U.S. Tax Measures, Budget Are Subjects Of Criticism

By GREG MacDONALD
Canadian Press Staff Writer

The recently proposed Canadian budget measures and the United States interest-equalization tax were the subjects of some criticism last week.

The Canadian-American Committee, in a report released Tuesday, said the measures have disrupted the vital flow of capital and goods between Canada and the U.S.

Many of the budget suggestions have been revised and the U.S. tax is still under discussion.

But the committee's report said the presentation of these proposals has resulted in confusions and uncertainties and "there will be further harm if they are put into effect."

The committee is a private, non - profit study organization comprising leaders in government, education, labor and agriculture in the two countries.

Much of the dynamism of the Canadian and American economies, said the report, comes from the "flexibility and efficiency of their largely unnoticed and unmanned common capital market."

RECOGNITION NEEDED

It called for increased recognition in Canada and the United States that economic actions in one country affect the other and therefore "require careful and sympathetic consideration."

Elsewhere on the business scene, expansion plans and acquisitions continued to make news.

The Steel Company of Canada may add yet another multi-million dollar mill to its complex of basic and finishing steel works in Hamilton. The company says that studies are currently under way which may result in construction of a $30,000,000 finishing mill and which would employ 200 to 300 men.

The mill, if built, would follow the company's current expansion program which calls for a capital expenditure of $185,000,000 between now and 1965.

PROPOSED VENTURES

Canadian Johns-Manville Co. Ltd. is planning an exploration program with expenditures expected to reach $1,000,000 in two years at its Reeves Township asbestos property near Timmins, Ont.

Consolidated Mining and Smelting Company of Canada Ltd., has optioned land near Regina to build a chemical fertilizer plant. Construction on the plant, cost of which was not disclosed, will begin immediately.

Loblaw Groceterias Co. Ltd. and Simpsons-Sears Ltd. are to expand their facilities in British Columbia. The two will be the major tenants of a $5,000,000 shopping plaza now under construction in Vancouver.

Aluminium Company of Canada said it is considering establishing a pulp and paper mill in British Columbia's Kitimat area in co-operation with Daishowa Paper Company of Japan. A company spokesman said it is still too early to enumerate the details of the proposal but that a six-man Japanese study mission is in Kitimat now.

Reichhold Chemicals (Canada) Ltd. has started construction on a formaldehyde plant at its Port Moody, B.C., works.

Commercial Solvents Corporation of New York is going to acquire complete control of Northwest Nitrochemicals Ltd. Medicine Hat firm and is making an exchange offer for the remainder of the shares. Northwest directors have approved the offer.

IN MEMORIAM

NICHOLSON — In loving memory of Robert (Bobby) Nicholson who passed away October 6, 1962.

As a wonderful friend we think of you,
In memories that are fond and true.
There wasn't a thing big or small
That you wouldn't try to do for us all.
It's sad but true, and we wonder why
The best are always the first to die.
Quickly and quietly came the call
Your sudden death surprised us all.
We have lost, but God has gained
The very best the world contained.
Sadly missed by Donna M., Elizabeth MacK. and Elaine R

RAYNER—Treasured memories of a wonderful mother and daughter, Elsie (nee Marriott) who passed away, October 7, 1959.

Peacefully sleeping, resting at last.
The world's weary troubles and trials are past
In silence she suffered, in patience she bore,
Till God called her home to suffer no more.
Sadly missed and dearly loved by son, Roger, wife Winnie and mother, Mrs. H. Marriott.

STEVENS — In fond and loving memory of my dear wife and mother Mrs. Benjamin Stevens, Georgetown, who departed this life October 5th, 1962.

Softly the leaves of memory fall.
Gently we gather and treasure them all.
Time takes away the edge of grief,
But memory turns back every leaf.
They who think that you are gone,
Because no more your face they see,
Are wrong — for in our hearts you live,
And always will in memory.

Always loved, missed and remembered by husband and family.

U.S. Committee Renews Probe Of Sugar Prices

WASHINGTON (AP)—A U.S. House of Representatives subcommittee has announced renewal of its investigation of sugar prices because of what the subcommittee chairman called gyrations and speculations.

Chairman Leonor K. Sullivan, (Dem. Mo.) of the consumer affairs subcommittee said "it is hard to understand why (Sugar) prices in the United States could be rising again" in view of large supplies on hand, record harvest of cane and beet sugar and expected arrival of more than 1,000,000 tons of imports in the next three months.

