MEDICAL ASSISTANCE.
THE GREAT AMERICAN REMEDY

RADWAY'S READY RELIEF.

THE GREAT EXTERNAL AND INTERNAL REMEDY,
STOPS THE MOST EXCRUCIATING PAIN IN A FEW MINUTES,
AND
RAPIDLY CURES THE PATIENT.

RADWAY'S READY RELIEF

Proves its superiority to all other Medicines at once.
ITS FIRST INDICATION
Is to relieve the sufferer of PAIN, no matter from what cause it may originate, or where it may be seated.
If in the Head, Face, or Throat
If in the Back, Spine, or Shoulder;
If in the Arms, Breast, or Side;
If in the Joints, Limbs, or Muscles;
If in the Nerves, Teeth, or Ears;
Or in any other part of the body, its application to the part or parts where the pain exists will afford immediate relief.

IF SEIZED WITH PAIN
In the Stomach, Bowels, or Kidneys;
In the Bladder, Spleen, or Liver;
In the Teeth, Ears, or Throat;
In the Brain or Nervous System;
One teaspoonful of RADWAY'S READY RELIEF to a wineglass of water will, in a few minutes, restore the patient to ease and comfort.
If Lame, Crippled, or Bed-ridden;
If Palsied, Scalded, or Burned;
If Bruised, Wounded, or Cut;
If Strained, Injured, or Disabled;
If Sun Stroke, or seized with Fits;
If Weak in the Spine or Back;

RADWAY'S READY RELIEF

should be applied to the part or parts afflicted. It instantly relieves the patient from pain, and quickly heals, soothes, and strengthens the disabled parts. In all cases of Bites of Rabid Dogs, Reptiles, Stings of Poisonous Insects, the application of RADWAY'S READY RELIEF to the wound will prevent inflammation and mortification.

FEVER AND AGUE.

Persons exposed to the Malaria of Ague, or if seized with Chills and Fever, will find a positive Antidote and Cure in Radway's Ready Relief. Let two teaspoonsful of the Ready Relief, in a wine-glass of water, be taken on getting out of bed in the morning, and however exposed to malaria you will escape.

WHEN SEIZED WITH
CHOLERA, or Diarrhœa, or Flux;
Dysentery, Cramps, and Spasms;
Billous Cholic, or Gastritis;
Scarlet, Typhoid, or other Fevers;
Influenza, Coughs, or Colds;
Inflammation of the Stomach or Bowels;

RADWAY'S READY RELIEF

SHOULD BE TAKEN INTERNALLY.
One dose will stop the pain; its continued use will, in a few hours, cure the patient.

HOW IT CURES.

The secondary indication of RADWAY'S READY RELIEF is to cure the patient of the disease or malady that occasions the pain; this it accomplishes rapidly and radically. *So swift* is the patient transformed from pain, misery, weakness, and decrepitude, to the delightful enjoyment of health and strength, that patients frequently ascribe its talismanic power to the supernatural influence of enchantment.

RHEUMATISM, LUMBAGO, GOUT, NEURALGIA, TOOTH ACHE, CROUP, INFLUENZA, SORE THROAT, QUINZY, DIPTHERIA, HOARSENESS, BRONCHITIS, STIFF JOINTS, ENLARGED TENDONS, HEAD ACHE, (Sick or Nervous,) ASTHMA, or HARD BREATHING.

It is truly marvellous how quick RADWAY'S READY RELIEF cures the sufferers of these maladies. The poor, crippled, and pain-stricken Rheumatic has not to wait days before a change takes place, but in a few minutes derives ease and comfort.

CHRONIC RHEUMATISM CURED.
Twenty Years of Sleepless Nights.

Wm. Sydney Myers, Esq., of Havana, Cuba, the correspondent of the London Times, suffered with Acute and Chronic Rheumatism for twenty-five years, and for twenty years he had not enjoyed one whole night's calm rest. He applied RADWAY'S READY RELIEF—it immediately gave him ease and secured him the first calm and undisturbed sleep during the twenty years. The continued use of the READY RELIEF cured him.

PREVENTION BETTER THAN CURE.
THERE IS NO OCCASION FOR SICKNESS.
When you first feel pain, then take a teaspoonful of the READY RELIEF in water; or apply it to the parts where you feel the discomfort.

