

Men Agree, DOMINION'S Their Best Bet... and it's

# MAINLY BECAUSE OF THE MEAT!

Most homemakers shop with their family (and Dad in particular) in mind. The foods they like are the foods you buy. The time and effort you put into shopping... choosing carefully and buying wisely within your budget is always well rewarded by the family's words of praise. A great many Fathers tag along on the weekly shopping trip to DOMINION — and, you'd think the meat department was their own personal discovery... the way they talk man-to-man with the man behind the meat counter about the special quality, tenderness, flavour and taste of Dominion meats... things you've known all along. If "Father" at your house has missed making this discovery... introduce him to DOMINION meats of quality this weekend. He'll love your touch of genius even more!