"We will give the sugar industry's witness a full opportunity to explain the reasons as they see them," Mrs. Sullivan said. She said hearings probably will be held late this month.

MAPLE LEAF FOREVER

The Maple Leaf has been an official emblem in Canada since 1867 when Ontario and Quebec put it in their coats of arms.

Commission Hears Views On Co-Op Tax

By STEWART MacLEOD

OTTAWA (CP)—What would happen if co-operatives were treated as any other business for tax purposes—that is, corporation tax would have to be paid before distribution of patronage dividends, and members would be eligible for the 20-per-cent dividend tax credit?

As the royal commission on taxation continued to probe into the controversial subject of tax and co-ops here, this question was tossed out to some of the 26 representatives of the co-op movement who appeared before the commission.

It would probably result in some financial advantage to individual members, said W. C. MacDonell, of the Canadian Co-operative Wheat Producers, but they wouldn't want it this way. "They want to carry on the way they have been."

WOULD BE SERIOUS

"It would be extremely serious," said Mr. R. S. Staples, president of the Co-operative Union of Canada. It wouldn't mean the end of the co-op movement, but it would be "very, very serious."

Romeo Martin of Le Consell Canadien de la Cooperation, said such a move would be viewed with dismay by farmers. "A co-operative is the only way in which a farmer can invest in something that can help him. It is the only way we can keep the family farm."

It would deny the right of group action for a common purpose," said W. F. McEwen, secretary of the Maritimes Co-operative Council.

The fact that co-operatives can deduct patronage dividends from taxable income—and reduce such income to three per cent of employed capital—has been one of the hottest issues before the six-member royal commission since hearings began last spring. Other forms of business have charged that this constitutes unfair competition.

Concrete Bunkers Are Planned For Warhead Storage

OTTAWA (CP)—Tenders are being called for the construction of underground concrete bunkers at five RCAF stations for storage of nuclear warheads, a defence department spokesman said here.

The informant said construction probably will start this fall at some of the stations and will take several months. Similar storage compounds have been used by NATO forces in Europe for several years without any seepage of radioactivity, the spokesman said.

Under an agreement with the United States signed in August, nuclear warheads are expected to be stored starting next year at RCAF stations at Chatham, N.B.; Bagotville, Que.; Ottawa; North Bay, Ont., and Comox, B.C. All five stations are equipped with Voodoo jet interceptors.

SURPRISE SET FOR LEVESQUE

OTTAWA (CP) — Quebec Resources Minister Rene Levesque is in for a surprise.

He'll receive a letter from New Democratic Party MP Frank Howard that starts out "Dear Mr. Levesque." But from there on the letter is written in Iroquois.

Mr. Howard said here he explains in the letter—in Iroquois, of course—that he is using this tongue "to give recognition to the culture and language of those who inhabited this land from time immemorial."

He said the idea came to him after an exchange of correspondence with the Quebec cabinet minister. Mr. Howard wrote Mr. Levesque June 5, in English, about some Indian lands near Oka, near Montreal.

Mr. Levesque replied July 3, in French.

Mr. Howard in a letter dated Friday says—in Iroquois: "Perhaps if more thought was given to the position of the original inhabitants of this country we might be able to develop a truly multicultural nation within which each of us could exist in peace and harmony."

His letter was translated for him by Iroquois friends at the Caughnawaga reserve near Montreal. It ends:

"Ton sa kon non we va to e e," which in Iroquois is "yours sincerely."

Halifax Boat Proves B.C. Experts Wrong

VANCOUVER (CP)—A sturdy little Halifax fishing boat has proven the experts wrong.

The Sylvia Ann his returned here after 10 days off the northern tip of Vancouver Island with 10 tons of fish aboard.

Owners Clifford Keeping and Mrs. Vi Hardy, who brought the vessel here from the east coast this summer, were advised by fishing experts that the boat's Danish seining equipment would be unsuccessful in British Columbia waters.

The method involves setting a seine net on the bottom of the ocean at the end of a mile of rope. The net is gradually hauled to the surface, scooping up all available fish. The boat lies at anchor during the net-raising process.

"We expect to see other fishermen changing to this method of fishing next season," a crewman said. "It's going to be successful."