ALL MALIGNANT DISEASES
first give warning of their presence, and if met promptly before they become securely intrenched within the system, will be readily expelled.

SIGNS OF SICKNESS.
Headache, Pains in the Limbs—in the Stomach, Bowels, and Kidneys—Cold Chills and Hot Flushes, Coated Tongue, Burning Skin, Nausea, Shivering, Dullness, Loss of Appetite, Restlessness, Giddiness, &c., &c., are premonitory symptoms of Malignant Diseases. One dose of the READY RELIEF is sufficient to break up and expel diseased action, and restore the patient to health.

SOLDIERS.

Every soldier should carry with him a supply of Radway's Ready Relief. It supplies the place of all other medicines, and as a beverage, a teaspoonful of the Relief, to a wine-glass of water, is a nicer, pleasanter stimulant than brandy, whisky, or bitters.

SICKNESS PREVENTED IN THE 8TH MAINE REGT.
Eighth Maine regiment, Serg't C. P. Lord, writes that Radway's Ready Relief saved the regiment from death while quartered at Tybee Island, S. C., when working in the swamps, erecting fortifications. Every man seized with Typhoid and other Fevers, Fever and Ague, Diarrhœa, Dysentery, Rheumatism, was cured by the use of the Ready Relief.

CAUTION.
In all cases ask for Radway's Ready Relief. Take no other. See that the signature of Radway & Co. is on the outside label of each bottle. Every agent is supplied with a new and fresh stock. Price 25 cents per bottle. Sold by Druggists, Merchants and country Store-keepers.

All Cures Made Easy!!

BY

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad Breasts, and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas, and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; the most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout and Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm, and other Skin Diseases.

After fomentation with warm water, the utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will readily be improved, although the eruption may be driven out more freely than before, and which should be promoted; perseverance is necessary.

Sore Throats, Diptheria, Quinsey, Mumps, and all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula or King's Evil, and Swelling of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure, the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs	Corns (Soft)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore-throats
Bite of Moschetoes and Sand Flies	Fistulas	Skin-diseases
	Gout	Scurvy
		Sore-heads
Coco-bay	Glandular Swellings	Tumours
Chiego-foot		Ulcers
Chilblains	Lumbago	Wounds
Chapped Hands	Piles	Yaws

MOFFAT'S LIFE PILLS AND PHŒNIX BITTERS.

THESE Medicines have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to porsens suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibably proved that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and indulging them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither *Mercury* nor *Antimony* nor *Arsenic* nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual Costiveness with all its train of evils, or sudden Diarrhœa with its imminen dangers. This fact is well-known to all regular anatomists who examine the human bowels after death; and hence theprejudices of these well informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; *Flatulency, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Langour,* and *Melancholy,* which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solventprocess, and without violence: all violent purges leave the bowels costive within two days.

DIARRHŒA and CHOLERA, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucuous membrane.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure *Rheumatism* permanently in three weeks, and *Gout* in half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence they have ever been found a certain remedy for the worst cases of *Gravel.*

Also *Worms,* by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and *Consumption,* by relieving the air vessels of the lungs from the mucous which even slight colds will occasion, and which, it not removed, becomes hardened, and produces those dreadful diseases.

Scurvy, Ulcers and *Inveterate Sores,* by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

Scorbutic Eruptions and *Bad Complexions,* by their alternative effect upon the fluids that teed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of *Salt Rheum,* and a striking improvement in the clearness of the skin. *Common Colds* and *Influenza* will always be cured by one dose, or by two even in the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well-known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THIRTY-FIVE YEARS, and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica.* He, however, at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by there medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints.

General Debility, LOSS OF APPETITE, AND DISEASES OF FEMALES—these medicines have been used with the most beneficial results in cases of this description:—KING'S EVIL and SCROFULA, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. NIGHT SWEATS, NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, PALPITATION OF THE HEART, PAINTER'S COLIC, are speedily cured.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of MERCURY, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.

BE CAREFUL OF COUNTERFEITS.

Several have lately been discovered, and their nefarious authors arrested, both in the city of New York and abroad.

THE NEW FRENCH REMEDY.

By Royal Letters Patent, under the special sanctionon Her Majesty's Government, and the Chiefs of the Faculte de France.

