"Covers Prince Edward Island Like The Dew"

Sunny with little change in temperature; light winds. Low-high at Charlottetown 55 and 80.

DR. USMAN Sastroamidjojo, Indonesian Ambassador to Canada, was the guest of honor at a state dinner given by the Government of Prince Edward Island at the Charlottetown Hotel last night. Left to right are: Sir Archibald Nye, High Commissioner from the United Kingdom to Canada; Lieutenant Governor Prowse, H. O. Eugene Cullen, The Ambassador, Rev. A. Frank MacLean, Senator J. P. MacIntyre.

STATE DINNER HELD

Indonesian Ambassador Is Prov. Government Guest

"I have to apologize for not being able to express my gratitude for this wonderful reception you have given me. Of all the provinces I have visited in Canada this reception is by far the best."

Dr. Usman Sastroamidjojo, Ambassador of the Republic of Indonesia to Canada, was the guest of honor at a state dinner given last night by the Government of Prince Edward Island in His Excellency's honor.

Also in attendance at the dinner was His Excellency, Sir Archibald Nye, High Commissioner from the United Kingdom to Canada. Sir Archibald and Lady Nye are returning to England after four years spent in Canada.

Non. Eugene Cullen, Premier of Agriculture, acting Minister of the local Government and a number of Government officials. The Clergy were represented by Rev. A. Frank MacLean, President of the Charlottetown Ministerial Association.

DR. SASTROAMIDJOJO, who is himself a lawyer, expressed his regrets at being unable to meet Premier Matheson, who is attending the annual meeting of the Canadian Bar Association at Montreal.

The Indonesian Ambassador said his country was quite often confused with Indo China, Malaya or Indo something. He said Indonesia is composed of ten thousand islands stretching for three thousand miles. Java, which is one of the islands, has a population of 83 million and is the size of Nova Scotia and New Brunswick.

Dr. Sastroamidjojo said he felt somewhat in the role of a gate-crasher because the reception had originally been planned for Dr. Sastroamidjojo but "coming along at the last moment, you have been very generous to me," he added.

RECALLS PLEASANT TRIP The former member of the Imperial General Staff in recalling his four years experience in Canada said one thing had been very definitely demonstrated, that Canada could stand on its own legs and make its own political decisions without following the lead of any other, including Great Britain or the United States.

Sir Archibald told his listeners that he and his wife after ten years away from home "six in India and four in Canada" were now returning to their native land. He said the years they spent in this country would be treasured as the most delightful they had ever spent.

He also in attendance at the dinner was His Excellency, Sir Archibald Nye, High Commissioner from the United Kingdom to Canada. Sir Archibald and Lady Nye are returning to England after four years spent in Canada.

Non. Eugene Cullen, Premier of Agriculture, acting Minister of the local Government and a number of Government officials. The Clergy were represented by Rev. A. Frank MacLean, President of the Charlottetown Ministerial Association.

New Ferry Berth At Wood Islands

A new berth on the west side of the present wharf at Wood Island is to be constructed to accommodate the new Northumberland Ferries ship "Lord Selkirk", the Guardian was advised last night by Mr. Neil A. Matheson, The Federal Department of Public Works in charge of the contract this month.

The new ferry to ply between Wood Islands and Caribou, N.S., has an overall length of 230 feet, with a beam of 54 feet 6 inches and a draught of 10 feet. She is scheduled for completion next year.

The five who arrived Tuesday include Patrick Rodriguez, 20, of St. Benjamin, Que.

Winners from Nova Scotia, New Brunswick, Prince Edward Island and Ontario are due today. Newfoundland is not represented.

The scholarships, awarded by the CNE, were inaugurated this year and are expected to become an annual prize. The winners were chosen for farming achievement, club work and scholastic standing. Three of the winners are girls.

Winnipeg (CP) — Most Rev. Walter F. Barfoot, 62, Archbishop of Rupert's Land and Anglican Primate of All Canada, was reported in good condition in hospital Tuesday following a serious abdominal operation. His doctors described the operation as successful.

