Less Time Lost Through Strikes

OTTAWA, Sept. 29 (CP)—Time loss through work stoppages arising from industrial disputes in Canada showed a sharp drop in August from the preceding month, the Labor Department announced today.

In a preliminary report, the department said there were 43 strikes and lockouts in existence during August, involving 15,018 workers with a time loss of 205,515 man-working days.

This compared to 47 work stoppages in July this year with 55,737 workers involved and a time loss of 881,318 days.

The department said more than 60 per cent of the total time loss during August was accounted for by six work stoppages. These were carpenters, painters and decorators and laborers in British Columbia, rubber factory workers at Hamilton, Ont.; shipyard workers at Lauzon and Montreal; canning factory workers at Leamington and Wallaceburg, Ont.; and copper refiners at Montreal.

These six disputes were responsible for a combined time loss of 142,700 man working days and involved 9,398 workers. Of the 43 strikes and lockouts in existence for varying periods during August, 1962, 24 were in effect prior to that month. Of these 11 were terminated by the end of the month. Of the 19 work stoppages which commenced in August seven were terminated by August 31. Thus, there were 25 strikes and lockouts still in effect at the beginning of September.

The board turned down a motion by counsel for the four Western governments asking that the application not be heard now.

Following the brief business session, Rev. E. M. B. Wheelock, District Secretary of the Society spoke briefly on the work of the Society and then showed two sound films, one entitled "The Frontiersmen" depicting the work of Bible Colporteurs in Western Canada and the other entitled, "The Book of Books" showing the intricate details of printing and binding the Bible.

The annual Bible collection is an interdenominational effort with collectors representing all the Protestant churches of the city. As emphasized at the meeting it is an example of a united effort, with denominational differences are laid aside in raising funds for the distribution of the Scriptures which has a common goal of spreading the Gospel to the uttermost parts of the earth.

Grain Rates Battle Continues

OTTAWA, Sept. 29 (CP)—The Canadian Pacific Railway said today that increasing Western freight rates on grain marketed in Canada would remove some "unjust discriminations" in the rate structure.

The company also declared, as the Board of Transport Commissioners began hearings on a railway application to hoist rates, that the move would not affect prices obtained by farmers for their grain.

However, Western provincial counsel opposing the increase indicated they would bring in contradictory evidence concerning the effect of the proposed increases on the farmer.

The railways have applied for the grain increase to obtain an estimated \$3,200,000 a year by boosting the Western rates up to the Ontario-Quebec levels on this type of traffic. Rates on domestic grain in the West have been exempted by the Transport Board from the series of post-war increases amounting to a cumulative 70 per cent.

The proposed increase would not touch the much-heavier export grain traffic, rates on which are held at low levels by the "Crow's Nest Pass" statute.

The increase sought on domestic rates would average out to about 38 per cent. The C. P. R. gave evidence today it would get additional revenue of \$2,144,000 a year. The traffic now is worth about \$3,700,000 a year to the company.

Meeting Of Royal Edward Chapter IODE

The Royal Edward Chapter I.O.E. held its first meeting for the season in the chapter rooms yesterday. The Regent, Mrs. J. A. Lawson, was in the chair and a good percentage of the members were present.

The treasurer's report showed that the Rose Day Sale held early in June had been a success and that with all outstanding accounts settled there was a substantial balance in the bank.

Mrs. Tom Davies the educational secretary read letters of appreciation from the teachers in the schools adopted by the Chapter. They had received libraries, pictures and money for prizes. She also read a letter from Miss Seaman of Prince of Wales College thanking the Chapter for the bursary of \$150.00 given a student entering fourth year in 1951 and the members voted that the same amount be handed over to Miss Seaman for a similar award for this year.

Mrs. Lem McDougall, assistant educational secretary, told of securing names of pen pals from the city schools and reported that interesting letters were being exchanged with students in all parts of the Commonwealth.

Mrs. J. A. Macmillan, convener of the committee "Services at Home and Abroad", reported that early in September members from the Lucy Maud Montgomery Chapter and the Earl of Hillsborough Chapter had met with the committee in the chapter rooms and packed two large boxes of beautiful infants and children's clothing for shipment overseas consigned to the British Overseas Child Welfare Fund. She also reported that baby yarn and heavy yarn was on hand for distribution and members were asked to keep up the knitting.

The Regent read a letter from national headquarters telling of the need for funds for the new agency known as "Canadian Scene" which the Order is supporting from coast to coast. Since the end of World War II Canada has received several hundred thousands immigrants from Continental Europe and in their first years in the new country, quite naturally they find companionship chiefly among their own ethnic groups and learn of current events from newspapers published in their own languages. A number of these journals make no pretense of reporting Canadian affairs accurately, they present a distorted picture of our country's political and economic system. This propaganda, carried on assiduously, can have disastrous effects when directed to new arrivals who have had almost no time or opportunity to learn the facts.

"Canadian Scene" has taken up the battle for the minds of the European immigrants. The first weekly packet of news was circulated on April 16, 1951, in seven languages, and by the end of the year it reached 52 newspapers in eleven languages. The donation to this project was made through the committee on Immigration and Canadianization, convened by Mrs. J. Walter Jones.

During the meeting the members heard the national President, Mrs. Chipman, discuss the Wars Memorials—overseas Scholarships and bursaries to Canadian Universities. Mrs. Chipman was on the new radio program "Canadian Matinee" and was talking with Dr. Martha Law, president of the University Women's Club of Canada.

Miss Marjell Archibald, secretary registrar of the Provincial Nurses Association, was guest speaker and gave a most interesting and instructive talk on the Victorian Order of Nurses. The members showed keen interest in the proposed inauguration of this splendid service in our city and the Regent was named to represent the Chapter if and when a joint meeting of service clubs is called to carry out the same.

A letter of sympathy was sent from the meeting to Mrs. C. H. E. Longworth who recently was bereaved of her beloved husband. The secretary was also instructed to write a letter of thanks to Mrs. Thane A. Campbell for a delightful summer meeting at her home in Stanley.

argued that the issue was one to be embodied in the board's current inquiry that is to lead to a general plan of freight-rate equalization across Canada

Audubon Screen Tour Is Described

The first of a series of Audubon Screen Tours—"Bonaventure Diary"—was held in Prince of Wales College Auditorium on Friday, September 26, sponsored by the Prince Edward Island Women's Institutes.

Robert C. Hermes, noted naturalist of Buffalo, N. Y., was lecturer and took his audience to Bonaventure Island off the coast of Gaspe and by means of beautifully colored motion pictures showed the bird life as well as the native flowers and fisher-folk of this rocky island.

This marked the first time the Audubon Screen Tours have come to the Maritimes, although they are well known in most Canadian and American cities.

These tours have a high entertainment rating as well as definite educational value—especially along conservation lines and the Provincial Institutes are to be commended for bringing these interesting lectures and films to the people of Prince Edward Island.

The second of the series will be held at Prince of Wales College in November, when the speaker will be W. Cruikshanks, and his subject "Beyond The Big Bend."