THERAPION:—or CURE OF CURES. This successful and highly popular medicament, as employed in the continental hospitals by Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. Devoid of *taste, odour,* and *appearance of medicine,* it can be left or carried anywhere, and taken from time to time without exciting suspicion. Each package contains full instructions for every case.

THERAPION, No 1, in three days only removes gonorrhœa, gleet and all discharges, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief, where other well-tried remedies have been powerless.

THERAPION, No. 2, for syphilis, disease of the bones, sore throat, threatened destructionof the nose and palate; impurity of blood, scurvy, pimples, spots, blotches, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of the sufferer's teeth; and ruin of health. Under this medicine every vestige of disease rapidly disappears: and the skin assumes the pleasing sottness of infancy.

THERAPION, No. 3, for relaxation, spermatorrhœa, and all the distressing consequences arising from early abuse, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated. To those who are prevented entering the marriage state by the consequences of early error, it will render essential aid by subduing all disqualifications; and restoring the lost tone to the system. Therapion may be procured at 11s, and 33s per package, through all medicine vendors, or in £5 packages for foreign shipment, direct from London only, by which £1 12s. are saved: and £10 packages for the more inveterate cases, by which a still greater saving is effected. In ordering the above, the purchaser should state which of the three numbers he requires.

HER MAJESTY'S HON. COMMISSIONERS have graciously permitted the Government stamp, bearing the word "Therapion" in white letters, to be attached to each package; thus insuring the public against fraudulent imitations, and securing to the proprietor the sole right of supply throughout her dominions; and any infringement of which they will prosecute with the utmost severity.

THE MEDICAL ADVISER on the modern treatment of mental and physical incapacity, syphilis, stricture, &c.; with unfailing rules and prescriptions for the speedy cure, by very simple means, of all the more common diseases and supposed incurable maladies of the sexual system. REVIEWS AND NOTICES.

"To be your own counsel or your own doctor, entails risks that have become proverbial to a degree that prevents much good resolution from taking any benefit or advantage when reasonably offered. Suspicion begets irresolution, and where there is no confidence good results seldom follow. Medical books are a field for the faculty alone, and the public act wisely in refraining from their study. 'Drink deep or taste not the Pierian spring,' is good advice where the uninformed mind, listening to its own apprehensions is oftener ready to imagine than use its cool judgment. There is one class of medical lore, however, that stands in a position somewhat exceptional to our remark, and which treats on disorders and irregularities in which morality is offended. For this reason the patient too often suffers in secret, or pursues in ignorance practices that daily bring him into a more hopeless condition for want of friendly advice. To such we recommend a perusal of the 'Medical Adviser' of Walter De Roos, M. D., of London, an established Physician, graduate and licentiate of all the regular institutions of London and Paris; and who has made nervous disorders and their baneful origin his particular study, and obtained such a practice in this branch of therapeutics, as qualifies him to be a safe and competent adviser.—*County Chronicle, May 7th, 1861.*

"The **MEDICAL ADVISER,** by WALTER DE ROOS, M. D., for the class of diseases upon which it treats is undoubtedly the best and most soundly practical book which has come under our notice The author is a man of most enlarged experience."—*Derby Telegraph, June 29th, 1861.*

To those who contemplate marriage its perusal is especially recommended.—The knowledge it imparts must come *some* time, and happy they who do not possess it too late.—Cure is certain in every curable case, and few indeed are they which are not so.—It is calculated to effect a complete revolution in the treatment of these complaints.—Simple and inexpensive, every sufferer may cure himself speedily, privately, and at the least possible cost.

From long practical observation of the treatment pursued in the most famous Institutions of this country and the continent, for those diseases referred to in the above work, the Proprietor has had somewhat unusual facilities for acquiring that uniform success which has hitherto characterized his practice, in which the distressing consequences resulting from the injurious employment of mercury, capivi, sarsaparilla, and similar dangerous medicines are entirely obviated. Lasting benefit in these cases can only be reasonably expected at the hands of those who devote their chief attention to such diseases; and to such only can confidence be safely extended. Dr. De R. refers with pride to the numbers he has been instrumental in restoring to health and happiness, whilst to all who need such aid he offers every assurance of speedy restoration.

