

TV Will Become Available To St. Pierre And Miquelon

OTTAWA (CP)—For the first time the French islands of St. Pierre and Miquelon off the south coast of Newfoundland are going to get a television service.

France's only North American colonies will be the indirect beneficiaries of a proposed extension of CBC television service to Marystown and Placentia in Newfoundland.

R. C. Fraser, CBC vice-president for corporate affairs, told a public hearing of the board of broadcast governors Wednesday the new Marystown outlet will include the off-shore islands in its broadcast range.

The two stations will rebroadcast programs originating from the new CBC-owned TV station in St. John's. The transmitters are scheduled to be on the air by the fall of 1965.

In conjunction with the expansion of the publicly-owned CBC's service, the existing St. John's CBC affiliate, CION-TV, applied to the BBG to establish a rebroadcasting transmitter at Bonaville, Geoffrey Stirling, president, Newfoundland Broadcasting Company Limited, said it would be on the air this fall.

The CBC also sought a power increase for a proposed new transmitter for the Goose Bay,

Labrador, station CFLA - TV. The operation there is paid for by the United States Air Force and the station is licensed to the CBC.

The BBG will announce its recommendations later.

Applications by three private radio stations to sever their ties with the CBC were formally read into the record. French-language radio station CKCH Hull, Que., CHSJ Saint John, N.B., and CFAC Calgary will operate entirely independently when new CBC-owned stations go on the air in their areas.

EAST BALTIC

Daniel Lappiere returned to his home at Black Pond, following operation in the Souris Hospital.

Mrs. George Roache, Souris, recently underwent surgery in the P.E.I. Hospital.

British PM Supports Red China UN Member

By LAWRENCE MALKIN
LONDON (AP)—Prime Minister Sir Alec Douglas-Home headed up the issue of admitting Communist China to the United Nations. He came out firmly for opening the UN door as a way of curbing what he said were Peking's warlike policies.

The issue will come up again at the fall session of the UN General Assembly. The United States has expressed confidence the move will once more meet with defeat.

Britain has recognized Communist China since 1950. For the last three years it has voted for the Communist-introduced proposal to admit the Chinese Communists and expel the Chinese Nationalists.

For a decade Britain supported the U.S. in successfully persuading the UN General Assembly to shelve the issue. But when the assembly decided to come to grips with the actual issue of admission, Britain voted yes. It has never urged admission of Peking with the intensity that the U.S. opposes it.

Douglas-Home told the House of Commons that the East-West nuclear deterrent had taught the Soviet Union the futility of force in world affairs and said the Chinese might learn the same lesson by being exposed to western thought in the UN.

Farm Output Index Hits Record High

OTTAWA (CP)—The Canadian index of farm production shot to a record 164.1 in 1963, the bureau of statistics said Wednesday.

The index is based on the 1949 physical volume of production equalling 100. The previous high was 152.7 in 1962.

The 1963 index got its biggest boost from the huge wheat crop in Saskatchewan and Alberta. But there also were small increases in the output of cattle, hogs, poultry, dairy products and fruits.

Declines were noted last year for potatoes, vegetables, calves and eggs.

The 1963 provincial indexes with the 1962 equivalent bracketed:

Prince Edward Island 97.4 (100.0); Nova Scotia 127.7 (126.1); New Brunswick 95.4 (96.8); Quebec 154.8 (155.1); Ontario 130.4 (145.4); Manitoba 130.6 (151.2); Saskatchewan 222.2 (167.2); Alberta 153.6 (160.4); British Columbia 150.3 (153.1). There is no index for Newfoundland.

Canadian IOE chapters in 1963 spent nearly \$46,000 on 2,165 schools, including 32 in Labrador and 63 in the Arctic.

"The Chinese still refuse to admit this," he said.

PM WANTS CHINA IN UN

He made the statement during a speech concluding a two-day Commons debate on foreign affairs. Patrick Gordon Walker, Labor's spokesman on foreign policy, already had declared Britain must use "all our influence to get China into the United Nations."

"Douglas-Home based his argument on the belief that the Soviet Union had realized the dangers of using force "mainly because the Russian leaders have a knowledge of what nuclear war means."

STUDENT LIVES IN AIR SHAFTS

NEW HAVEN, Conn. (AP)—A Yale student emerged from a ventilation shaft on campus after graduation this week with a strange story to tell—he's lived in the shaft for seven months.

"It was a little cold," said Allan Kornfeld, 22, of Tulsa, Okla. "In the winter I used an electric blanket. But ventilation wasn't a problem."

His living quarters for most of the year consisted of a brick passageway feeding air into the squash court in Sullivan College, one of Yale's 12 residential colleges. The blind passageway was about 10 feet high, eight feet wide, and 40 feet long.

University officials, campus police and most of the college's more than 300 residents never found out.

Kornfeld said that only a few of his closest friends knew about his living quarters.

Kornfeld's problem was this: He was taking an extra year to get into medical school. Although he had a scholarship the previous four years, the university does not extend aid to fifth-year special students.

RUNAWAY TRUCK LEAVES TRAIL OF DAMAGE

Police and firemen apply first aid to Maurice Tremblay, 22, at the end of a wild ride down John Street at the height of the morning rush hour in Hamilton, Ontario, Thursday.

The truck's brakes failed at the top of Hamilton Mountain. The vehicle left a \$25,000 trail of 11 damaged vehicles and four injured drivers before spilling its 20-ton load of 1,500 boxes of ketchup and tomato juice, halting traffic for blocks. Car drivers injured were Mrs. Esther Crak, 45, Derek Bosch, 37 and George Hutchison, 51, all of Hamilton. None were seriously injured. The truck driver, from Tilbury, Ont., was still unconscious hours after the accident. (CP Wire photo).
