that the bottle gave me relief, and have not felt since the pain I had suffered for ten years previous to taking the above remedy. I had consulted many doctors without any good result and can now cheerfully recommend this medicine to any one suffering from dyspepsia.

HENRY FROST, Charlottetown, 14 & w. St. The steamer S. Nathan was towed over to S. Nathan's wharf to have some repairs done to her bottom. About 4 o'clock in the afternoon Joseph Beers who has been employed upon the boat for some time fell through a stage extending from the steamer to the wharf. The tide was out at the time and he fell on a pile of ballast inflicting severe wounds upon his head and rendering him unconscious for over an hour. Dr. Jenkins was summoned and after doing what he could for the injured man had him removed to the hospital. His skull was fractured.

RESCUE DIVISION, Southport, and Ever-Onward Division, Mount St. Albert, held a picnic last Wednesday, on the beautiful grounds of Keppock Farm. About sixty members of these divisions and their friends after a delightful drive to the shore fronting on Hillsborough Bay, passed a pleasant afternoon, some enjoying the gentle zephyrs as they strolled along the green banks, others taking part in the various amusements furnished for the occasion. It is not least among the pleasures of the day was the sumptuous repast spread upon the green by the ladies. All returned well satisfied with the day's outing and only sorry it was so short.

It is conjectured that a specific may yet be found for every ill that flesh is heir to. However, this may be, certainly the best specific yet found for diseases of the blood is Ayer's Sarsaparilla, and most diseases originate from impure blood.

YESTERDAY afternoon when turning the corner by the Bishop's palace John Morrison an old man from Savage Harbor was thrown from his wagon, falling on his head upon the street. He was at once taken up by some bystanders and carried into P. P. Gillis livery stable and Dr. Conroy was soon in attendance. Morrison was found to be unconscious, blood was issuing from his nose, and his eyes were black and swollen. After spending some hours in ineffectual efforts to restore consciousness, the doctor had him removed to the Charlottetown Hospital. He was still unconscious at a late hour last night and was not considered likely to recover. Some think he was under the influence of liquor when he was under the influence of liquor when he fell from his wagon. An acquaintance expressed the opinion that he was sober, and said that he was always a sober man, but he admitted that they had a glass of liquor together about an hour before the accident happened.

Court Reform. SIR.—There is a matter in which the public are greatly interested, and about which the press is singularly silent, although it must almost daily come under the notice of yourself and your reporters, viz., the thoughtlessness of our Judges and Magistrates about punctuality. Summons and subpoenas are issued calling upon defendants and witnesses to attend court at, say ten o'clock a. m. The plaintiffs, defendants, witnesses, etc., attend promptly at ten o'clock. The Judge or Magistrate comes in at eleven o'clock. No apology is offered. In this progressive age time is money; but our Judges and Magistrates do not seem to comprehend this. The Supreme Court will meet in July. Let the Judges of our highest court show an example to our County, City and J. P.'s Courts.

It is said that in the recent "Baccarat trial" the Chief Justice of England was in attendance promptly at 9 a. m. daily. Gsm.

A Babe Killed by Whiskey. STAFFORD, June 14.—The police were notified yesterday of the sudden death of Willie Stewart, son of Richard W. Stewart, a millwright late in the employ of the George T. Smith Purifier Company. The boy, a fair-haired, three-year-old lad, was in good health Thursday, and on Friday morning he was a corpse. An inquest was held and the jury returned a verdict that the deceased came to his death by alcoholic poisoning, but by whom administered or procured is unknown to the jury. The mother of the babe is addicted to indulging in liquor to excess.

OTTAWA, June 19.—Before the election committee Murphy, of the firm of Larkin, Connolly & Co., gave in evidence that the profits of the Esquimaux Gravel Dock were over \$200,000 and \$400,000 were paid for engineering extracts from Ottawa. A bar, was proved between the firm and Thomas McGreevey for increased prices in dredging Quebec Harbour, in return for which the firm promised in writing to give McGreevey \$125,000 and did pay it to him. All the evidence was supported by documentary proof.

the importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The latent of scrofula, salt rheum, or other humors is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the drink we drink. There is more conclusive proof than the power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling and building up a whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.