FOREIGN RESIDENTS can be successfully treated by correspondence, on sending the detail of their cases, with a Bank note or Bill on a London house for £5 or £10, in order that a package of medicines to meet the exigencies of the case, may be sent out by next mail, thus avoiding the protracted suffering and unnecessary loss of valuable time, which must otherwise occur.

DR. DE ROOS' GUTTÆ VITÆ OR LIFE DROPS; *Protected by Royal Letters Patent of England; Seals of the Faculte de France; Royal College of Prussia, &c*, have in numberless instances proved their superiority over every other advertised remedy for Spermatorrhœa, languor, lassitude, depression of spirits, irritability, anger, excitement, needless fear, distaste and incapacity for society, study or business; indigestion, pains in the side, palpitation of the heart, giddiness, noises in the head, impotency, impediments to marriage, &c. This medicine strengthens the vitality of the whole system, gives energy to the muscles and nerves, thus speedily removes nervous complaints, renovates the impaired powers of life, and invigorates the most shattered constitution. For skin eruptions, sore throat, pains in the bones, and all those diseases in which mercury, sarsaparilla, &c. are too often employed in vain, to the serious detriment of health, its surprising efficacy has only to be tested to be appreciated.

As these complaints if neglected become chronic or incurable, sufferers will do well before they waste valuable time in seeking aid from instruments, and other absurdities professing to supersede medicines, to make fair trial of a remedy, which concocted on unerring scientific principles, cannot fail, and may be carried about the person, or left upon the toilet table, without exciting a suspicion of its nature. Price, 11s. and four times the quantity at 33s per bottle. The £5 packages containing twelve 11s quantities, by which a saving of £1 12s is effected, will be sent from 25, Bedford Place, only on receipt of the amount per draft on a London house or otherwise.

PAINS IN THE BACK, GRAVEL, LUMBAGO, GOUT, RHEUMATISM, DISEASE OF THE KIDNEYS, BLADDER, &c. DR DE ROOS' COMPOUND RENAL PILLS are a most safe and speedy Remedy for the above dangerous complaints Discharges and Diseases of the Urinary Organs generally, which too frequently harass the sufferer over the best years of life, and end only in an agonizing death. They agree with the most delicate stomach, and in three days effect a cure when capivi, cubebs, &c., have utterly failed. 2s 9d., 4s. 6d., 11s, and 33s. per box. The superiority of these celebrated medicines over everything of the kind, is universally acknowledged, and the extraordinary demand for them without precedent.

Many there are, who from natural diffidence, or fear of discovery, would silently bear their afflictions rather than apply for aid to those from whom they may reasonably expect relief. With the above remedies the sufferer may without the knowledge of a second person, cure himself speedily, privately, and at the least possible expense.

POSTING A LETTER.

Through the introduction of a mutual friend I became acquainted with a gentleman whom it suits my purpose to call Henry St. Clair. He was a man of means and elegant leisure, was fond of literature and the fine arts, and had his country seat upon the banks of one of our most beautiful and romantic rivers. While strolling thro' his delightful grounds, and admiring a hundred pleasant objects, he said to me:

'And who would suppose the foundation of all this was laid in the act of posting a letter?'

I looked at him inquiringly.

'Did it never occur to you,' he went on, 'that if at the beginning a stone had been dropped into the fountain or source of a mighty river, the stream might have been so changed as to have flown through other valleys, and been the pride and glory of another region? So it is with the fortunes of man. A trifle sometimes changes everything, and shapes a career for good or evil. Much of the happiness or misery of life we owe to some little event of no greater moment than the dropping of a stone into the fountain. My own is a case in point. Sit down here, in this little arbor, and I will tell you the brief story.'

'My father,' pursued Henry St. Clair, 'died poor, and left my mother, with three small children, to struggle along in a troublesome world. I was the eldest, and I was nine. My mother labored hard, and not unfrequently stinted herself, to give me a passable education; and as soon as I was old enough to comprehend how much she sacrificed for me, I resolved to assist her in any way I could. At thirteen I got a situation as office-boy, which paid me a small stipend, and I improved all my leisure time in study. I was naturally a good penman, and by adding a knowledge of book-keeping, and sharply watching for all the chances, I obtained, during the course of a couple of years, the place of an assistant accountant in a large mercantile house.