The archbishop is expected to remain in hospital for three weeks and spend eight weeks convalescing after his release.

OTTAWA (CP) — Cmdr. Charles Rodger Parker, DSC, 41, of Toronto and Victoria will be commander of the Canadian Navy's third new destroyer escort, HMCS Ottawa, when it is commissioned later this year.

The Ottawa, one of a line of Canadian-designed ships which includes the St. Laurent and the Assiniboine, is being built at the Canadian Vickers Ltd. shipyards at Montreal.

SINGAPORE (Reuters) — A cargo of 6,000 live mosquitoes left Singapore Tuesday by air for Washington, D.C., to be used in research on virus disease.

WASHINGTON (AP) — The United States highway during the three-day Labor Day holiday weekend totalled 435 — 45 short of the predicted toll of 480 lives.

In addition there were 89 drownings and 72 deaths from miscellaneous causes to bring the overall violent death toll to 596.

Statistics for the 78-hour weekend were compiled from 6 p.m. local time Friday to midnight Monday.

Though the traffic toll rose slightly as late reports were made Tuesday, there was little chance that it would climb much higher. In a revised estimate, the National Safety Council figured that the toll would not go beyond 440.

The council interpreted this as meaning "a saving of at least 40 lives in the final toll."

GLAD GUESS TOO HIGH The council noted that its forecast was higher than the actual toll—the 23rd time this has been so—and its president, Ned H. Dearborn, commented:

"We are always glad to be wrong when our estimate is greater than the actual highway slaughter. We wish that our forecast for this holiday had been wrong by an even greater margin."

Award Contract For Clifton Job

A contract for the construction of a retaining wall at Clifton to protect the boat harbor has been awarded by the Federal Department of Public Works to Edward McCallum, Brackley, It was announced last night by Mr. Neil A. Matheson, M. P. The contract is for \$6,977.

Winners In 4-H Clubs To Visit C. N. Exhibition

TORONTO (CP)—An advance guard of 4-H Club members from nine of the 10 provinces arrived at the Canadian National Exhibition Tuesday. They are 4-H members who have won \$750 scholarships to accolade of their choice.

The five who arrived Tuesday include Patrick Rodriguez, 20, of St. Benjamin, Que.

Winners from Nova Scotia, New Brunswick, Prince Edward Island and Ontario are due today. Newfoundland is not represented.

The scholarships, awarded by the CNE, were inaugurated this year and are expected to become an annual prize. The winners were chosen for farming achievement, club work and scholastic standing. Three of the winners are girls.

British Surgeon To Lecture At Halifax

HALIFAX (CP) — Sir Geoffrey Langdon Keynes, chief surgeon at St. Bartholomew's Hospital in London, will lecture Dalhousie University medical students next week.

Visiting Canada as the 1956 Simms Commonwealth travelling professor, Sir Geoffrey will stop at a number of Canadian universities. He is renowned for his non-operative treatment of carcinoma of the breast.

Name Destroyer Escort Commander

OTTAWA (CP) — Cmdr. Charles Rodger Parker, DSC, 41, of Toronto and Victoria will be commander of the Canadian Navy's third new destroyer escort, HMCS Ottawa, when it is commissioned later this year.

The Ottawa, one of a line of Canadian-designed ships which includes the St. Laurent and the Assiniboine, is being built at the Canadian Vickers Ltd. shipyards at Montreal.

RUSSIANS BUY CANADIAN MACHINES

Prime Minister & Ishkov Exchange Fishing Stories

OTTAWA (CP)—Fisheries Minister Alexander A. Ishkov of Russia swapped fishing experiences with Prime Minister St. Laurent Tuesday.

He also held a press conference at which he said the Soviet Union will buy many fish processing machines already seen by the delegation, which has so far visited the Maritimes and central Canada. The delegation leaves today for Vancouver.

