FROM THE SEAT OF WAR.

No Material Change in the Situation.

BRITISH TROOPS ARE HOLDING THEIR OWN.

Lord Roberts is at Modder River.

Buller and the Boers—What Winston Churchill Indicates—Canadian Troops Brigaded—It is Believed that Colonel Aylmer will Succeed General Hutton as Commander of Canadian Militia.

SPECIAL DESPATCH TO THE EXAMINER.

LORD ROBERTS AT MODDER RIVER.

MODDER RIVER, Feb. 11.—Lord Roberts is here. Upon appearing before the troops on Friday he was enthusiastically cheered. He visited the camp of the Highland Brigade, and complimented General McDonald and his men on their steady conduct at Koolesberg drift.

SENSATION IN AUSTRALIA.

LONDON, Feb. 12.—The Daily Mail publishes the following despatch from Sydney, N. S. W.: "The news of General Buller's reverse has caused a great sensation here.

"Cardinal Moran, in a remarkable speech, has advocated conscription in Australia in view of possible complications.

He thinks it may soon become necessary to defend Australia and regrets the departure of the local troops."

PICKETS UNDER FIRE.

RENSBURG, Feb. 11.—A picket of five Victoria rifles, after holding the post for

some hours yesterday, were forced to retire; the Boers getting on a hill and firing upon them. Three were slightly wounded, one is missing and one escaped unhurt.

Out of the patrol from Jersfontein, under Captain Hamilton, composed of eight Tasmanians and eight of General French's scouts, only two Tasmanians and three scouts returned.

The others were captured by the Boers.

BRITISH HELD THEIR OWN.

LONDON, Feb. 11.—(Midnight)—The War Office has just issued the following despatch, dated today, from the General commanding at Cape Town: "Clements reports from Rensburg that on Friday, February 9th, the Boers tried to turn his right flank, but were beaten off and the position maintained. Casualties, small."

"Kimberley reports that the Boer fighting force was apparently increased on February 7th. The next day the Boers commenced the construction of trenches to the east nearly parallel to the glacia and 4000 yards from the premier mine. "A native reported that he accompanied

some Boers who left Mafeking for Kimberley carrying with them a six inch gun and a quick firing field gun. The former opened fire on Kimberley; otherwise situation is unchanged."

BULLER AND THE BOERS.

LONDON, Feb. 12, 4 a. m.—The most important news in this morning's telegrams, is the announcement that Lord Roberts arrived at Modder River on Friday.

General Buller continues silent with regard to his movements.

Winston Churchill indicates, however, that another fierce attempt will be made to cross the Tugela, although he represents Buller as considering the attempt of his army to relieve Ladysmith in the light of a forlorn hope.

It is evidently firmly believed in Natal that the Boers are trying to outflank Buller. They have now occupied a farm on the south of the Tugela, not far from Obievely, and this farm is stated to be studded with hills from which the country can be commanded for miles around.

It should be noted that General Buller has removed his headquarters from Spearman's Camp to Springfield.

CANADIANS BRIGADED.

BELMONT, Feb. 11.—The Canadians have been brigaded with the Second Duke of Cornwall's Light Infantry, the Second Shropshires and the First Gordon Highlanders to form the Nineteenth brigade of the Ninth Division.

The other brigade of this division will be formed of the third militia battalions of the Highland regiment.

It is understood that Major-General Smith Durrien, will command the brigade to which the Canadians are attached.

HUTTON'S SUCCESSOR.

OTTAWA, Feb. 12.—The general opinion here is that Colonel Aylmer, Adjutant General, will succeed Hutton as general officer commanding the Canadian militia.

BOER FLANKING MOVEMENT.

LONDON, Feb. 12.—A report comes from Durban that General Joubert, with six thousand Boers, has already started to swing around the British.

If this story be true, and there is no information to the contrary, the coming week promises to be one of great anxiety for England.

Tous far the Boers have been able to hold the British at every point. How they will fare upon taking the offensive remains to be seen.

BULLER'S STATEMENT.

LONDON, Feb. 12, 4.12 p. m.—The War Office has received the following despatch from Field Marshall Lord Roberts, dated from Modder River, Sunday, Feb. 11th:

"I have received a telegram from General Buller as follows, dated Friday, Feb. 9th: 'It was necessary after seizing Vaal Kranz to entrench it as a pivot of further operations. But I found, after trying two days, that, owing to the nature of the ground, this was impracticable. It was also exposed to the fire of heavy guns in a position from which our artillery was dominated.

'It is essential to troops advancing on Ladysmith by Harding or Mungoe's Drift to hold Vaal Kranz securely; and accordingly we are not pressing advance by these roads as I find we cannot make it secure."

Leyds Snubbed by the Kaisar

BERLIN, Feb. 10.—Dr. Leyds leaves Berlin very much dissatisfied because of the refusal of Emperor William to receive him, his chagrin not being sensibly mitigated by an invitation to dinner from Herr von Wodel, Minister of the Royal Household. He now expects to go to St. Petersburg when the weather moderates.

HUTTON'S RESIGNATION

Couldn't Get on With the Militia Department.

[SPECIAL TO THE EXAMINER]

OTTAWA, Feb. 12.—So far as can be learned, General Hutton is leaving Canada at his own desire, because he is dissatisfied with relations with the Government and the Department of Militia.

The organization of the three contingents has brought to an issue the conflict between the political and military ends of the service.

General Hutton has not been able to have his own way or to carry out his ideas to organize and operate the force without regard to politics.

It is possible that Dr. Borden, this session, will introduce a bill removing the condition that the commander-in-chief shall be an Imperial officer of leaving full power of election with the Government.

At a meeting of the cabinet Hutton's resignation was accepted.