'My son,' said my delighted mother, when I had hurried home and told her the news, 'you seem now to have reached the high road of prosperity, and I hope and pray you may never leave it. Be diligent, be truthful, be honest, and remember that whatever is worth doing at all, is worth doing well; always study to please, not only your employers, but all with whom you may come in contact; and when you can do any one a favor without trespassing upon your duties, never fail to do it; thus will you faithfully serve those who hire you and raise yourself up many friends.'

'I thought her counsel good, and I made it my rule of action. For two years everything went well, and then my employer failed, and I was thrown out of business. But I did not long remain idle. Through the influence of a gentleman whose friendship I had secured by following the advice of my mother, I next obtained a clerkship in the city Post Office. There I remained for seven years—until in fact I left it to go into business for myself. The cause of my leaving it is the little story I set out to relate.

'I had been in the Post Office about three years, when one day, as I was standing at one of the general-delivery windows, a stout, rustic-looking man—red, heated, and excited—came rushing up, letter in hand, and, catching his breath between the words, exclaimed—

'Will you be kind enough to tell me what time the mail closes that is to go out in the packet Albion?'

'It is closed already,' said I, glancing at the time; 'you are too late by half an hour.'

The man turned deadly pale, and looked as if he was about to faint.

'Gracious Heaven!' he ejaculated, leaning against the wall for support; 'I have ridden fifty miles since sunset last night, to post this letter, and I am too late at last.'

'Is it of great importance?' I inquired, in a sympathetic tone.

'Yes! yes!' he gasped, glancing at me imploringly, and seeming to catch a ray of hope. 'Oh, could you——'

'Quick!' I interrupted; 'give me the letter, the mail has not yet gone! there may be time.'

I almost snatched it from his trembling hand, and darted away with it. I had some trouble in getting it into the proper letter-bag, but as a personal favour to me it was done, though another minute would have been too late. The man was waiting for me when I returned, and I shall never forget his eager, inquiring look, so full of hope and fear.

'Your letter is mailed,' I said; 'it will go, if not already gone.'

'Thank you! God bless you!' he exclaimed, with considerable emotion, tears filling his eyes. 'Your name, sir, if you please!' he added, reaching in his hand and grasping mine with a fervency there was no mistaking.

'Never mind the name,' I returned, with a light laugh. 'It was only a trifling act, and if it has served you in any way you are welcome to it.'

'Please give me your name,' he rejoined, 'I would like to know it.'

I wrote it down on a card and handed it to him. He read it, took out his pocket-book, and put it away carefully; and then, as he again shook my hand at parting, said:

'I shall not forget you, Mr. St. Clair. Not one in a thousand would have put himself to so much trouble for a stranger, without any hope of reward. This is a selfish world, sir—a very selfish world—as I have found to my cost. Good-bye, sir! I will not take up your time any longer. You have done me a greater favour than you dream of, and I never forget a favor. It may some day be in my power to serve you, and then I shall remember you. Once more, good-bye, sir, and God bless you!'

He walked rapidly away, and I never saw him again. I only thought over the matter to wonder what that letter contained to make its going out in the next English packet (there were no steamships running regularly then as now) of such vital importance, and then it gradually passed out of my mind, and took its place among the thousand trifling incidents that are forgotten.

The salary of my post office clerkship gave me a comfortable living, and when my next younger brother had secured a place, we managed to put our mother at ease in mind and body. I had been over six years engaged in postal affairs, when, one day, to my great surprise, I received a letter, post-marked and dated London, which contained these words:

'If you will send your address, and a card, with your name written on it as you were accustomed to write it three or four years ago, you will hear of something to your advantage.'

This was signed by a name I had never heard of before, with a full superscription for the return letter. Filled with surprise, and all kinds of speculations and conjectures concerning wealthy deceased relatives far removed, of whom I had never had any knowledge, I lost no time in complying with the mysterious request in every particular, and the next packet carried my missive across the great waters. When a sufficient time had elapsed for a reply to reach me, I became very anxious, and I looked for the arrival of every English packet with an eagerness little short of an uninsured merchant expecting a valuable cargo.