After Mr. Ishkov's 15-minute visit with the prime minister, Fisheries Minister Sinclair reported the two discussed fish. He said Mr. St. Laurent told the Russian fisheries minister that he caught two dozen trout during his vacation.

The prime minister returned to the capital Tuesday from his summer home at St. Patrick, Que. Mr. Ishkov also met briefly with Health Minister Martin, acting external affairs minister. Again, said Mr. Sinclair, who was at both meetings, the topic was strictly fish.

DEAL IN TORONTO Earlier Mr. Sinclair disclosed at the press conference that negotiations for purchase of Canadian fish processing equipment were opened during the Labor Day weekend between Mr. Ishkov and the John Inglis Company of Toronto.

The Canadian minister said the Russians are interested in a whole line of equipment, from fish freezing to processing and packaging. How much the Soviets will spend in this country, however, was a matter of negotiation between them and the Toronto plant.

TALK LOBSTER TRADE Mr. Ishkov said it would not be reasonable to develop a new manufacturing industry in Russia if the machines and equipment can be bought from Canada.

He also mentioned a possible exchange of sturgeon and lobster species between the two countries. Russia had no lobster industry and would welcome species from Canada for experimentation.

He suggested tours of fishermen be arranged between the two countries "to improve mutual understanding" between Canadians and Russians. His tour of Canada follows Mr. Sinclair's visit to Russia last year.

Mr. Ishkov said he is not interested in buying Canadian fishing vessels. But he observed he is only half-way through his three-week tour and might find additional technical equipment on the west coast.

He said he was much impressed with some fisheries developments on the east coast. He wanted to see how the west coast co-ordinates its fishing regulations and develops scientific research in salmon.

At a luncheon in the fisheries department's test kitchen, Mr. Ishkov agreed with Mr. Sinclair that, whereas meat is meat, fish provides infinite variety. The meal is reported to have consisted of fish from almost every corner of Canada.

AMSTERDAM, N.Y. (AP)—Six cars and a tractor-trailer were involved in pileup Tuesday night on the state highway.

Most seriously hurt was Louis Hubley, of Halifax, who suffered fractured ribs and cuts about the face.

Thruway police said a car driven by Mildred E. Boice, 34, of Ballston Spa triggered the crash when the driver slowed down for what she thought was fog. It turned out to be wind-driven lime from a field being sprayed.

Her car was struck in the rear, police said. A tractor-trailer stopped to avoid the first two vehicles and was struck in turn by four cars, they said.

Electricians In Halifax Begin Strike

HALIFAX (CP)—Halifax electricians stayed off their jobs Tuesday to support demands for higher pay, but it will be at least a day or two before the strike's full impact is felt.

Local 625 of the International Brotherhood of Electrical Workers said Tuesday night that picket lines would not be set up before Thursday or Friday, and until then other construction unions will continue to work.

But when picket lines are formed, the seven other unions which, with the electricians, form the Halifax District Building Trades Council, say they will reduce off their jobs and tie up \$7,000,000 worth of building.

NO SETTLEMENT SEEN Meanwhile there was no sign of a settlement following the first day of strike action. The union is striking for a nine-cent hourly increase, recommended earlier this year by a conciliation board. The increase would go to all unions within the council.

The conciliation board also recommended a paid Labor Day holiday and the electricians local said Tuesday night that if this was not granted it wants a 10-cent hourly increase.

The Halifax Construction Association, an organization of contractors, has offered the unions a seven-cent increase with another seven cents being added next May 1. Norman Collins, president of the local, says the union's objective for the next year is a 17-cent increase, and it would settle for an immediate eight-cent hike if quarantined.

Picket lines were originally scheduled to go out today, but union officials said Tuesday night they would go out Thursday or Friday "if nothing happens beforehand."

Officials said about 25 electricians remained on their jobs Tuesday when contractors, who are not members of the association, granted them a nine-cent increase and the paid Labor Day.
