

**Preservation of the Teeth.**

A prominent dentist of New York is accustomed, on dismissing a patient, after putting the teeth in good order, to present him with a copy of a neatly printed little tract, full of excellent hints, as follows:—

When the teeth of a patient have been under professional treatment, to the extent of a thorough overhauling or placing in order, he is advised as follows for his personal observance and benefit.

Saving a set of teeth is one of the most positive and undoubted processes in the world, providing the dentist does his work well and the patient does likewise. This statement is made in candour, that the patient may comprehend his position, for if he would retain his teeth he must "make an effort," he must be a co-worker. When both the dentist and patient are faithful there can be no result but success. Therefore, O reader! peruse, ponder, and practice these.

**Directions.**—In the morning, before breakfast, always brush your teeth—first with water only, then with powder. Powder should be used at least once a day. Without powder teeth cannot be kept clean. Using a brush with tooth soap just before retiring at night is a commendable practice. To brush effectually place the upper and lower rows of teeth paralleled to each other, the points of the fronts touching; then use your brush up and down the teeth between the gums, being not unmindful nor fearful to brush as well the gums as the teeth—thereby toughening the one and cleansing the other. Your back teeth need more brushing than your front ones. Wisdom in this respect will be displayed should you show a partial care for the back and outsides of the rearmost teeth above and below. After each and every meal use a quill tooth-pick, waxed silk floss, and rinse the mouth with moderately cold water. The intention of these is simply to remove food from among the teeth. Decomposed acidified food, animal or vegetable, is the worst enemy your teeth have now to encounter. The enemy, the combat and the prize are before. Will you win or lose?

**The People Want Proof.**

There is no medicine prescribed by physicians, or sold by Druggists, that carries such evidence of its success and superior virtues as BOSCHER'S GERMAN SYRUP for severe Coughs, Colds settled on the breast, Consumption, or any disease of the Throat and Lungs. A proof of that fact is that any person afflicted, can get a Sample Bottle for 10 cents and try its superior effect before buying the regular size at 75 cents. It has lately been introduced in this country from Germany, and its wonderful cures are astonishing everyone that use it. Three doses will relieve any case. Try it. Sold by all Druggists on the Western Continent.

**THE Greatest Medical Discovery since the Creation of Man, or since the Commencement of the Christian Era.**

There never has been a time when the healing of so many different diseases has been caused by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

DR. MELVIN'S CAPSICUM POROUS PLASTERS are acknowledged by all who have used them, to act quicker than any other plaster they ever before tried, and that one of these plasters will do more real service than a hundred of the ordinary kind. All other plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different: the instant one is applied the patient will feel its effect.

Physicians in all ages have thoroughly tested and well know the effect of Capsicum; and it has always been more or less used as a medical agent for an outward application; but it is only of very recent date that its advantages in a porous plaster have been discovered. Being, however, convinced of the wonderful cures effected by DR. MELVIN'S CAPSICUM POROUS PLASTERS, and their superiority over all other plasters, they now actually prescribe them, in their practice, for such diseases as rheumatism, pain in the side and back, and all such cases as have required the use of plasters or liniment. After you have tried other plasters and liniments, and they have failed, and you want a certain cure, ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER. You can hardly believe your own convictions of its wonderful effects. Although powerful and quick in its action, you can rely on its safety for the most delicate person to wear, as it is free from lead and other poisonous material commonly used in the manufacture of ordinary plasters. One trial is a sufficient guarantee of its merits, and one plaster will sell hundreds to your friends.

Ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER, and take no other; or, on receipt of 25 cents for one, \$1 for five, or \$2 for a dozen, they will be mailed, post paid, to any address in the United States or Canada.