Weeks and months passed away, and no news arrived. Then I came to the conclusion that my hand-writing had not proved me to be the person required, and that I should never hear any more of the matter—more especially as I was assured by my mother that she had never heard of our having any relatives in Europe, though such a thing might be, as our family, as well as nearly every other in this country, was of European descent, and of course had ancestors, a parent stem with branches.

Meantime a friend of mine, a very ingenious person, who had recently patented an invention of great prospective value, came to me and asked me if I had any money to invest in a profitable speculation.

'Unfortunately,' said I, 'I have not—it takes all my salary to live in a respectable manner.'

'I am sorry,' he rejoined, 'for I would rather have you for a partner than any other I know of. There is a fortune in my invention—I know it—but it will take some capital (from three to five thousand dollars) to get it properly before the public; and as I have not the means myself, I must unite with some one who has.'

He then laid before me his plans, and so well satisfied me of the success of his scheme, that I was quite depressed at the fact that I could not join him. Although I really had no prospect of raising the money, I begged him to wait a few days and let me make the trial, which he willingly consented to do. I called upon three different parties, and stated the case, but received only the ordinary regrets that they could not just then accommodate me. One had the amount, he said, lying idle only the week before, but had already invested it in real estate. Another had just agreed to put that amount into the business of a friend, and of course could not break his promise. The third had nothing at his command, and of course expressed more regret than any of the others. I say of course, because such is the world. Men are generally sorry and sympathetic in the adverse ratio of their power to assist.

In the meantime my friend had found a man ready to advance the capital and become his partner, in case I should fail to do so; and believing my efforts to be hopeless, after the third refusal, I went round to his office, with a sad heart, to tell him not to wait any longer for me. He was not in, and I did not see him that day; and before another day dawned, I received my long-looked-for letter.

I opened it with an eager, trembling hand, hoping it might contain some good news, on which to build a future hope. Judge of my surprise and delight, on finding an enclosed draft for one thousand pounds, payable to my order. Could it be real and genuine? were not my senses deceiving me? To come, too, just at the moment, when, as I believed, five thousand dollars would secure me a fortune, made it seem more like magic than reality.

With an almost swimming brain I read the letter accompanying it. The writer began by calling me his dear friend, but warned me I should find the name of stranger attached to the epistle. It then continued as follows:

'You may remember, however, that somewhere about four years ago, a person came to the post office where you were then a clerk, and inquired of you what time the mail closed that was to go out in the next English packet; that you told him that he was already half an hour too late; that you pitied his distress at this announcement, and offered to get his letter posted, if possible. You succeeded, and received his tearful thanks, and, at his urgent request, wrote your name for him on a card. I hope you remember all this, because the writer is that individual, and desires to live in your memory as you ever will in his.

'Now, kind friend, let me tell you of the importance of that letter, and its value to me. I had a rich, unmarried uncle, who was in a deep decline. He had been told I was dead, and had willed his vast possessions to other relatives. I heard of this, as it were by accident, and that he was about to sail for the East Indies, never to return. A letter by the next packet might possibly reach him in England. I wrote it, and rode fifty miles to mail it; but it would have been too late only for your kindness. It did reach him, however, on the eve of his departure, and caused an important alteration in his will, for I was the only son of a favourite sister. He sailed for India, but died on the passage; and if my letter had missed that packet, he would never have received it. The difference to me would have been a fortune. I was poor then—I am rich now. Will you accept this trifle, not as a reward, but as a token of friendship—from one who has ever been, and ever will be, grateful. That single minute of time, which you so kindly improved, made the difference of a *world* to me; and if it is ever in my power to change your fortune for the better, I am yours to command. I would have sent this remembrance sooner, but there has bean some litigation, and I have only recently come into possession of my legacy. You will, of course, pardon my having sent for your address and card, to avoid the possibility of a mistake; and my absence in India, on the return of your letter, must be my apology for my long delay in communicating with you since."

This was the substance of a letter that made the difference of a *world* to me—for I now had the means of entering into partnership with my friend—and that resulted, as you see, in a fortune, and as much happiness as can be found in this sphere of existence. It would be difficult to calculate the changes effected and the persons made happy by that simple act of posting a letter; and if we go down to posterity, and consider the destinies altered by that one trifling thing, we shall perceive how great, under Providence, become the smallest deeds of our lives. It may be the stone in the fountain."
