

French and German Officials Fraternalize

The frontier towns of Nassweiler and Rosbruck have a line dividing them. On each side of the line are parallel roads marking the respective domains of France and Germany. On the right is a French customs inspector and at the left a customs inspector of Germany, who appear personally friendly, despite the strained relations between their fatherlands due to Germany's reoccupation of the Rhine.

SIGMA GREENE - STABELL LAMAQUE READ - AUTHIER and NOW CLARK GOLD MINES Limited

"BOB CLARK was famed as the discoverer of many important and producing veins. Sigma, Lamaque, Greene Stabell and part of the present Read-Authier holdings were his discoveries. He then turned his attention to the north-western mining area of Ontario. His favoured selection, based on a thorough investigation of the area, was the property now being developed by Clark Gold Mines. A moderately capitalized company (2,000,000 shares) was formed with but 25% of the stock issued for properties, all of which is pooled.
Work has proceeded steadily on the property, following the disclosures of important surface veins. Following through surface work, a three-compartment shaft is now being sunk and is already below the 125-ft. level. The main high-grade surface vein was cut in the shaft at 78 ft. Ore from this vein already milled and shipped to the Mine at Ottawa averaged better than \$20.00 per ton. The plans of the engineer in charge call for the installation of a 50-ton mill as early as possible this year.
Lately many of the large established and most conservative mining corporations have become active in this area. We believe this mining field will make important "mining news" during the coming season and that Clark Gold Mines, in its advanced state of development, will be in the forefront of this news.
A limited number of shares of Clark Gold Mines Limited is available at the offering price of 40 cents per share. The coupons below are for your convenience and we suggest you act promptly.
E. M. McLean & Co., Limited, are offering this stock on behalf of Clark Gold Mines, Limited, and the proceeds from the sale will go into the treasury of the company, less the allowed selling commission.
Send today for detailed information regarding this mining venture which has been developed along sound conservative lines in an area rapidly bidding for foremost prominence in the Canadian mining picture.
